New low prices on Actinomycin D

Nutritional Biochemical Co. now offers high quality Actinomycin D at reduced prices. Actinomycin D, bound to DNA, blocks the action of DNA dependent RNA polymerase. Following the dissolution of Actinomycin D in synchronous cell cultures, the synthesis of DNA will continue; however, the production of messenger RNA stops at once.

New, Reduced Prices
10 X 5 mg.-mg. $5.00
5 mg.-mg. $7.00

To order: Phone 216 662-0212 collect (USA only). If you wish, we'll deliver within 24 hours anywhere in the continental USA; 80 hours anywhere in the world. Write for our free catalog of over 3,500 items.

CAUTION: Those of our products which are or may be drugs or food additives, as defined in the Federal Food, Drugs, and Cosmetic Act, will be shipped, and may be used or sold, for investigational use only in laboratory research animals, or for tests in vitro, and are not for use in or for humans. Investigational animals and their edible products may not be used for food.

LIQUID SCINTILLATION
COUNTER NE 6500

* Coincidence counting of Tritium and Carbon-14:
  for Tritium  55% with 25cpm background;
  for Carbon-14  90% with 60cpm background
* Easily adapted for flow cell counting
* External scintillation counters can be directly connected e.g. gamma well
* Large volume (up to 100ml) samples can be accommodated
* Dual channel operation

Full details of NE 6500, NE 8312 Automatic Beta-Gamma Spectrometer and range of Liquid Scintillators available on request.

BOVINE ALBUMIN

Available as:
CRYSTALLIZED AND FRACTION V POWDER

Also as:
FATTY ACID FREE
FATTY ACID POOR
METHYLATED AND SOLUTIONS OF 22%, 30%, 35%, 40%

Applications:
- Tissue Culture Media Supplement
- Growth Media for Leptospira and Other Fastidious Organisms.
- Metabolic Studies of Mitochondria and Fatty Acid Absorption
- Activation or Release of Microbial Enzymes.
- Rh Typing Sera and Other Serological Applications.

Enzymes in the Whatman tradition — purity and reliability

Whatman, already famous for the quality of their filtration and chromatographic materials, are now extending their field of operations to include enzymes and related biochemicals for all applications where purity and reliability are of high importance. The new Whatman range includes: Lactase dehydrogenase, L-asparaginase, Elastase and Glyceraldehyde-3-phosphate dehydrogenase. They are all made to an extremely high standard of purity, and detailed specifications are given in the new Whatman Biochemicals' catalogue. The free loose leaf catalogue is now available and supplementary sheets will be sent to all catalogue holders as new products are introduced. Prices are extremely competitive.

Whatman — enzymes you can trust

Whatman Biochemicals Limited,

### UNIVERSITY OF LIVERPOOL

#### Asthma Research Council Grant

Applications are invited from suitable candidates with experience in protein chemistry and immunological techniques, for post-doctoral work which will be concerned with the isolation of protein allergens and the mechanism of immune responses to them in man and animals. Experience with radioactive and recent *in vitro* lymphocytic techniques would be an advantage. Excellently equipped laboratories, salary scale £1,200–£1,800 per annum with (F.S.S.U.), tenable for two years in the first instance.

Applications, together with the names of three referees should be sent to the Registrar, The University, P.O. Box 147, Liverpool L69 3BX. Quote Ref. RV/5655/BJ.

VOLUME 38, NO. 2  FEBRUARY 1970

CONTENTS

Studies with angiotensins I and II; the use of phenylthiocarbamyl-derivatives. By E. C. Osborn, P. T. Pickens, P. R. Willicombe, A. T. Pirie and R. F. Mahler.

Angiotensin blood levels during the evolution of acute renal failure. By E. Ochoa, S. Finkielman and A. Agrest.

Propranolol block of adrenaline-induced hypophosphataemia in man. By F. Marrara and F. Camanni.

Limited supersaturation versus phase equilibration in predicting the occurrence of decompression sickness. By B. A. Hills.

The effect of hyperventilation on the lactacidaemia of muscular exercise. By R. H. T. Edwards and Marie Cline.

Subscription Rate: £5 ($17.50) per volume of 3 parts; £10 ($35.00) per year.
Orders may be placed with your bookseller, or sent direct to the publishers.

#### α-D-GLUCOSE-1-PHOSPHATE

DIPOTASSIUM SALT G6750

| Purity: 97-99% | Grade I: Crystalline, hydrate | 25 mg | $3.60 |
| Purity: 97-99% | essentially free of extraneous sugars. | 100 mg | 19.80 |
| Purity: 97-99% | traces of Glucose 1,6-Diphosphate. | 250 mg | 39.50 |
| Purity: 97-99% | 500 mg | 65.45 |
| Purity: 97-99% | 1 g | 108.90 |

#### α-D-FRUCTOSE-1-PHOSPHATE

SODIUM SALT F1127

| Purity: 97-99% | 50 mg | 11.90 |
| Purity: 97-99% | 100 mg | 19.80 |
| Purity: 97-99% | 250 mg | 39.50 |
| Purity: 97-99% | 500 mg | 65.45 |
| Purity: 97-99% | 1 g | 108.90 |

#### α-D-FRUCTOSE-6-PHOSPHATE

SODIUM SALT F3627

| Purity: approx. 99% | 100 mg | 2.50 |
| Purity: approx. 99% | 500 mg | 6.00 |
| Purity: approx. 99% | 1 g | 10.00 |
| Purity: approx. 99% | 5 g | 47.00 |

#### α-D-GALACTOSE-6-PHOSPHATE

DISODIUM SALT G1750

| Sigma Grade: approx. 98-100% | 50 mg | 5.40 |
| Sigma Grade: approx. 98-100% | 100 mg | 9.00 |
| Sigma Grade: approx. 98-100% | 250 mg | 18.00 |
| Sigma Grade: approx. 98-100% | 500 mg | 30.00 |
| Sigma Grade: approx. 98-100% | 1 g | 50.00 |

#### α-D-XYLOSE-1-PHOSPHATE

DI-MONOCYCloHEXYLAMMONIUM SALT X1750

| Grade I: approx. 98% pure. | 10 mg | 3.25 |
| Grade I: approx. 98% pure. | 100 mg | 17.50 |
| Grade I: approx. 98% pure. | 250 mg | 51.00 |
| Grade I: approx. 98% pure. | 1 g | 95.00 |

#### α-D(+)MALTOSE-1-PHOSPHATE

BARIUM SALT M7128

| Grade I: approx. 98% pure. | 5 mg | $7.50 |
| Crystalline | 25 mg | 25.00 |
| Crystalline | 50 mg | 50.00 |
| Crystalline | 100 mg | 100.00 |
| Crystalline | 500 mg | 250.00 |
| Crystalline | 1 g | 500.00 |

#### D-RIBULOSE-1,5-DIPHOSPHORIC ACID

DIBARIUM SALT R8125

| Soluble in dilute acid. | 10 mg | 9.00 |
| Anthydrour Mol. Wt.—580. | 100 mg | 14.00 |
| Substantially free of extraneous sugars. | 250 mg | 28.00 |
| Substantially free of extraneous sugars. | 500 mg | 56.00 |
| Substantially free of extraneous sugars. | 1 g | 112.00 |

#### TETRASODIUM SALT R8250

| Soluble in water. | 5 mg | $18.00 |
| Anthydrour Mol. Wt.—398. | 10 mg | 37.00 |
| Substantially free of extraneous sugars. | 25 mg | 54.00 |
| Substantially free of extraneous sugars. | 50 mg | 100.00 |
| Substantially free of extraneous sugars. | 1 g | 200.00 |

#### D-RIBULOSE-5-PHOSPHATE

BARIUM SALT R8375

| Grade I: approx. 70% pure. | 5 mg | $6.00 |
| Substantially free of extraneous sugars | 100 mg | 70.00 |

#### DISODIUM SALT R9875

| Grade I: approx. 75% pure. | 5 mg | $16.20 |
| Substantially free of extraneous sugars | 100 mg | 150.00 |

Miles-Seravac is Enzymes

The association of Seravac with the Research Products Division of Miles Laboratories has created a Fountain Head for enzymes offering you the most comprehensive range ever prepared in the Laboratories of any one organisation.

Miles-Seravac, by pooling the kind of knowledge available in their Research Laboratories, have accelerated their programme for producing new and unique products of the highest integrity. Customers will also benefit in future by closer contact with technical personnel and exchange of ideas in personal discussion.
