The Biochemical Journal is conducted by the Biochemical Society and is published by the Cambridge University Press.

This Society has been instituted for the purpose of facilitating intercourse between those biologists and chemists who are interested in the investigation of problems common to both, such as the chemical problems connected with Agriculture, Brewing, Animal and Vegetable Physiology and Pathology, &c. Persons interested in Bio-chemistry are eligible for election.

Meetings are held at different centres for the communication of papers to the Society.

The annual subscription is 35s., which includes a copy of the Journal, and becomes due on January 1st. Further information may be obtained on application to the Hon. Sec., Dr H. W. Dudley, National Institute for Medical Research, Mount Vernon, Hampstead, London, N.W.3, or to the Hon. Treas. Mr J. Addyman Gardner, 17 Brunswick Gardens, Kensington, W. 8, to whom subscriptions should be sent.

Papers for publication should be sent to Sir W. M. Bayliss, F.R.S., University College, W.C.1, or to Prof. A. Harden, F.R.S., Lister Institute, Chelsea Gardens, S.W.1. Communications respecting the printing of the articles, or respecting the purchase of offprints should be addressed to the University Press, Cambridge.

The Journal is issued about every two months and the date at which each paper is received by the editors is printed at the beginning of the paper.

All communications respecting the purchase of copies of the parts or volumes, whether current or back issues, or respecting subscriptions in the case of non-members of the Biochemical Society ($3 net per volume (post free) payable in advance) should be addressed to Mr C. F. Clay, Cambridge University Press, Fetter Lane, London, E.C. 4, or to the Hon. Treas. Mr J. Addyman Gardner, 17 Brunswick Gardens, Kensington, W.8. For prices of back numbers and volumes see list on p. 4 of Wrapper.

Quotations can be given for Buckram binding cases and for binding Subscribers’ Sets.

The Cambridge University Press has appointed the University of Chicago Press agent for the sale of the Biochemical Journal in the United States of America and has authorised the following subscription price. $14.25 net.

Notice to Contributors.

1. Contributors receive 25 copies of their papers free and can purchase additional copies if notice be given when their proofs are returned.
2. Papers forwarded to the Editors for publication are understood not to be offered to any other Journal for prior or simultaneous publication.
3. All communications intended for publication must be type-written.
4. References. References to literature should be arranged alphabetically according to authors’ names at the end of the communication, each accompanied by the date, title of Journal, volume and page, thus: Ackermann (1912, 1), Zeitsch. Biol. 59, 17. In the text the reference should be indicated by the author’s name and the date, enclosed in brackets, thus [Ackermann, 1912, 1]. If reference is made to several papers published by one author in a single year, these should be numbered in sequence and the number quoted along with the year both in the text and in the collected references.
5. Chemical formulae should be written, as far as possible, in a single horizontal line.
6. Illustrations and curves accompanying the papers must be carefully drawn, about twice the size of the finished block, on smooth white Bristol boards in Indian ink. Any lettering on these drawings should be lightly inserted in pencil. Further information can be obtained from the Editors.

MSS. for No. 5 should be in the hands of the Editor before August 1st. Contributors are specially requested to arrange references in the manner uniformly adopted in this Journal.
CONTENTS (continued)

LXXXIX. The Hydrolysis of Protein by a Heat-stable Catalyst present in Muscle. By W. M. Clifford. (With one figure) .... 669
XC. The Antiscorbutic Value of Fresh and Canned English Tomatoes. By E. M. Delf 674
XCII. Investigations into the Circulation of Some Heavy Metals in the Organism (Mercury, Bismuth and Lead). By S. Lomholt. (With fifteen diagrams) 693
XCIII. The Synthesis of Starch from Sugar by Bacteria. By E. G. Grey. 712
XCIV. The Influence of Diet and Sunlight upon the Growth-promoting and Anti-rachitic Properties of the Milk afforded by a Cow. By E. M. Luck. (With two figures and Plates II and III) ........ 716
XCV. The Possible Significance of Hexosephosphoric Esters in Ossification. Part II. The Phosphoric Esterase of Ossifying Cartilage. By R. Robison and K. M. Soames. (With Plates IV and V) 740
XCVII. Note on the Estimation of Phosphorus in Blood. By M. Mardian and R. Robison. 765

PRICES OF BACK NUMBERS AND VOLUMES.
In Paper covers.

Volumes I–VI. .......... 81s. 6d. net per vol.
Volumes VII–VIII. 81s. 6d. net per vol.
Volume IX. In six numbers 81s. 6d. net per vol.
Volume X. containing Index to Volumes I–X. In four numbers 81s. 6d. net.
Index of Authors and Subjects in Volumes I–X. In five numbers 80s. 6d. net.
Volume XI. 5s. 6d. net. (By post, 5s. 5d.)
Volumes XII–XIII. (Out of print.)
Volume XIV. 42s. net.
Volume XV. (Out of print.)
Volume XVI. (Out of print.)
Volume XVII. 60s. net.
Single numbers from Volumes VII–XI. 10s. 6d. net each.

Quotations can be given by the publishers for bound copies of back volumes.

For Notice to Contributors see page 2 of Wrapper

Until further notice all communications upon Editorial matters should be sent to Prof. Harden and not to Sir William Bayliss.
