*Price Twenty Shillings net*

PRINTED IN GREAT BRITAIN

The *Biochemical Journal* is conducted by the Biochemical Society and is published by the Cambridge University Press.

This Society has been instituted for the purpose of facilitating intercourse between those biologists and chemists who are interested in the investigation of problems common to both, such as the chemical problems connected with Agriculture, Brewing, Animal and Vegetable Physiology and Pathology, &c. Persons interested in Biochemistry are eligible for election.

Meetings are held at different centres for the communication of papers to the Society.

The annual subscription is 35s., which includes a copy of the Journal, and becomes due on January 1st. Further information may be obtained on application to the Hon. Sec., Dr H. W. Dudley, National Institute for Medical Research, Mount Vernon, Hampstead, London, N.W. 3, or to the Hon. Treas. Mr J. Addyman Gardner, 17 Brunswick Gardens, Kensington, W. 8, to whom subscriptions should be sent.

Papers for publication should be sent to Sir W. M. Bayliss, F.R.S., University College, W.C. 1, or to Prof. A. Harden, F.R.S., Lister Institute, Chelsea Gardens, S.W. 1. Communications respecting the printing of the articles, or respecting the purchase of offprints should be addressed to the University Press, Cambridge.

The Journal is issued about every two months and the date at which each paper is received by the editors is printed at the beginning of the paper.

All communications respecting the purchase of copies of the parts or volumes, whether current or back issues, or respecting subscriptions in the case of non-members of the Biochemical Society (£3 net per volume (post free) payable in advance) should be addressed to Mr C. F. Clay, Cambridge University Press, Fetter Lane, London, E.C. 4, or to the Hon. Treas. Mr J. Addyman Gardner, 17 Brunswick Gardens, Kensington, W. 8. For prices of back numbers and volumes see p. 4 of this wrapper.

Quotations can be given for Buckram binding cases and for binding Subscribers' Sets.

The Cambridge University Press has appointed the University of Chicago Press agents for the sale of the *Biochemical Journal* in the United States of America and has authorised them to fix the following subscription price. \$13.25 net.

#### Notice to Contributors.

1. Contributors receive 25 copies of their papers free and can purchase additional copies if notice be given when their proofs are returned.

2. Papers forwarded to the Editors for publication are understood not to be offered to any other Journal for prior or simultaneous publication.

3. All communications intended for publication must be type-written.

4. **References.** References to literature should be arranged alphabetically according to authors' names at the end of the communication, each accompanied by the date, title of Journal, volume and page, thus: Ackermann (1912, 1), *Zeitsch. Biol.* 59, 17. In the text the reference should be indicated by the author's name and the date, enclosed in brackets, thus [Ackermann, 1912, 1]. If reference is made to several papers published by one author in a single year, these should be numbered in sequence and the number quoted along with the year both in the text and in the collected references.

5. Chemical formulae should be written, as far as possible, in a single horizontal line.

6. Illustrations and curves accompanying the papers must be carefully drawn, about twice the size of the finished block, on smooth white Bristol boards in Indian ink. Any lettering on these drawings should be lightly inserted in pencil. Further information can be obtained from the Editors.

	PAGE
OBITUARY NOTICE	1
I. Some New Reactions for the Detection of Sterols. By G. S. WHITBY	5
II. Studies in Experimental Tetany. I. On the Distribution of Calcium in the Plasma and Cells. II. On the Variations in Colloidal and Ionic Calcium. By E. W. H. CRUICKSHANK. (With three figures)	13
III. The Bactericidal Action of Tellurium Derivatives of certain Aliphatic $\beta$ -Diketones. By G. T. MORGAN, E. A. COOPER and A. W. BURTT	30
IV. Calcium Content of the Blood during Pregnancy. By S. T. WIDDOWS	34
V. A Method for the Quantitative Estimation of Choline in Blood. By J. S. SHARPE	41
VI. The Inorganic Phosphorus Content of the Blood of Normal Children. (Preliminary Communication.) By G. H. ANDERSON	43
VII. Seasonal Variations in the Dissolved Oxygen Content of the Water of the Thames Estuary. (With Special Reference to the Phenomenon of Supersaturation.) By W. BUTLER and J. H. COSTE. (With three figures)	49
VIII. The Effect of Carbon Dioxide and Acetic Acid on the Osmotic Pressure of Haemoglobin. By H. C. WILSON. (With three figures)	59
IX. Ammonia Content of the Blood in Nephritis. By D. S. RUSSELL	72
X. Tethelin:—A Growth-Controlling Substance obtainable from the Anterior Lobe of the Pituitary Body. By T. B. ROBERTSON	77
XI. A Note on the Hydrolysis of Pectin. By F. TUTIN	83
XII. Urease. Part I. The Chemical Changes Involved in the Zymolysis of Urea. By W. R. FEARON	84
XIII. The Sterol Content of Cow's Milk. By F. W. FOX and J. A. GARDNER	94
XIV. On the Reduction of Methylene Blue by Tissue Extracts. By G. M. WISHART. (With six graphs)	103
XV. Note on the Sulphuric Acid Test for Liver Oils. By A. HARDEN and R. ROBISON	115
XVI. Estimation of Sugar in the Blood. By E. G. B. CALVERT. (With one figure and two curves)	117
XVII. The Synthesis of Iminazolylglycine, the Lower Homologue of Histidine. By C. P. STEWART	130
XVIII. The Formation of Vitamin A in Plant Tissues. II. By K. H. COWARD. (With Plate I and three figures)	134
XIX. The Association of Vitamin A with the Lipochromes of Plant Tissues. By K. H. COWARD. (With one figure)	145

**For Notice to Contributors see page 2 of Wrapper**

During 1923 the Journal will be published bi-monthly.

## PRICES OF BACK NUMBERS AND VOLUMES.

*In Paper covers.*

Volumes I-VI. 31s. 6d. net per vol.

Volumes VII-VIII. In six numbers 31s. 6d. net per vol.

Volume IX. In four numbers 31s. 6d. net.

Volume X, containing Index to Volumes I-X. In five numbers 36s. 9d. net.

Index of Authors and Subjects in Volumes I-X. 5s. 3d. net. (By post, 5s. 5d.)

Volume XI. } (Out of print.)

Volumes XII-XIII. } 42s. net.

Volume XIV. } (Out of print.)

Volume XV. } 10s. 6d. net each.

Single numbers from Volumes VII-XI.

Quotations can be given by the publishers for bound copies of back volumes.
