## Contents of Volume 134, No. 2, 1973

### Biosynthesis and Degradation

**The microbial metabolism of thiophen-2-carboxylate.**  
_By R. E. Cripps_  
PAGE 353

**Studies of cytochrome synthesis in rat liver.**  
_By R. Druyan, S. Jakovcic & M. Rabinowitz_  
PAGE 377

**Biosynthesis of glycosaminoglycans by cultured mastocytoma cells.**  
_By R. G. Lewis, A. F. Spencer & J. E. Silbert_  
PAGE 455

**Biosynthesis of glycosaminoglycans by microsomai preparations from cultured mastocytoma cells.**  
_By R. G. Lewis, A. F. Spencer & J. E. Silbert_  
PAGE 465

**The biosynthesis of glucagon in perfused rat pancreas.**  
_By K. J. O'Connor, A. Gay & N. R. Lazarus_  
PAGE 473

**Adenosine 5'-sulphatophosphatase activity in spinach leaf tissue.**  
_By J. N. Burnell & J. W. Anderson_  
PAGE 565

**Some aspects of carnitine metabolism in avocado (Persea americana) (Short Communication).**  
_By R. A. Panter & J. B. Mudd_  
PAGE 655

**Formation of ceramide phosphorylethanolamine from phosphatidylethanolamine in the rumen protozoan Entodinium caudatum (Short Communication).**  
_By T. E. Broad & R. M. C. Dawson_  
PAGE 659

### Bioenergetics

**Xylitol metabolism in the isolated perfused rat liver.**  
_By H. F. Woods & H. A. Krebs_  
PAGE 437

**Metabolic alterations produced in the liver by chronic ethanol administration. Increased oxidative capacity.**  
_By L. Videla, J. Bernstein & Y. Israel_  
PAGE 507

**Metabolic alterations produced in the liver by chronic ethanol administration. Changes related to energetic parameters of the cell.**  
_By J. Bernstein, L. Videla & Y. Israel_  
PAGE 515

**Metabolic alterations produced in the liver by chronic ethanol administration. Comparison between the effects produced by ethanol and by thyroid hormones.**  
_By Y. Israel, L. Videla, A. Macdonald & J. Bernstein_  
PAGE 523

**Site of inhibition by 2-amino-1,1,3-tricyano-propene of photosynthetic oxygen evolution by spinach leaf chloroplasts (Short Communication).**  
_By E. M. Burden & A. A. Horton_  
PAGE 663

### Subcellular Structures

**The distribution of ribosomes between different functional states in livers of fed and starved mice.**  
_By M. Norman, S. Gamulin & K. Clark_  
PAGE 387

**Isolation and properties of cholesterol ester storage granules from ovarian tissues.**  
_By D. T. Armstrong & A. P. F. Flint_  
PAGE 399

**Amino acid production in isolated rat liver mitochondria.**  
_By W. Ferdinand, W. Bartley & V. Broomhead_  
PAGE 431

**The localization of enzymes of intermediary metabolism in Astasia and Euglena.**  
_By N. Bégín-Heick_  
PAGE 607

### Cellular Interactions and Control Processes

**The effect of ethanol on drug oxidations in vitro and the significance of ethanol-cytochrome P-450 interaction.**  
_By D. L. Cinti, R. G. Grundin & S. Orrenius_  
PAGE 367

**Influence of luteinizing hormone and adenosine 3':5'-cyclic monophosphate on the metabolism of free and esterified cholesterol in mouse Leydig-cell tumours.**  
_By W. R. Moyle, R. L. Jungas & R. O. Greep_  
PAGE 407

**Metabolism of free and esterified cholesterol by Leydig-cell tumour mitochondria.**  
_By W. R. Moyle, R. L. Jungas & R. O. Greep_  
PAGE 415

**Effect of leucine on enzymes of the tryptophan-niacin metabolic pathway in rat liver and kidney.**  
_By Ghafoorunissa & B. S. Natasinga Rao_  
PAGE 425

**Synthesis and degradation of phosphoenolpyruvate carboxylase in rat liver and adipose tissue. Changes during a starvation-re-feeding cycle.**  
_By M. F. Hopgood, F. J. Ballard, L. Reshef & R. W. Hanson_  
PAGE 445
Regulation of insulin release from isolated islets of Langerhans of the rat in pregnancy. The role of adenosine 3':5'-cyclic monophosphate.
By I. C. Green, S. L. Howell, W. Montague & K. W. Taylor

Effect of administration of the fructose on the glycogenolytic action of glucagon. An investigation of the pathogenicity of hereditary fructose intolerance.
By G. Van den Berghe, L. Hue & H. G. Hers

The uptake of [45Ca]calcium ions by matrix vesicles isolated from calcifying cartilage (Short Communication).
By S. Y. Ali & L. Evans

Activation of pyruvate dehydrogenase in perfused rat heart by dichloroacetate (Short Communication).
By S. Whitehouse & P. J. Randle

Influence of cholecalciferol (vitamin D3) on the initial kinetics of the uptake of calcium ions by rat small-intestinal mucosa (Short Communication).
By J. M. O'Donnell & M. W. Smith

Acceleration of gluconeogenesis from lactate by lysine (Short Communication).
By N. W. Cornell, P. Lund, R. Hems & H. A. Krebs

Metabolism in Whole Organs

Utilization of gluconate by Escherichia coli. Induction of gluconate kinase and 6-phosphogluconate dehydratase activities.
By H. L. Kornberg & A. K. Soutar

Exogenous cholesterol transport in rabbit plasma lipoproteins.
By L. L. Rudel, J. M. Felts & M. D. Morris

Regulation of uptake of purines, pyrimidines and amino acids by Candida utilis.
By R. W. Jones & D. G. Wild

Determination and significance of L-tyrosine O-sulphate and its deaminated metabolites in normal human and mouse urine.
By P. M. Hext, S. Thomas, F. A. Rose & K. S. Dodgson
