

Cellular Aspects

Contents of Volume 216, No. 2, 1983

Protein Biosynthesis/Molecular Genetics

- The biosynthesis of dentine γ -carboxyglutamic acid-containing proteins by rat incisor odontoblasts in organ culture M. T. DiMUZIO, M. BHOWN & W. T. BUTLER 249-257
- Biosynthesis of intestinal microvillar proteins. The effect of swainsonine on post-translational processing of aminopeptidase N E. M. DANIELSEN, G. M. COWELL, O. NORÉN, H. SJÖSTRÖM & P. R. DORLING 325-331
- Biosynthesis *in vitro* of complement subcomponents C1q, C1s and C1 inhibitor by resting and stimulated human monocytes J. C. BENZA, A. REBOUL & M. G. COLOMB 385-392
- The cartilage-resorbing protein catabolin is made by synovial fibroblasts and its production is increased by phorbol myristate acetate L. M. C. PILSWORTH & J. SAKLATVALA 481-489

Protein Turnover

- Age-related changes in albumin elimination in female WAG/Rij rats G. J. M. J. HORBACH, S.-H. YAP & C. F. A. VAN BEZOOIJEN 309-315

Metabolism, Regulation and Control Processes

- Altered liver glycogen metabolism in fed genetically obese mice G. VAN DE WERVE, F. ASSIMACOPOULOS-JEANNET & B. JEANRENAUD 273-280
- Thyroliberin stimulates rapid hydrolysis of phosphatidylinositol 4,5-bisphosphate by a phosphodiesterase in rat mammotropic pituitary cells. Evidence for an early Ca^{2+} -independent action M. J. REBECCHI & M. C. GERSHENGORN 287-294
- Response of methylenetetrahydrofolate levels to methotrexate in Krebs ascites cells P. SUR, M. T. DOIG & D. G. PRIEST 295-298
- Calmodulin-independent enzymic phosphorylation of dolichol in *Tetrahymena pyriformis* C. R. GANDHI & R. W. KEENAN 317-323
- Effect of starvation and refeeding on amino acid uptake by mammary gland of the lactating rat. Role of ketone bodies J. R. VIÑA, I. R. PUERTES, J. B. MONTORO & J. VIÑA 343-347
- Mechanism of activation of pyruvate dehydrogenase by mitogens in pig lymphocytes E. BAUMGARTEN, M. D. BRAND & T. POZZAN 359-367
- Metabolic effects of bacitracin in isolated rat hepatocytes L. AGIUS, C. WILDING & K. G. M. M. ALBERTI 369-375
- Regio- and stereo-selective metabolism of 4-methylbenz[a]-anthracene by the fungus *Cunninghamella elegans* C. E. CERNIGLIA, P. P. FU & S. K. YANG 377-384
- Bidirectional transport of glutamine across the cell membrane in rat liver P. FAFOURNOUX, C. DEMIGNÉ, C. RÉMÉSY & A. LE CAM 401-408
- The generation of hydroxyl and alkoxy radicals from the interaction of ferrous bipyridyl with peroxides. Differential oxidation of typical hydroxyl-radical scavengers G. W. WINSTON, W. HARVEY, L. BERL & A. I. CEDERBAUM 415-421
- Phosphatidylinositol hydrolysis in isolated guinea-pig islets of Langerhans M. P. SCHREY & W. MONTAGUE 433-441
- Dependence of fluid-phase pinocytosis in arterial smooth-muscle cells on temperature, cellular ATP concentration and the cytoskeletal system E. M. MUIR & D. E. BOWYER 467-473
- Defective activation by glucose of hepatic glycogen synthesis in the obese hyperglycaemic mouse S. A. SMITH, M. A. CAWTHORNE, A. L. LEVY & D. L. SIMSON 491-494

Importance of albumin binding in the assay for carnitine palmitoyltransferase	K. McCORMICK & V. J. NOTAR-FRANCESCO	495-498
Inhibition by acetyl-CoA of hepatic carnitine acyltransferase and fatty acid oxidation	K. McCORMICK, V. J. NOTAR-FRANCESCO & K. SRIWATANAKUL	499-502
Effect of catalase inactivation on levels of inorganic peroxides, superoxide dismutase, glutathione, oxygen consumption and life span in adult horseflies (<i>Musca domestica</i>)	R. G. ALLEN, K. J. FARMER & R. S. SOHAL	503-506
The stimulation of glycogenolysis and gluconeogenesis in isolated hepatocytes by opioid peptides	E. H. ALLAN, I. C. GREEN & M. A. TITHERADGE	507-510
Concomitant increase in hepatic triacylglycerol biosynthesis and cytosolic fatty-acid-binding-protein content after feeding rats with a cholestyramine-containing diet	H. J. M. KEMPEN, J. F. C. GLATZ, J. DE LANGE & J. H. VEERKAMP	511-514
The effect of starvation and refeeding on lipogenic enzymes in mammary glands and livers of lactating rats	M. R. GRIGOR & K. R. GAIN	515-518
The hydrogenation of γ -linolenic acid by pure cultures of two rumen bacteria	P. KEMP & D. J. LANDER	519-522
Glutamine synthetase activity of muscle in acidosis	P. A. KING, L. GOLDSTEIN & E. A. NEWSHOLME	523-525
Cell Surfaces and Receptors		
The binding of monoclonal antibodies to cell-surface molecules. A quantitative analysis with immunoglobulin G against two alloantigenic determinants of the human transplantation antigen HLA-A2	J. P. WAYS & P. PARHAM	423-432
Two distinct mechanisms for stimulation of oxygen-radical production by polymorphonuclear leucocytes	M. B. HALLETT & A. K. CAMPBELL	459-465
Lack of vasopressin receptors in liver, but not in kidney, of <i>ob/ob</i> mice	F. ASSIMACOPOULOS-JEANNET, B. CANTAU, G. VAN DE WERVE, S. JARD & B. JEANRENAUD	475-480
Developmental Biochemistry		
Hormonal regulation of two urea-cycle enzymes in cultured foetal hepatocytes	A. HUSSON, M. BOUAZZA, C. BUQUET & R. VAILLANT	281-285
Developmental and characteristics of an oestrogen sulphotransferase in placenta and uterus of the pregnant mouse. Comparison between mouse and rat	R. HOBKIRK, C. A. CARDY, F. SAIDI, T. G. KENNEDY & L. R. GIRARD	451-457
Membranes, Transport, Bioenergetics and Photosynthesis		
The mechanism of proton translocation by the cytochrome system of mitochondria. Characterization of proton-transfer reactions associated with oxidoreductions of terminal respiratory carriers	S. PAPA, F. GUERRIERI & G. IZZO	259-272
The kinetics of dissociation of the inhibitor of nucleoside transport, nitrobenzylthioinosine, from the high-affinity binding sites of cultured hamster cells	R. KOREN, C. E. CASS & A. R. P. PATERSON	299-308
The α -adrenergic-mediated activation of the cardiac mitochondrial Ca^{2+} uniporter and its role in the control of intramitochondrial Ca^{2+} <i>in vivo</i>	M. CROMPTON, P. KESSAR & I. AL-NASSER	333-342
Red-cell amino acid transport. Evidence for the presence of system ASC in mature human red blood cells	J. D. YOUNG, M. W. WOLOWYK, S. M. JONES & J. C. ELLORY	349-357
Characteristics of cystine counter-transport in normal and cystinotic lysosome-rich leucocyte granular fractions	W. A. GAHL, F. TIETZE, N. BASHAN, I. BERNARDINI, D. RAIFORD & J. D. SCHULMAN	393-400
Abnormal secretion of proteins into bile from colchicine-treated isolated perfused rat livers	S. G. BARNWELL & R. COLEMAN	409-414

Slow passive diffusion of NAD ⁺ between intact isolated plant mitochondria and suspending medium	M. NEUBURGER & R. DOUCE	443–450
B.J. Letter		
Problems associated with assessment of the effect of GDP upon hormone stimulation of adenylate cyclase	G. J. MURPHY & D. A. STANSFIELD	527–528
