

## CONTENTS OF VOLUME 122, No. 1, 1971

	PAGE		PAGE
Metabolic studies on retinoic acid in the rat. By <b>P. R. Sundaresan</b> and <b>H. N. Bhagavan</b> . . . . .	1	An improved procedure for the isolation of 3-phosphoglycerate kinase from yeast. By <b>R. K. Scopes</b> . . . . .	89
The vectorial release of nascent immunoglobulin peptides. By <b>M. J. Bevan</b> . . . . .	5	Isoelectric focusing of proteins in the native and denatured states. Anomalous behaviour of plasma albumin. By <b>M. R. Salaman</b> and <b>A. R. Williamson</b> . . . . .	93
Ketone-body utilization by adult and suckling rat brain <i>in vivo</i> . By <b>R. A. Hawkins</b> , <b>D. H. Williamson</b> and <b>H. A. Krebs</b> . . . . .	13	The subunits of chemically treated proteoglycan isolated from bovine nasal cartilage. By <b>A. Serafini-Fracassini</b> , <b>W. H. Stimson</b> and <b>L. Floreani</b> . . . . .	101
Gentisic acid and its 3- and 4-methyl-substituted homologues as intermediates in the bacterial degradation of <i>m</i> -cresol, 3,5-xyleneol and 2,5-xyleneol. By <b>D. J. Hopper</b> and <b>P. J. Chapman</b> . . . . .	19	Chemical composition of an oestrogen-induced calcium-binding glycolipophosphoprotein in <i>Xenopus laevis</i> . By <b>A. Q. Ansari</b> , <b>P. J. Dolphin</b> , <b>C. B. Lazier</b> , <b>K. A. Munday</b> and <b>M. Akhtar</b> . . . . .	107
The enzymic degradation of alkyl-substituted gentisates, maleates and malates. By <b>D. J. Hopper</b> , <b>P. J. Chapman</b> and <b>S. Dagley</b> . . . . .	29	The role of adenosine 3':5'-cyclic monophosphate in the regulation of insulin release by isolated rat islets of Langerhans. By <b>W. Montague</b> and <b>J. R. Cook</b> . . . . .	115
Changes in drug-metabolizing activities in the livers of suckling rats as a result of treatment of the lactating mothers with phenobarbitone and chlorpromazine. By <b>F. J. Darby</b> . . . . .	41	<b>SHORT COMMUNICATIONS</b>	
The biosynthesis of galactofuranosyl residues in galactocarolose. By <b>A. Garcia Trejo</b> , <b>J. W. Haddock</b> , <b>G. J. F. Chittenden</b> and <b>J. Baddiley</b> . . . . .	49	Increased transfer ribonucleic acid methylase activity in tumours induced in the mouse colon by the administration of 1,2-dimethylhydrazine. By <b>A. E. Pegg</b> and <b>A. Hawks</b> . . . . .	121
Reactions of D-glyceraldehyde 3-phosphate dehydrogenase facilitated by oxidized nicotinamide-adenine dinucleotide. By <b>D. R. Trentham</b> . . . . .	59	The effect of oestrogen on the prostatic metabolism of testosterone in tissue culture. By <b>M. Groom</b> , <b>M. E. Harper</b> , <b>A. R. Fahmy</b> , <b>C. G. Pierrepont</b> and <b>K. Griffiths</b> . . . . .	125
Rate-determining processes and the number of simultaneously active sites of D-glyceraldehyde 3-phosphate dehydrogenase. By <b>D. R. Trentham</b> . . . . .	71	The biosynthesis of tocopherols and related compounds in the blue-green alga <i>Anabaena variabilis</i> . By <b>K. M. Botham</b> and <b>J. F. Pennock</b> . . . . .	127
The binding of cyanide to ferroperoxidase. By <b>C. Phelps</b> , <b>E. Antonini</b> and <b>M. Brunori</b> . . . . .	79		

*Proceedings of The Biochemical Society*

	PAGE
Insulin, amino acid metabolism and lipolysis in isolated fat-cells. By B. JEANRENAUD, M. TOUABI, S. W. CUSHMAN and J.-J. HEINDEL . . . . .	1P
Regulation of plasma triglyceride utilization. By D. S. ROBINSON . . . . .	2P
Methods and problems in the study of plasma triglyceride metabolism in man. By L. A. CARLSON	2P
The metabolism of plasma cholesterol. By N. B. MYANT . . . . .	2P
Nutritional and endocrine factors influencing plasma triglyceride metabolism. By B. LEWIS .	3P
Physical chemistry of calcium stone formation. By A. HODGKINSON and B. E. C. NORDIN . .	5P
Crystallographic studies on the formation of renal calculi. By D. J. SUTOR . . . . .	6P
Primary hyperoxaluria. By R. W. E. WATTS . . . . .	7P
The metabolic basis of uric acid stone formation. By O. M. WRONG . . . . .	9P
Amino acid metabolism in cystinuria. By M. D. MILNE . . . . .	9P
Influence of plasma lipids on the activity of lipoprotein lipase. By P. E. BRUMBY . . . .	10P
Dietary alterations in polyunsaturated fatty acids in guinea-pig brain, liver and muscle. By M. A. CRAWFORD, C. A. LLOYD and L. V. SPRINGETT . . . . .	11P
Plasma structural lipids in groups at high and low risk to atherosclerosis. By M. A. CRAWFORD, S. M. CRAWFORD and I. B. HANSEN . . . . .	11P
Changes in fatty acid patterns in bovine plasma. By I. MULDER . . . . .	12P
The effect of adrenaline and of $\alpha$ - and $\beta$ -adrenergic blocking agents on $^{32}\text{P}$ incorporation into fat-cell phospholipids. By J. M. STEIN and C. N. HALES . . . . .	13P
The distribution of $\text{C}_{17}$ fatty acids in the liver of a child with propionicacidaemia. By D. GOMPERTZ	13P
The occurrence of 6-deoxy-L-altrose in the lipopolysaccharide of <i>Yersinia enterocolitica</i> . By D. C. ELLWOOD and G. R. A. KIRK . . . . .	14P
Solubilization of pig lymphocyte plasma membrane and partial separation of some of the components. By D. ALLAN and M. J. CRUMPTON . . . . .	15P
Macromolecular compounds of bilirubin in human bile. By W. L. G. GENT, G. A. D. HASLEWOOD and G. MONTESDEOCA . . . . .	15P
Glycosaminoglycans of hen's-egg white. By A. H. JOHNSON and J. R. BAKER . . . . .	16P
The oxidation of exogenous reduced nicotinamide-adenine dinucleotide by plant mitochondria. By J. M. PALMER and H. C. PASSAM . . . . .	16P
Polyamine oxidase in higher plants. By T. A. SMITH and R. A. J. STEVENS . . . . .	17P
An assay for azo-reductase activity in micro-organisms. By R. WALKER and R. GINGELL . . .	18P
Kinetics and inhibition by adenosine phosphates and nitrite of nitrate reductase from <i>Spinacea oleracea</i> L. By A. R. J. EAGLESHAM and E. J. HEWITT . . . . .	18P
The mechanism of action of yeast invertase. By S. SHALL, A. BASEER and A. WAHEED . . . .	19P
Some aspects of the effects of electrostatic attraction and of water-entropy changes on the helical stability of deoxyribonucleic acid. By S. LEWIN . . . . .	20P
Is synthesis of glucose 6-phosphate dehydrogenase induced by a metabolite of glucose? By C. D. GREEN, J. SKARDA and J. M. BARRY . . . . .	20P
Biosynthesis <i>in vitro</i> of tryptophanase with polyribosomes from <i>Escherichia coli</i> . By J. H. PARISH, S. A. M. K. BASHAR and M. BROWN . . . . .	21P
Effect of proteolytic enzymes on deoxyribonucleohistone. By P. HENSON and I. O. WALKER . .	22P
Methylation of $\mu 2$ bacteriophage ribonucleic acid by the carcinogen <i>N</i> -methyl- <i>N</i> -nitrosourea: evidence for <i>O</i> -methylation. By P. D. LAWLEY, K. V. SHOOTER, W. L. HOUSE and S. A. SHAH	22P
Studies on aetiology of urolithiasis in Karachi. By I. A. KHAN and M. A. RAHMAN . . . . .	22P
The uptake of calcium from urine <i>in vitro</i> by powdered phosphates and oxalates. By G. R. PHILPOT . . . . .	23P
The detection of heterozygotes for homocystinuria by oral loading with L-methionine. By B. FOWLER, I. B. SARDEHARWALLA and A. J. ROBINS . . . . .	23P
Fucose in urine of fasting human subjects. By D. J. BELL and M. Q.-K. TALUKDER . . . . .	24P

CONTENTS

iii

	PAGE
The metabolism by rats of phenylmercury acetate. By J. W. DANIEL and J. C. GAGE . . . . .	24P
C <sub>2</sub> , -carboxylic acid intermediates of cholesterol biosynthesis in rat liver. By G. M. HORNBY and G. S. BOYD . . . . .	24P
The effect of dietary cholesterol on cholesterol biosynthesis and other processes in mammalian liver. By R. BOOTH, K. W. GREGORY, E. M. MALONE and I. ROBERTSON . . . . .	25P
The identification of 17 $\alpha$ -hydroxy-17 $\beta$ -methylandrosta-1,4-dien-3-one as a metabolite of 17 $\beta$ -hydroxy-17 $\alpha$ -methylandrosta-1,4-dien-3-one in man. By B. S. MACDONALD, P. J. SYKES, P. M. ADHIKARY and R. A. HARKNESS . . . . .	26P
Exchange of sterols between rat brain membranes. By N. L. BANIK and A. N. DAVISON . . . . .	26P
Further studies on the biosynthesis of androsta-5,16-dien-3 $\beta$ -ol and the subcellular location of the site of biosynthesis. By K. H. LOKE and D. B. GOWER . . . . .	27P
The effect of sex hormones on the activity of tryptophan oxygenase and other corticosteroid-inducible enzymes in rat liver. By I. P. BRAIDMAN and D. P. ROSE . . . . .	28P
The formation of nitrosamines by human intestinal bacteria. By G. HAWKSWORTH and M. J. HILL . . . . .	28P
Effect of glucagon on spheroplasts of <i>Escherichia coli</i> . By J. L. R-CANDELA, M. C. GARCÍA and A. NIETO . . . . .	29P
A catalytic mechanism for pig plasma benzylamine oxidase. By C. TAYLOR and P. F. KNOWLES . . . . .	29P
Kinetic studies of the <i>N</i> -demethylation of ethylmorphine by a cytochrome <i>P</i> -450-dependent enzyme system in human liver microsomes. By S. S. THORGEIRSSON and D. S. DAVIES . . . . .	30P
The electrophoretic mobilities of native and chemically modified human placental alkaline phosphatase isoenzymes. By D. M. THOMAS and D. W. MOSS . . . . .	30P
Characterization of an alkaline phosphatase from rat heart. By E. MÜLLER, A. G. E. PEARSE and D. W. MOSS . . . . .	31P
Protease and ribonuclease activities in bovine pituitary lobes. By J. C. PICKUP and D. B. HOPE . . . . .	31P
Relationships between kinetic properties and structure of caeruloplasmin substrates. By G. CURZON and S. N. YOUNG . . . . .	32P
Immunochemical studies on human calcitonin M leading to information on the shape of the molecule. By P. G. H. BYFIELD, M. B. CLARK, K. TURNER, B. M. NATHANSON, G. V. FOSTER and I. MACINTYRE . . . . .	33P
Patterns of serum $\gamma$ G-globulin heterogeneity in health, rheumatoid arthritis and cancer. By J. WATKINS and D. E. H. TEE . . . . .	33P
Extraction of polymeric collagen from human skin. By M. J. O. FRANCIS and D. C. MACMILLAN . . . . .	34P
Some simple and rapid thin-layer chromatographic methods for clinical purposes. By R. S. ERSSER, J. W. T. SEAKINS, B. C. ANDREW and E. A. HUGHES . . . . .	35P
