

Cellular Aspects

Contents of Volume 198, No. 2, 1981

Protein Biosynthesis/Molecular Genetics

- Proyl-tRNA-based rates of protein and collagen synthesis in human lung fibroblasts J. N. HILDEBRAN, J. AIRHART, W. S. STIREWALT & R. B. LOW 249-258
- Alterations in albumin secretion and total protein synthesis in livers of thyroidectomized rats D. E. PEAVY, J. M. TAYLOR & L. S. JEFFERSON 289-299

Protein Turnover

- Rapid decrease in thymidine kinase activity of mouse cell temperature-sensitive mutants at a non-permissive temperature M. HYODO & K. SUZUKI 347-352

Metabolism, Regulation and Control Processes

- Oxygen metabolism of mammalian spermatozoa. Generation of hydrogen peroxide by rabbit epididymal spermatozoa M. K. HOLLAND & B. T. STOREY 273-280
- Glucose-induced inactivation of mitochondrial enzymes in the yeast *Saccharomyces cerevisiae* M. TAKEDA 281-287
- Tryptophan pyrrolase in haem regulation. The mechanism of the opposite effects of tryptophan on rat liver 5-aminolaevulinate synthase activity and the haem saturation of tryptophan pyrrolase A. A.-B. BADAWY, A. N. WELCH & C. J. MORGAN 309-314
- The biliary excretion of enterokinase in rats. Studies in normal, chronic ethanol-maintained and cirrhotic rats D. A. W. GRANT, P. A. JONES & J. HERMON-TAYLOR 315-319
- Role of haem in the induction of cytochrome P-450 by phenobarbitone. Studies in chick embryos *in ovo* and in cultured chick embryo hepatocytes U. GIGER & U. A. MEYER 321-329
- Effect of tunicamycin on epidermal glycoprotein and glycosaminoglycan synthesis *in vitro* I. A. KING & A. TABIOWO 331-338
- Lutropin-dependent protein phosphorylation and steroidogenesis in rat tumour Leydig cells G. H. BAKKER, J. W. HOOGERBRUGGE, F. F. G. ROMMERTS & H. J. VAN DER MOLEN 339-346
- Mechanism of 3-phenylpyruvate-induced insulin release from isolated pancreatic islets U. PANTEN & J. LANGER 353-356
- Peptide-induced prostaglandin biosynthesis in the renal-vein-constricted kidney S. I. MYERS, R. ZIPSER & P. NEEDLEMAN 357-363
- Very-low-density-lipoprotein secretion by isolated hepatocytes of fat-fed rats A.-D. KALOPISSIS, S. GRIGLIO, M.-I. MALEWIAK, R. ROZEN & X. LE LIEPVRE 373-377
- α_1 -Adrenergic stimulation of Ca^{2+} mobilization without phosphorylase activation in hepatocytes from phosphorylase *b* kinase-deficient *gsd/gsd* rats P. F. BLACKMORE & J. H. EXTON 379-383
- Stimulation of production of prostaglandin E in gingival cells exposed to products of human blood mononuclear cells S. M. D'SOUZA, D. J. ENGLIS, A. CLARK & R. G. G. RUSSELL 391-396
- Differential responses to inducers of δ -aminolaevulinate synthase and haem oxygenase during pregnancy M. K. SARDANA, S. SASSA & A. KAPPAS 403-408
- Skeletal-muscle α -glucosidases in bovine generalized glycosidosis type II P. R. DORLING, J. MCC. HOWELL & J. M. GAWTHORNE 409-412
- The effect of essential-fatty-acid deficiency on the activity of liver phosphatidate phosphatase in rats J. H. STEWART & G. M. BRIGGS 413-416
- Enhancement of rat brain tyrosine aminotransferase activity by cortisol B. M. SNAPE & A. A.-B. BADAWY 417-420

Cell Surfaces and Receptors

- The nuclear oestrogen receptor in the female rat. Effects of oestradiol administration during the oestrous cycle on the uterus and contrasting effects of progesterone on the uterus and hypothalamus S. THROWER & L. LIM **385–389**
- The use of horseradish peroxidase–lectin conjugates to monitor the purity of plasma-membrane preparations obtained from isolated cells J. P. BANGA, P. PENFOLD & I. M. ROITT **421–423**

Developmental Biochemistry

- Ontogeny of the glucocorticoid receptor and its relationship to tyrosine aminotransferase induction in cultured foetal hepatocytes M. H. CAKE, G. C. T. YEOH & I. T. OLIVER **301–307**
- Foetal glutamate as a possible precursor of placental glutamine in the guinea pig D. L. BLOXAM, C. F. TYLER & M. YOUNG **397–401**
- Lipogenesis *in vivo* in maternal and foetal tissues during late gestation in the rat M. LORENZO, T. CALDÉS, M. BENITO & J. M. MEDINA **425–428**
- Early dolichyl sugar synthesis during differentiation of non-growing brine-shrimp (*Artemia salina*) embryos L. A. QUESADA-ALLUE **429–432**

Membranes, Transport, Bioenergetics and Photosynthesis

- Nuclear envelope of the seminal-vesicle epithelium C. M. VENEZIALE, M. E. UTZ, R. C. STEER, M. J. WILSON & K. AHMED **259–264**
- Partial purification of (Ca²⁺ + Mg²⁺)-dependent ATPase from pig smooth muscle and reconstitution of an ATP-dependent Ca²⁺-transport system F. WUYTACK, G. DE SCHUTTER & R. CASTEELS **265–271**
- The protonmotive potential difference across the vacuolysosomal membrane of *Hevea brasiliensis* (rubber tree) and its modification by a membrane-bound adenosine triphosphatase B. MARIN, M. MARIN-LANZA & E. KOMOR **365–372**
