### FULL PAPERS

	PAGE	PAGE
<b>Biosynthesis and Degradation</b>		
Studies on the mechanism of hepatic microsomal <i>N</i> -oxide formation. The role of cytochrome <i>P</i> -450 and mixed-function amine oxidase in the <i>N</i> -oxidation of <i>NN</i> -dimethylaniline. <i>By P. Hlavica &amp; M. Kehl</i>	487	Studies of energy-linked reactions. Inhibition of oxidative phosphorylation by <i>DL</i> -8-methyl-dihydroliipoate. <i>By D. E. Griffiths, K. Cain &amp; R. L. Hyams</i> 699
The biosynthesis of tyramine glucuronide by liver microsomal fractions. <i>By K. P. Wong</i>	529	Comparative studies on glutamate metabolism in synaptic and non-synaptic rat brain mitochondria. <i>By S. C. Dennis, J. C. K. Lai &amp; J. B. Clark</i> 727
Purification of membrane-bound galactosyltransferase from rat liver microsomal fractions. <i>By I. H. Fraser &amp; S. Mookerjee</i>	541	<b>Subcellular Structures</b>
Bacterial catabolism of threonine. Threonine degradation initiated by <i>L</i> -threonine hydrolyase (deaminating) in a species of <i>Corynebacterium</i> . <i>By S. C. Bell &amp; J. M. Turner</i>	579	Changes in surface-membrane components during the differentiation of rabbit erythroid cells. <i>By N. D. Light &amp; M. J. A. Tanner</i> 565
Biosynthesis of the pyrimidinyl amino acid lathyrine by <i>Lathyrus tingitanus</i> L. <i>By E. G. Brown &amp; N. F. Al-Baldawi</i>	589	Selective permeability of rat liver mitochondria to purified aspartate aminotransferases <i>in vitro</i> . <i>By E. Marra, S. Doonan, C. Saccone &amp; E. Quagliariello</i> 685
A spectrophotometric procedure for rapid and sensitive measurements of $\beta$ -oxidation. Demonstration of factors that can be rate-limiting for $\beta$ -oxidation. <i>By H. Osmundsen &amp; J. Bremer</i>	621	<b>Cellular Interactions and Control Processes</b>
Chitin biosynthesis in protoplasts and subcellular fractions of <i>Aspergillus fumigatus</i> . <i>By D. B. Archer</i>	653	Characterization of a photoproduct of 7,12-dimethylbenz[ <i>a</i> ]anthracene and its effects on chick-embryo cells in culture. <i>By D. Warshawsky, E. Kerns, M. J. Bissell &amp; M. Calvin</i> 481
Number and activity of active ribosomes in bacterial polyribosomes. <i>By J. Stenesh &amp; P. Y. Shen</i>	669	A new method for assaying rat liver microsomal 3-hydroxyl-3-methylglutaryl-coenzyme A reductase activity and its application in a study of the effect of dietary cholesterol on this enzyme. <i>By Y. A. Baqir &amp; R. Booth</i> 501
Comparison in different species of biliary bilirubin-IX $\alpha$ conjugates with the activities of hepatic and renal bilirubin-IX $\alpha$ -uridine diphosphate glycosyltransferases. <i>By J. Fevery, M. Van de Vijver, R. Michiels &amp; K. P. M. Heirwegh</i>	737	Diabetes and the control of pyruvate dehydrogenase in rat heart mitochondria by concentration ratios of adenosine triphosphate/adenosine diphosphate, of reduced/oxidized nicotinamide-adenine dinucleotide and of acetyl-coenzyme A/coenzyme A. <i>By A. L. Kerbey, P. M. Radcliffe &amp; P. J. Randle</i> 509
<b>Bioenergetics</b>		
The probable site of action of thenoyltrifluoroacetone on the respiratory chain. <i>By W. J. Inglelew &amp; T. Ohnishi</i>	617	Effects of lactation on ketogenesis from oleate or butyrate in rat hepatocytes. <i>By E. Whitelaw &amp; D. H. Williamson</i> 521

	PAGE		PAGE
Effect of cortisol acetate on collagen biosynthesis and on the activities of prolyl hydroxylase, lysyl hydroxylase, collagen galactosyltransferase and collagen glucosyltransferase in chick-embryo tendon cells. By A. Oikarinen	533	Adaptation of protein metabolism to endurance training. Increased amino acid oxidation in response to training. By G. L. Dohm, A. L. Hecker, W. E. Brown, G. J. Klain, F. R. Puente, E. W. Askew & G. R. Beecher	705
Effects of di-isopropyl phosphorofluoridate on rat liver microsomal and lysosomal $\beta$ -glucuronidase. By B. Mandell & P. Stahl	549	<b>Development</b>	
Hypoketonaemic effect of L-alanine. Specific decrease in blood concentrations of 3-hydroxybutyrate in the rat. By P. T. Ozand, W. D. Reed, J. Girard, R. L. Hawkins, R. M. Collins, Jr., J. T. Tildon & M. Cornblath	557	Pyruvate dehydrogenase activity in hamster small intestine during development. By C. M. Schiller	693
The effect of chemical treatments of albumin and orosomucoid on rate of clearance from the rat bloodstream and rate of pinocytic capture of rat yolk sac cultured <i>in vitro</i> . By A. T. Moore, K. E. Williams & J. B. Lloyd	607	<b>Metabolism in Whole Organisms</b>	
Effects of 5-bromo-2'-deoxyuridine on beating heart cell cultures from neonatal hamsters. By G. A. Coetzee, D. R. van der Westhuyzen & W. Gevers	635	The absorption and metabolism in rats of small oral doses of dimethylnitrosamine. Implication for the possible hazard of dimethylnitrosamine in human food. By M. I. D. Gomez, P. F. Swann & P. N. Magee	497
5-Bromo-2'-deoxyuridine-stimulated calcium ion- or magnesium ion-dependent ecto-(adenosine triphosphatase) activity of cultured hamster cardiac cells. By G. A. Coetzee & W. Gevers	645	The metabolism of cyclohexanecarboxylate in the rat. By D. Brewster, R. S. Jones & D. V. Parke	595
Interaction of the anti-oestrogen, nafoxidine hydrochloride, with the soluble nuclear oestradiol-binding protein in chick liver. By C. B. Lazier & W. S. Alford	659	Retained folates in the rat. By P. A. Barford, F. J. Staff & J. A. Blair	601
Purification of rat liver particulate neutral ribonuclease and comparison of properties with pancreas and serum ribonucleases. By J. Bartholeyns & P. Baudhuin	675	Microbiological degradation of bile acids. The preparation of hexahydroindane derivatives as substrates for studying cholic acid degradation. By S. Hayakawa, T. Takata, T. Fujiwara & S. Hashimoto	709
		Microbiological degradation of bile acids. Metabolites formed from 3-(3 $\alpha$ -hexahydro-7 $\alpha\beta$ -methyl-1,5-dioxoindan-4 $\alpha$ -yl)propionic acid by <i>Streptomyces rubescens</i> . By S. Hashimoto & S. Hayakawa	715

#### RAPID PAPERS

	PAGE		PAGE
<b>Cellular Interactions and Control Processes</b>		Identification and partial characterization of phospholipases in isolated adrenocortical cells. The effects of Synacthen [corticotropin-(1-24)-tetracosapeptide] and calcium ions. By S. G. Laychock, R. C. Franson, W. B. Weglicki & R. P. Rubin	753
Effects of acetoacetate administration on glucose metabolism in mammary gland of fed lactating rats. By A. M. Robinson & D. H. Williamson	749		

#### INDEXES

<b>Author Index</b>	757	<b>Subject Index</b>	762

The following papers appeared in the last issue of the **Biochemical Journal**

**Molecular Aspects**  
**Contents of Volume 163, No. 3, 1977**

**FULL PAPERS**

	PAGE		PAGE
<b>Proteins</b>		A map of the cleavage sites for endonuclease <i>Ava</i> I in the chromosome of bacteriophage lambda.	
The molecular weight of, and evidence for two types of subunits in, the molybdenum-iron protein of <i>Azotobacter vinelandii</i> nitrogenase.		By S. G. Hughes	503
By R. H. Swisher, M. L. Landt & F. J. Reithel	427		
Characterization of serum lipoproteins of the shark <i>Centrophorus squamosus</i> .		<b>Enzymology</b>	
By G. L. Mills, C. E. Taylaur, M. J. Chapman & G. R. Forster	455	Purification and properties of a new testosterone 17 $\beta$ -dehydrogenase (NADP <sup>+</sup> ) from guinea-pig liver.	
Physical and binding properties of large fragments of human serum albumin.		By E. Kageura & S. Toki	401
By M. J. Geisow & G. H. Beaven	477	Partial purification and properties of frog liver tyrosine aminotransferase.	
High-sensitivity sequence analysis of peptides and proteins by 4- <i>NN</i> -dimethylaminoazobenzene 4'-isothiocyanate.		By J. J. Ohisalo, S. M. Andersson & J. P. Pispá	411
By J. Y. Chang	517	The immunological characterization of several human ribonucleases by using primary binding tests.	
A comparison of the association of yeast phosphoglycerate mutase (EC 2.7.5.3) with that of haemoglobin. An ultracentrifuge study.		By E. A. Neuwelt, M. SchmuKler, M. S. Niziak, P. B. Jewett & C. C. Levy	419
By S. P. Spragg, J. J. Roche & J. Wilcox	543	Rabbit tissue peptidases that hydrolyse the peptide hormone bradykinin. Differences in enzymic properties and concentration in rabbit tissues.	
Properties and <i>N</i> -terminal sequence of allophycocyanin from the unicellular rhodophyte <i>Cyanidium caldarium</i> .		By M. A. Cicilini, H. Caldo, J. D. Berti & A. C. M. Camargo	433
By A. S. Brown & R. F. Troxler	571	Generation of hydrogen peroxide, superoxide and hydroxyl radicals during the oxidation of dihydroxyfumaric acid by peroxidase.	
Binding of triethyltin to cat haemoglobin and modification of the binding sites by diethyl pyrocarbonate.		By B. Halliwell	441
By B. M. Elliott & W. N. Aldridge	583	Presence of a high-molecular-weight form of catalase in enzyme purified from mouse liver.	
Identification of four extracellular-matrix enamel proteins during embryonic-rabbit tooth-organ development.		By M. B. Baird, H. R. Massie & L. S. Birnbaum	449
By H. L. Guenther, R. D. Croissant, S. E. Schonfeld & H. C. Slavkin	591	Characterization of an adenosine 3':5'-cyclic monophosphate phosphodiesterase from baker's yeast. Its binding to subcellular particles, catalytic properties and gel-filtration behaviour.	
Exclusion of dextrans by meshworks of collagenous fibres.		By J. Londesborough	467
By R. H. Pearce & T. C. Laurent	617		
<b>Nucleic Acids</b>			
The separation of oligonucleotides of baker's-yeast valine transfer ribonucleic acid 2b by high-voltage electrophoresis on DEAE-paper and by thin-layer chromatography.			
By V. G. Gorbulev, T. V. Kutateladze, J. Barciszewski & V. D. Axel'rod	409		

(continued overleaf)

(continued from preceding page)

	PAGE		PAGE
An adenosine triphosphate-dependent deoxyribonuclease from <i>Alcaligenes faecalis</i> . By J. D. C. Rosamond & M. R. Lunt	485	$\alpha$ -Chymotrypsin as the catalyst for peptide synthesis. By K. Morihara & T. Oka	531
Purification and properties of urease from bovine rumen. By S. Mahadevan, F. D. Sauer & J. D. Erfle	495	Multiple $\alpha$ -mannosidase activities in mammalian tissues as shown by metal-ion activation. By S. M. Snaith	557
Adenosine triphosphate-activated adenylate deaminase from marine invertebrate animals. Properties of the enzyme from lugworm ( <i>Arenicola cristata</i> ) body-wall muscle. By K. L. Gibbs & S. H. Bishop	511	Separation and properties of two arylamidases from rat cardiac-muscle extracts. By A. F. Bury, T. Coolbear & C. R. Savery	565
Activation of selenate by adenosine 5'-triphosphate sulphurylase from <i>Saccharomyces cerevisiae</i> . By G. L. Dilworth & R. S. Bandurski	521	Specific labelling of a constituent polypeptide of bovine heart mitochondrial reduced nicotinamide-adenine dinucleotide-ubiquinone reductase by the inhibitor diphenyleneiodonium. By C. I. Ragan & D. P. Bloxham	605

#### RAPID PAPERS

	PAGE		PAGE
<b>Proteins</b>		Application of topological methods in enzyme kinetics. By K. J. Indge	633
A rapid procedure for selectively isolating the major glycoprotein from purified rat brain myelin. By R. H. Quarles & C. F. Pasnak	635		
<b>Enzymology</b>		Inactivation of human $\alpha_1$ proteinase inhibitor by thiol proteinases. By D. Johnson & J. Travis	639
The reduction of <i>Pseudomonas</i> cytochrome <i>c</i> <sub>551</sub> oxidase by chromous ions. By D. Barber, S. R. Parr & C. Greenwood	629

### FULL PAPERS

	PAGE		PAGE
<b>Biosynthesis and Degradation</b>			
Structure and metabolism of rat liver heparan sulphate. By Å. Oldberg, M. Höök, B. Öbrink, H. Pertoft & K. Rubin	75	Effects of starvation and development on mitochondrial acetoacetyl-coenzyme A thiolase of rat liver. By W. D. Reed, P. T. Ozand, J. T. Tildon & M. Cornblath	27
Incorporation of [ <sup>14</sup> C]shikimate into phenazines and their further metabolism by <i>Pseudomonas phenazinium</i> . By G. S. Byng & J. M. Turner	139	Guanylate cyclase activity and cyclic nucleotide concentrations during liver regeneration after experimental injury. By C. Goridis, J. Zwiller & W. Reutter	33
Control of zinc-thionein synthesis in rat liver. By K. S. Squibb, R. J. Cousins & S. L. Feldman	223	Some factors effecting the production, by cultured baby-hamster kidney cells, of BHK glycoprotein I, which cross-reacts immunologically with Tamm-Horsfall glycoprotein. By F. J. Bloomfield, D. R. Dunstan, C. L. Foster, F. Serafini-Cessi & R. D. Marshall	41
<b>Bioenergetics</b>			
Steady-state metabolism and transport of D-glucose by rat small intestine <i>in vitro</i> . By P. J. Pritchard & J. W. Porteous	1	Catecholamine-sensitive adenylate cyclase of caudate nucleus and cerebral cortex. Effects of guanine nucleotides. By P. V. Sulakhe, N. L.-K. Leung, A. T. Arbus, S. J. Sulakhe, S.-H. Jan & N. Narayanan	67
A mutation affecting a second component of the F <sub>0</sub> portion of the magnesium ion-stimulated adenosine triphosphatase of <i>Escherichia coli</i> K12. The <i>uncC424</i> allele. By F. Gibson, G. B. Cox, J. A. Downie & J. Radik	193	Feedback regulation of vitamin D metabolism by 1,25-dihydroxycholecalciferol. By K. W. Colston, I. M. A. Evans, T. C. Spelsberg & I. MacIntyre	83
Sites and specificity of the reaction of bipyridylum compounds with anaerobic respiratory enzymes of <i>Escherichia coli</i> . Effects of permeability barriers imposed by the cytoplasmic membrane. By R. W. Jones & P. B. Garland	199	Studies on the mode of oestrogenic inhibition of hepatic synthesis of $\alpha_2\mu$ -globulin and its corresponding messenger ribonucleic acid in rat liver. By A. K. Roy, D. J. Dowbenko & M. J. Schiop	91
<b>Subcellular Structures</b>			
Isolation and characterization of membrane proteins responsible for attachment of polyribosomes to rough microsomal fraction of rat liver. By S. Fujita, F. Ogata, J. Nakamura, S. Omata & H. Sugano	53	Adenosine as a constituent of the brain and of isolated cerebral tissues, and its relationship to the generation of adenosine 3':5'-cyclic monophosphate. By M. Newman & H. McIlwain	131
Reconstitution of glucose-transporting vesicles from erythrocyte membranes disaggregated in detergent. By P. A. W. Edwards	125	Control of isocitrate lyase synthesis in <i>Chlorella fusca</i> var. <i>vacuolata</i> . The basal activity of the enzyme and the kinetics of induction. By C. F. Thurston	147
<b>Cellular Interactions and Control Processes</b>			
Changes in the kinetic behaviour of threonine transport into <i>Trypanosoma brucei</i> elicited by variation in hydrogen ion concentration. By H. P. Voorheis	15	Comparison of glucose metabolism in the lactating mammary gland of the rat <i>in vivo</i> and <i>in vitro</i> . Effects of starvation, prolactin or insulin deficiency. By A. M. Robinson & D. H. Williamson	153

	PAGE		PAGE
Effects of adenine nucleotides and phosphate on adenosine triphosphate sulphurylase from <i>Anabaena cylindrica</i> . By S. K. Sawhney & D. J. D. Nicholas	161	<b>Development</b>	
Effect of prolonged ethanol ingestion on hepatic lipogenesis and related enzyme activities. By M. J. Savolainen, J. K. Hiltunen & I. E. Hassinen	169	Studies on sex-organ development. Changes in nuclear and chromatin composition and genomic activity during spermatogenesis in the maturing rooster testis. By C. Mezquita & C. S. Teng	99
The mechanism of inhibition by acidosis of gluconeogenesis from lactate in rat liver. By R. A. Iles, R. D. Cohen, A. H. Rist & P. G. Baron	185	Regulation of maize catalase by changing rates of synthesis and degradation. By J. C. Sorenson, P. S. Ganapathy & J. G. Scandalios	113
Endogenous phosphorylation of microsomal proteins in bovine corpus luteum. Tenfold activation by adenosine 3':5'-cyclic monophosphate. By D. G. Hardie & D. A. Stansfield	213	Aldehyde dehydrogenase in 2-acetamidofluorene-induced rat hepatomas. Ontogeny and evidence that the new isoenzymes are not due to normal gene de-repression. By R. Lindahl	119
The effect of insulin on the washout of [ <sup>45</sup> Ca]-calcium from adipocytes and soleus muscle of the rat. By T. Clausen & B. R. Martin	251	Heterogeneity of proteoglycans in developing chick limb cartilage. By N. S. Vasan & J. W. Lash	179
The UDP- <i>N</i> -acetylglucosamine-asparagine-sequon <i>N</i> -acetyl- $\beta$ - <i>D</i> -glucosaminyltransferase activity in preparations of rough endoplasmic reticulum from regenerating rat liver. By Z. Khalkhali, F. Serafini-Cessi & R. D. Marshall	257	<b>Metabolism in Whole Organisms</b>	
		Comparison of the biliary excretion of the four isomers of bilirubin-IX in Wistar and homozygous Gunn rats. By N. Blanckaert, K. P. M. Heirwegh & Z. Zaman	229
		Characterization of the major diazo-positive pigments in bile of homozygous Gunn rats. By N. Blanckaert, J. Fevery, K. P. M. Heirwegh & F. Compennolle	237

## RAPID PAPERS

	PAGE		PAGE
<b>Biosynthesis and Degradation</b>		<b>Subcellular Structures</b>	
Synthesis of cartilage-specific proteoglycan by suspension cultures of adult chondrocytes. By O. W. Wiebkin & H. Muir	269	Cellular transport of lysosomal enzymes. An alternative hypothesis. By J. B. Lloyd	281
Effects of dolichol monophosphate on galactose incorporation into glycoconjugates of cell cultures. By F. A. McEvoy, D. E. Ellis & S. Shall	273	<b>Cellular Interactions and Control Processes</b>	
Phosphatidylinositol-degrading enzymes in liver lysosomes. By R. F. Irvine, N. Hemington & R. M. C. Dawson	277	Permeability of the liver cell membrane to quinolinate. By K. R. F. Elliott, C. I. Pogson & S. A. Smith	283
<b>Bioenergetics</b>		<b>Cellular Interactions and Control Processes (Special Communication)</b>	
Proton translocation coupled to electron flow from endogenous substrates to fumarate in anaerobically grown <i>Escherichia coli</i> K12. By S. J. Gutowski & H. Rosenberg	265	Net activity of phospholipase A2 in brain and the lack of stimulation of the phospholipase A2-acylation system. By C. E. Rowe	287

## FULL PAPERS

	PAGE		PAGE
<b>Biosynthesis and Degradation</b>		The effects of starvation and experimental diabetes on phosphoenolpyruvate carboxy-kinase in the guinea pig.	
Role of haem in the synthesis and assembly of cytochrome <i>P</i> -450.		By K. R. F. Elliott & C. I. Pogson	357
By K. S. Bhat, M. K. Sardana & G. Padmanaban	295	Effect of a nutritional shift on the degradation of abnormal proteins in the mouse liver. Decreased degradation during rapid liver growth.	
Turnover of myelin proteins in mouse brain <i>in vivo</i> .		By R. Amils, R. D. Conde & O. A. Scornik	363
By A. Lajtha, J. Toth, K. Fujimoto & H. C. Agrawal	323	Regional differences in ribonuclease content of rat and mouse kidney.	
Inhibition of protein degradation in isolated rat hepatocytes.		By D. K. Liu & P. E. Matrisian	371
By M. F. Hopgood, M. G. Clark & F. J. Ballard	399	Uridine kinase activities and pyrimidine nucleoside phosphorylation in fluoropyrimidine-sensitive and -resistant cell lines of the Novikoff hepatoma.	
<b>Bioenergetics</b>		By N. Greenberg, D. E. Schumm & T. E. Webb	379
The nature of controlled respiration and its relationship to protonmotive force and proton conductance in blowfly flight-muscle mitochondria.		A comparison of the effects of phytohaem-agglutinin and of calcium ionophore A23187 on the metabolism of glycerolipids in small lymphocytes.	
By R. N. Johnson & R. G. Hansford	305	By D. Allan & R. H. Michell	389
<b>Subcellular Structures</b>		Adenosine and the regulation of insulin secretion by isolated rat islets of Langerhans.	
The transport and metabolism of glutamine by kidney-cortex mitochondria from normal and acidotic rats.		By N. A. Ismail, E.-E. S. M. El Denshary & W. Montague	409
By J. T. Brosnan & B. Hall	331	The effects of acetate, metal cations, phenobarbitone, porphyrogens and substrates of glycine acyltransferase on the utilization of haem by rat liver apo-(tryptophan pyrrolase).	
Preparation of plasma-membrane subfractions from isolated rat hepatocytes.		By A. A.-B. Badawy	431
By M. H. Wisher & W. H. Evans	415	Rapid partial purification of placental glucocerebrosidase $\beta$ -glucosidase and its entrapment in liposomes.	
<b>Cellular Interactions and Control Processes</b>		By I. P. Braidman & G. Gregoriadis	439
Iron-transport characteristics of vesicles of brush-border and basolateral plasma membrane from the rat enterocyte.		The stimulus-secretion coupling of glucose-induced insulin release. Insulin release due to glycogenolysis in glucose-deprived islets.	
By E. J. Eastham, J. I. Bell & A. P. Douglas	289	By W. J. Malaisse, A. Sener, M. Koser, M. Ravazzola & F. Malaisse-Lagae	447
The activities of 2-oxoglutarate dehydrogenase and pyruvate dehydrogenase in hearts and mammary glands from ruminants and non-ruminants.			
By G. Read, B. Crabtree & G. H. Smith	349		

	PAGE		PAGE
<b>Development</b>		<b>Metabolism in Whole Organisms</b>	
Development of mitochondrial energy metabolism in rat brain.		Metabolic fates of diethylstilboestrol sulphates in the rat.	
By J. M. Land, R. F. G. Booth, R. Berger & J. B. Clark	339	By P. A. Barford, A. H. Olavesen, C. G. Curtis & G. M. Powell	423

### RAPID PAPERS

	PAGE		PAGE
<b>Subcellular Structures</b>		The effects of antioxidants on the metabolism and mutagenicity of benzo[ <i>a</i> ]pyrene <i>in vitro</i> .	
Some observations on the choice of detergent for solubilization of the human erythrocyte membrane.		By A. D. Rahimtula, P. K. Zachariah & P. J. O'Brien	473
By D. A. W. Grant & S. Hjertén	465	Inhibition of binding of corticotropin-(1-24)-tetracosapeptide (Synacthen) to membrane receptors of adrenal cortex by cortisol.	
Self-digestion of human erythrocyte membranes. Role of adenosine triphosphate and glutathione.		By A. L. Latner, D. B. Cook & K. U. Solanki	477
By A. Brovelli, M. Suhail, G. Pallavicini, F. Sinigaglia & C. Balduini	469	<b>Metabolism in Whole Organisms</b>	
<b>Cellular Interactions and Control Processes</b>		Enhanced plasma persistence of therapeutic enzymes by coupling to soluble dextran.	
Stimulation of calcium accumulation in cardiac sarcolemma by phosphorylase kinase.		By R. F. Sherwood, J. K. Baird, T. Atkinson, C. N. Wiblin, D. A. Rutter & D. C. Ellwood	461
By P. V. Sulakhe & P. J. St. Louis	457		

## Contents of Volume 164, No. 3

	PAGE		PAGE
<b>Biosynthesis and Degradation</b>		A spectrophotometric procedure for rapid and sensitive measurements of $\beta$ -oxidation. Demonstration of factors that can be rate-limiting for $\beta$ -oxidation.	
Studies on the mechanism of hepatic microsomal <i>N</i> -oxide formation. The role of cytochrome <i>P</i> -450 and mixed-function amine oxidase in the <i>N</i> -oxidation of <i>NN</i> -dimethylaniline.		By H. Osmundsen & J. Bremer	621
By P. Hlavica & M. Kehl	487	Chitin biosynthesis in protoplasts and subcellular fractions of <i>Aspergillus fumigatus</i> .	
The biosynthesis of tyramine glucuronide by liver microsomal fractions.		By D. B. Archer	653
By K. P. Wong	529	Number and activity of active ribosomes in bacterial polyribosomes.	
Purification of membrane-bound galactosyltransferase from rat liver microsomal fractions.		By J. Stenesh & P. Y. Shen	669
By I. H. Fraser & S. Mookerjea	541	Comparison in different species of biliary bilirubin-IX $\alpha$ conjugates with the activities of hepatic and renal bilirubin-IX $\alpha$ -uridine diphosphate glycosyltransferases.	
Bacterial catabolism of threonine. Threonine degradation initiated by L-threonine hydrolyase (deaminating) in a species of <i>Corynebacterium</i> .		By J. Fevery, M. Van de Vijver, R. Michiels & K. P. M. Heirwegh	737
By S. C. Bell & J. M. Turner	579	<b>Bioenergetics</b>	
Biosynthesis of the pyrimidinyl amino acid lathyrine by <i>Lathyrus tingitanus</i> L.		The probable site of action of thenoyltrifluoroacetone on the respiratory chain.	
By E. G. Brown & N. F. Al-Baldawi	589	By W. J. Ingledeu & T. Ohnishi	617

	PAGE		PAGE
Studies of energy-linked reactions. Inhibition of oxidative phosphorylation by DL-8-methyl-dihydrolipoate. By D. E. Griffiths, K. Cain & R. L. Hyams	699	Hypoketonaemic effect of L-alanine. Specific decrease in blood concentrations of 3-hydroxybutyrate in the rat. By P. T. Ozand, W. D. Reed, J. Girard, R. L. Hawkins, R. M. Collins, Jr., J. T. Tildon & M. Cornblath	557
Comparative studies on glutamate metabolism in synaptic and non-synaptic rat brain mitochondria. By S. C. Dennis, J. C. K. Lai & J. B. Clark	727	The effect of chemical treatments of albumin and orosomuroid on rate of clearance from the rat bloodstream and rate of pinocytic capture of rat yolk sac cultured <i>in vitro</i> . By A. T. Moore, K. E. Williams & J. B. Lloyd	607
<b>Subcellular Structures</b>		Effects of 5-bromo-2'-deoxyuridine on beating heart cell cultures from neonatal hamsters. By G. A. Coetzee, D. R. van der Westhuyzen & W. Gevers	635
Changes in surface-membrane components during the differentiation of rabbit erythroid cells. By N. D. Light & M. J. A. Tanner	565	5-Bromo-2'-deoxyuridine-stimulated calcium ion- or magnesium ion-dependent ecto-(adenosine triphosphatase) activity of cultured hamster cardiac cells. By G. A. Coetzee & W. Gevers	645
Selective permeability of rat liver mitochondria to purified aspartate aminotransferases <i>in vitro</i> . By E. Marra, S. Doonan, C. Saccone & E. Quagliariello	685	Interactions of the anti-oestrogen, nafoxidine hydrochloride, with the soluble nuclear oestradiol-binding protein in chick liver. By C. B. Lazier & W. S. Alford	659
<b>Cellular Interactions and Control Processes</b>		Purification of rat liver particulate neutral ribonuclease and comparison of properties with pancreas and serum ribonucleases. By J. Bartholeyns & P. Baudhuin	675
Characterization of a photoproduct of 7,12-dimethylbenz[ <i>a</i> ]anthracene and its effects on chick-embryo cells in culture. By D. Warshawsky, E. Kerns, M. J. Bissell & M. Calvin	481	Adaptation of protein metabolism to endurance training. Increased amino acid oxidation in response to training. By G. L. Dohm, A. L. Hecker, W. E. Brown, G. J. Klain, F. R. Puente, E. W. Askew & G. R. Beecher	705
A new method for assaying rat liver microsomal 3-hydroxyl-3-methylglutaryl-coenzyme A reductase activity and its application in a study of the effect of dietary cholesterol on this enzyme. By Y. A. Baqir & R. Booth	501	<b>Development</b>	
Diabetes and the control of pyruvate dehydrogenase in rat heart mitochondria by concentration ratios of adenosine triphosphate/adenosine diphosphate, of reduced/oxidized nicotinamide-adenine dinucleotide and of acetyl-coenzyme A/coenzyme A. By A. L. Kerbey, P. M. Radcliffe & P. J. Randle	509	Pyruvate dehydrogenase activity in hamster small intestine during development. By C. M. Schiller	693
Effects of lactation on ketogenesis from oleate or butyrate in rat hepatocytes. By E. Whitelaw & D. H. Williamson	521	<b>Metabolism in Whole Organisms</b>	
Effect of cortisol acetate on collagen biosynthesis and on the activities of prolyl hydroxylase, lysyl hydroxylase, collagen galactosyltransferase and collagen glucosyltransferase in chick-embryo tendon cells. By A. Oikarinen	533	The absorption and metabolism in rats of small oral doses of dimethylnitrosamine. Implication for the possible hazard of dimethylnitrosamine in human food. By M. I. D. Gomez, P. F. Swann & P. N. Magee	497
Effects of di-isopropyl phosphorofluoridate on rat liver microsomal and lysosomal $\beta$ -glucuronidase. By B. Mandell & P. Stahl	549	The metabolism of cyclohexanecarboxylate in the rat. By D. Brewster, R. S. Jones & D. V. Parke	595
		Retained folates in the rat. By P. A. Barford, F. J. Staff & J. A. Blair	601

	PAGE		PAGE
Microbiological degradation of bile acids. The preparation of hexahydroindane derivatives as substrates for studying cholic acid degradation. <i>By S. Hayakawa, T. Takata, T. Fujiwara &amp; S. Hashimoto</i>	709	Microbiological degradation of bile acids. Metabolites formed from 3-(3 $\alpha$ -hexahydro-7 $\alpha\beta$ -methyl-1,5-dioxoindan-4 $\alpha$ -yl)propionic acid by <i>Streptomyces rubescens</i> . <i>By S. Hashimoto &amp; S. Hayakawa</i>	715

### RAPID PAPERS

	PAGE		PAGE
<b>Cellular Interactions and Control Processes</b>		Identification and partial characterization of phospholipases in isolated adrenocortical cells. The effects of Synacthen [corticotropin-(1-24)-tetracosapeptide] and calcium ions. <i>By S. G. Laychock, R. C. Franson, W. B. Weglicki &amp; R. P. Rubin</i>	753
Effects of acetoacetate administration on glucose metabolism in mammary gland of fed lactating rats. <i>By A. M. Robinson &amp; D. H. Williamson</i>	749
