**Molecular Aspects**

**Contents of Volume 213, No. 2, 1983**

**Peptide and Protein Structure**
Properties of antithrombin–thrombin complex formed in the presence and in the absence of heparin
Á. Danielsson & I. Björk 345–355

Cartilage proteoglycan binding region and link protein. Radioimmunoassays and the detection of masked determinants in aggregates
A. Ratcliffe & T. Hardingham 371–378

A new rapid method for the identification of reducible collagen cross-links in small tissue samples
K. A. Smolenski, N. C. Avery & N. D. Light 525–532

Structural relationship between barley (*Hordeum vulgare*) trypsin inhibitor and castor-bean (*Ricinus communis*) storage protein
S. Odani, T. Koide, T. Ono & K. Ohnishi 543–545

**Enzymes and Enzyme Kinetics**
Polyamines inhibit phospholipid-sensitive and calmodulin-sensitive Ca\(^{2+}\)-dependent protein kinases

Temperature-dependence of intramolecular coupling of active sites in pyruvate dehydrogenase multienzyme complexes

Antibodies to bovine liver branched-chain 2-oxo acid dehydrogenase cross-react with this enzyme complex from other tissues and species

Ca\(^{2+}\)-independent cyclic GMP phosphodiesterases from rat liver and HTC hepatoma cells
G. J. Strewler, M. A. Danello, V. C. Manganiello & M. Vaughan 379–386

Purification of hydrogenases by affinity chromatography on Procion Red–agarose
K. Schneider, M. Pinkwart & K. Jochim 391–398

Isolation of a bifunctional domain from the pentafucntional *arom* enzyme complex of *Neurospora crassa*
D. D. S. Smith & J. R. Coggins 405–415

Imunoassay of muscle-specific creatine kinase with a monoclonal antibody and application to myogenesis and muscular dystrophy
G. E. Morris & L. P. Head 417–425

Purification of the major endoglucanase from *Aspergillus fumigatus* Fresenius
J. B. Parry, J. C. Stewart & J. Heptinstall 437–444

Action of human liver cathepsin B on the oxidized insulin B chain
M. J. McKay, M. K. Offermann, A. J. Barrett & J. S. Bond 467–471

Dog and human acid β-D-galactosidases are structurally similar
J. J. Hubert & J. S. O'Brien 473–478

Comparison of inhibitors of S-adenosylmethionine decarboxylase from different species
A. E. Pegg & G. Jacobs 495–502

The source of oxygen in the reaction catalysed by collagen lysyl hydroxylase
Y. Kikuchi, Y. Suzuki & N. Tamiya 507–512

Relative contribution of thioltransferase- and thioredoxin-dependent systems in reduction of low-molecular-mass and protein disulphides

Purification and partial characterization of a rat retina alcohol dehydrogenase active with ethanol and retinol
P. Juliá, J. Farrés & X. Parés 547–550

Mechanism of inactivation of sheep liver cytoplasmic aldehyde dehydrogenase by disulfiram
T. M. Kitson 551–554

**Metalloproteins**
Development of a radioimmunoassay for rat liver metallothionein-1 and its application to the analysis of rat plasma and kidneys
R. K. Mehra & I. Bremner 459–465
Low-temperature resonance-Raman spectra of Japanese-lacquer-tree (*Rhus vernicifera*) laccase, type-2-copper-depleted laccase and H$_2$O$_2$-treated type-2-copper-depleted laccase

**Lipids**

Long-chain betulaprenol-type polyprenols from the leaves of *Ginkgo biloba*

Occurrence of glycosylation and deglycosylation of exogenously administered ganglioside G$_{M1}$ in mouse liver

Characterization of dolichol and dolichyl phosphate phosphatase from soya beans (*Glycine max*)

The fatty acid composition of 1,2-diacylglycerol and polyphosphoinositides from human erythrocyte membranes

**Membranes**

Miltenberger Class I and II erythrocytes carry a variant of glycoporphin A

The F$_{1}$F$_{0}$-ATPase of *Escherichia coli*. Substitution of proline by leucine at position 64 in the c-subunit causes loss of oxidative phosphorylation

Regulation of surface-membrane enzymes by lipid ordering. A model based on allosteric transition theory

**Carbohydrates and Complex Carbohydrates**

Isolation and some structural analyses of a proteodermatan sulphate from calf skin

Evidence for the presence and structure of asparagine-linked oligosaccharide units in the core protein of proteodermatan sulphate

Studies on the structure of a phosphoglycoprotein from the parasitic protozoan *Trypanosoma cruzi*

Isolation and characterization of high-buoyant-density proteoglycans from bovine femoral-head cartilage

A study of factors influencing hydration of sodium hyaluronate from compressibility and high-precision densimetric measurements

The macromolecular structure of human cervical-mucus glycoproteins. Studies on fragments obtained after reduction of disulphide bridges and after subsequent trypsin digestion

A study of equilibrium binding of link protein to hyaluronate

Isolation and characterization of an endo-β-galactosidase from *Bacteroides fragilis*

**Physical Biochemistry**

Comparative studies of the binding of some ligands to human serum albumin non-covalently attached to immobilized Cibacron Blue, or covalently immobilized on Sepharose, by column affinity chromatography

Identification of the 22-phosphate esters of ecdysone, 2-deoxyecdysone, 20-hydroxyecdysone and 2-deoxy-20-hydroxyecdysone from newly laid eggs of the desert locust, *Schistocerca gregaria*
B.J. Letter
A re-evaluation of the nomenclature of the cysteine proteinases of *Carica papaya* and a rational basis for their identification  

K. Brocklehurst & E. Salih  
559–560
