FULL PAPERS

Biosynthesis and Degradation

An energy requirement for the degradation of intravenously injected $^{125}$I-labelled albumin in mouse liver and kidney slices.
By J. L. Mego & R. M. Farb 233

The simultaneous release by bone explants in culture and the parallel activation of procollagenase and of a latent neutral proteinase that degrades cartilage proteoglycans and denatured collagen
By G. Vaes, Y. Eeckhout, G. Lemaers-Claeys, C. Francois-Gillet & J.-E. Druetz 261

Degradation of cartilage proteoglycans by a neutral proteinase secreted by rabbit bone-marrow macrophages in culture.
By P. Hauser & G. Vaes 275

Calcium-dependent Golgi-vesicle fusion and cathepsin B in the conversion of proalbumin into albumin in rat liver.
By P. S. Quinn & J. D. Judah 301

Bioenergetics

The properties of adenosine triphosphatase from exponential and synchronous cultures of *Alcaligenes eutrophus* H16.
By C. Edwards, J. A. Spode & C. W. Jones 253

Cellular Interactions and Control Processes

Rate-limiting factors in urate synthesis and gluconeogenesis in avian liver.
By J. P. Mapes & H. A. Krebs 193

The contribution of serum triacylglycerol to hepatic triacylglycerol turnover in the starved rat.
By E. W. Lipkin, C. Cooper & R. A. Shipley 205

Rate of release of hepatic triacylglycerol into serum in the starved rat.
By J. F. Palmer, C. Cooper & R. A. Shipley 219

Thyrotropin-stimulated recruitment of free monoribosomes on to membrane-bound thyroglobulin-synthesizing polyribosomes.
By E. Davies, J. E. Dumont & G. Vassart 227

Effect of nutrition on subcellular localization of rat fat-cell lipoprotein lipase.
By A. Vanhove, C. Wolf, M. Brete & M.-C. Glangeaud 239

Rapid stimulation by vasopressin, oxytocin and angiotensin II of glycogen degradation in hepatocyte suspensions.
By D. A. Hems, L. M. Rodrigues & P. D. Whitton 311

Effects of chronic hyperinsulinaemia on hepatic enzymes involved in lipogenesis and carbohydrate metabolism in the young rat.
By K. L. McCormick, J. A. Widness, J. B. Susa & R. Schwartz 327

Is the adenine nucleotide translocator rate-limiting for oxidative phosphorylation?
By M. Stubbs, P. V. Vignais & H. A. Krebs 333

Development

A radiochemical assay for glycine N-acyltransferase activity. Some properties of the enzyme in rat and rabbit.
By M. O. James & J. R. Bend 285

Perinatal development of, and effect of chemical pretreatment on, glycine N-acyltransferase activities in liver and kidney of rabbit and rat.
By M. O. James & J. R. Bend 293

Changes in the lipoprotein lipase (clearing-factor lipase) activity of white adipose tissue during development of the rat.
By A. Cryer & H. M. Jones 319

Metabolism in Whole Organisms

The availability of inorganic sulphate in blood for sulphate conjugation of drugs in rat liver in vivo. $[^{35}S] $ Sulphate incorporation into harmol sulphate.
By G. J. Mulder & E. Scholtens 247
