

CONTENTS OF VOLUME 125, No. 1, 1971

	PAGE		PAGE
The effect of noradrenaline on glyceride synthesis and oxidative metabolism <i>in vitro</i> in the brown fat of newborn rabbits. By B. L. Knight and N. B. Myant	1	The influence of insulin and of contraction on glucose metabolism in the perfused diaphragm muscle from normal and streptozotocin-treated rats. By A. Beloff-Chain , E. B. Chain and K. A. Rookledge	97
The heterogeneity of uridine diphosphate glucuronyltransferase from rat liver. By G. J. Mulder	9	Metabolism of pyruvate and malate by isolated fat-cell mitochondria. By B. R. Martin and R. M. Denton	105
Pteroylglutamate derivatives in <i>Pisum sativum</i> L. Biosynthesis of cotyledonary tetrahydropteroylglutamates during germination. By A. J. Roos and E. A. Cossins	17	Regulation of adipose-tissue pyruvate dehydrogenase by insulin and other hormones. By H. G. Coore , R. M. Denton , B. R. Martin and P. J. Randle	115
Bilirubin glucuronyltransferase. Specific assay and kinetic studies. By K. P. Wong	27	Lactate production in the perfused rat liver. By H. F. Woods and H. A. Krebs	129
Comparative biochemistry of chondroitin sulphate-proteins of cartilage and notochord. By M. B. Mathews	37	Pteridines produced by <i>Methylococcus capsulatus</i> . Isolation and identification of a neopterin 2':3'-phosphate. By T. Urushibara , H. S. Forrest , D. S. Hoare and R. N. Patel	141
Multiple forms of mammalian deoxyribonucleic acid polymerase. An attempt to relate their interactions with nuclei and free deoxyribonucleic acid <i>in vitro</i> with their possible functions <i>in vivo</i> . By P. G. Wallace , D. R. Hewish , M. M. Venning and L. A. Burgoyne	47	The localization of 1,25-dihydroxycholecalciferol in bone cell nuclei of rachitic chicks. By J. C. Weber , V. Pons and E. Kodicek	147
Poly- β -hydroxybutyrate biosynthesis and the regulation of glucose metabolism in <i>Azotobacter beijerinckii</i> . By P. J. Senior and E. A. Dawes	55	Circular-dichroism studies on two β -lactamases from <i>Bacillus cereus</i> . By D. G. Dalgleish and A. R. Peacocke	155
The association <i>in vitro</i> of polyribosomes with ribonuclease-treated derivatives of hepatic rough endoplasmic reticulum. Characteristics of the membrane binding sites and factors influencing association. By T. K. Shires , L. Narurkar and H. C. Pitot	67	Epoxy derivatives of aromatic polycyclic hydrocarbons. The preparation of benz-[a]anthracene 8,9-oxide and 10,11-dihydrobenz[a]anthracene 8,9-oxide and their metabolism by rat liver preparations. By P. Sims	159
Testosterone action in the rat ventral prostate. The effects of diethylstilboestrol and cyproterone acetate on the metabolism of [³ H]testosterone and the retention of labelled metabolites by rat ventral prostate <i>in vivo</i> and <i>in vitro</i> . By J. E. Belham and G. E. Neal	81	The identification of the site of action of NN'-dicyclohexylcarbodi-imide as a proteolipid in mitochondrial membranes. By K. J. Cattell , C. R. Lindop , I. G. Knight and R. B. Beechey	169
Comparison of some metabolic parameters in the perfused and the incubated rat diaphragm muscle with diaphragm muscle <i>in vivo</i> . By K. A. Rookledge	93	The interaction of insulin with phospholipids. By M. C. Perry , W. Tampion and J. A. Lucy	179
		Determination of the sequences of protein-derived peptides and peptide mixtures by mass spectrometry. By H. R. Morris , D. H. Williams and R. P. Ambler	189
		Formation of N'-formylkynurenine in proteins from lens and other sources by exposure to sunlight. By A. Pirie	203

	PAGE		PAGE
Biosynthesis of levan and a new method for the assay of levansucrase activity. By M. Ceska	209	Effect of electrolytes and of distilled water on antigen-antibody complexes. By T. Ternynck and S. Avrameas	297
Mescaline-induced changes of brain-cortex ribosomes. Role of spermidine in counteracting the destabilizing effect of mescaline on brain-cortex ribosomes. By R. K. Datta , W. Antopol and J. J. Ghosh	213	Digestion of an exogenous protein by rat yolk-sac cultured <i>in vitro</i> . By K. E. Williams , J. B. Lloyd , M. Davies and F. Beck	303
The arrangement of proteins on the deoxy-ribonucleic acid in chromatin. By R. F. Itzhaki	221	The subunit structure of prealbumin. By G. Gonzalez and R. E. Offord	309
Fractionation of nuclear and cytoplasmic ribonucleic acids from rat tissues on the methylated albumin-kieselguhr column. By A. V. Lichtenstein and V. S. Shapot	225	<i>Escherichia coli</i> alkaline phosphatase. An analysis of transient kinetics. By S. E. Halford	319
Biosynthesis of the carbohydrate portions of immunoglobulin M. By R. M. E. Parkhouse and F. Melchers	235	Metabolic control mechanisms in mammalian systems. Involvement of adenosine 3':5'-cyclic monophosphate in androgen action. By R. L. Singhal , M. R. Parulekar , R. Vijayvargiya and G. A. Robison	329
Biosynthesis of the carbohydrate portion of immunoglobulins. Incorporation of radioactive fucose into immunoglobulin G1 synthesized and secreted by mouse plasmacell tumour MOPC 21. By F. Melchers	241	Calcium binding by human erythrocyte membranes. Significance of carboxyl, amino and thiol groups. By J. Forstner and J. F. Manery	343
Allosteric activation of brain hexokinase by magnesium ions and by magnesium-ion-adenosine triphosphate complex. By H. S. Bachelard	249	Further studies on the glycerol teichoic acid of walls of <i>Staphylococcus lactis</i> I3. Location of the phosphodiester groups and their susceptibility to hydrolysis with alkali. By A. R. Archibald , J. Baddiley , J. E. Heckels and S. Heptinstall	353
The uptake and efflux of glycine from rat cerebral-cortex slices. By P. Joanny , E. Barbosa , H. Hillman and J. Corriol	255	SHORT COMMUNICATIONS	
The location of the thiol groups of myosin that are protected by pyrophosphate against reaction with 2,4-dinitrophenyl β -hydroxyethyl disulphide. By I. Kakol	261	The teichoic acids of <i>Micrococcus</i> sp. 24. By A. R. Archibald and S. Heptinstall	361
The conjugation of glutathione with unsaturated acyl thiol esters and the metabolic formation of <i>S</i> -carboxyalkylcysteines. By T. W. Speir and E. A. Barnsley	267	Presence of ribosomal ribonucleic acid in the rickettsia <i>Coxiella burneti</i> . By H. A. Thompson , O. G. Baca and D. Paretsky	365
Studies on <i>N</i> -acetylneuraminic acid aldolase. By J. E. G. Barnett , D. L. Corina and G. Rasool	275	Effect of chemical modification of tyrosine residues on bone morphogenesis. By B. S. Strates , S. J. Kirkpatrick , J. E. Heffner and M. R. Urist	367
A reconstituted cell-free system for the specific transfer of steroid-receptor complexes into nuclear chromatin isolated from rat ventral prostate gland. By W. I. P. Mainwaring and B. M. Peterken	285	Cell-free biosynthesis of wool keratin proteins. By B. R. Wilkinson	371
		The turnover rate of noradrenergic vesicles. By W. P. De Potter and I. W. Chubb	375
		Effects of catecholamines on the formation of adenosine 3':5'-cyclic monophosphate in human blood platelets. By R. J. Haslam and A. Taylor	377
		The transketolase exchange reaction <i>in vitro</i> . By M. G. Clark , J. F. Williams and P. F. Blackmore	381
