

# CONTENTS

Volume 218, No. 1, 1984

## REVIEW ARTICLE

- The entry of enveloped viruses into cells by endocytosis M. MARSH 1-10

## FULL AND RAPID PAPERS

### Proteins

- Immunoreactive insulin from mouse brain cells in culture and whole rat brain N. P. BIRCH, D. L. CHRISTIE & A. G. C. RENWICK 19-27
- The periphery of the developing collagen fibril. Quantitative relationships with dermatan sulphate and other surface-associated species J. E. SCOTT 229-233

### Enzymes

- Allosteric interactions of glycogen phosphorylase *b*. A crystallographic study of glucose 6-phosphate and inorganic phosphate binding to di-imidate-cross-linked phosphorylase *b* L. LOREK, K. S. WILSON, M. S. P. SANSOM, D. I. STUART, E. A. STURA, J. A. JENKINS, G. ZANOTTI, J. HAJDU & L. N. JOHNSON 45-60
- Isolation and characterization of glyoxylate dehydrogenase from the fungus *Sclerotium rolfsii* A. J. BALMFORTH & A. THOMSON 113-118
- Transport and processing of  $\beta$ -hexosaminidase in normal and mucopolidosis-II cultured fibroblasts. Effect of monensin and nigericin G. D. VLADUTIU 261-268

### Lipids

- Phosphatidylinositol-4,5-bisphosphate phosphodiesterase and phosphomonoesterase activities of rat brain. Some properties and possible control mechanisms R. F. IRVINE, A. J. LETCHER & R. M. C. DAWSON 177-185

### Nucleic acids and molecular genetics

- Cell killing and DNA damage by hydrogen peroxide are mediated by intracellular iron A. C. MELLO FILHO, M. E. HOFFMANN & R. MENEGHINI 273-275

### Synthesis and degradation of macromolecules

- Comparison of the collagenous products synthesized in culture by pig aortic endothelial and smooth-muscle cells. Variability in endothelial-cell cultures E. A. SANKEY & M. J. BARNES 11-18
- Tissue kallikrein synthesis and its modification by testosterone or low dietary sodium D. H. MILLER, J. CHAO & H. S. MARGOLIUS 37-43
- Steroid-induced protein synthesis in giant-toad (*Bufo marinus*) urinary bladders. Correlation with natriferic activity M. GEHEB, R. ALVIS, A. OWEN, E. HERCKER & M. COX 221-228
- Extracts of human articular cartilage contain an inhibitor of tissue metalloproteinases D. D. DEAN & J. F. WOESSNER, JR. 277-280

### Intermediary metabolism and metabolic control

- Stimulation of prostaglandin E<sub>2</sub> synthesis by exogenous phospholipase A<sub>2</sub> and C in rabbit kidney medulla slices Y. FUJIMOTO, N. AKAMATSU, A. HATTORI & T. FUJITA 69-74
- Cyclic AMP-dependent protein phosphorylation and insulin secretion in intact islets of Langerhans M. R. CHRISTIE & S. J. H. ASHCROFT 87-99
- Regional enzyme development in rat brain. Enzymes associated with glucose utilization S. F. LEONG & J. B. CLARK 131-138
- Regional enzyme development in rat brain. Enzymes of energy metabolism S. F. LEONG & J. B. CLARK 139-145

The ability of adenosine to decrease the concentration of fructose 2,6-bisphosphate in isolated hepatocytes. A cyclic AMP-mediated effect	R. BARTRONS, E. VAN SCHAFTINGEN & H.-G. HERS	157-163
Role of fructose 2,6-bisphosphate in the control by glucagon of gluconeogenesis from various precursors in isolated rat hepatocytes	L. HUE & R. BARTRONS	165-170
Concentration of free oxaloacetate in the mitochondrial compartment of isolated liver cells	E. A. SIESS, R. I. KIENTSCH-ENGEL & O. H. WIELAND	171-176
Independent regulation of 3-hydroxy-3-methylglutaryl-coenzyme A reductase and chylomicron remnant receptor activities in rat liver	D. P. WADE, A. K. SOUTAR & G. F. GIBBONS	203-211
Role of Ca <sup>2+</sup> ions in the regulation of intramitochondrial metabolism in rat heart. Evidence from studies with isolated mitochondria that adrenaline activates the pyruvate dehydrogenase and 2-oxoglutarate dehydrogenase complexes by increasing the intramitochondrial concentration of Ca <sup>2+</sup>	J. G. MCCORMACK & R. M. DENTON	235-247
Role of Ca <sup>2+</sup> ions in the regulation of intramitochondrial metabolism in rat epididymal adipose tissue. Evidence against a role for Ca <sup>2+</sup> in the activation of pyruvate dehydrogenase by insulin	S. E. MARSHALL, J. G. MCCORMACK & R. M. DENTON	249-260
Cleavage of formate from $\omega$ ,4-dihydroxyacetophenone. An unusual oxygen-requiring reaction in the bacterial catabolism of 4-hydroxyacetophenone	D. J. HOPPER & E. A. ELMORSI	269-272
<b>Bioenergetics and transport</b>		
Nutritional effects on mitochondrial bioenergetics. Alterations in oxidative phosphorylation by rat liver mitochondria	J. FERREIRA & L. GIL	61-67
$\gamma$ -Glutamyltransferase is not involved in the bulk uptake of amino acids, peptides or $\gamma$ -glutamyl-amino acids in yeast ( <i>Saccharomyces cerevisiae</i> )	G. M. PAYNE & J. W. PAYNE	147-155
<b>Membranes and receptors</b>		
Temperature optimum of insulin-stimulated 2-deoxy-D-glucose uptake in rat adipocytes. Correlation of cellular transport with membrane spin-label and fluorescence-label data	P. A. HYSLOP, C. E. KUHN & R. D. SAUERHEBER	29-36
Human placental microvilli contain high-affinity binding sites for folate	T. GREEN & H. C. FORD	75-80
Endocytosis of formaldehyde-treated serum albumin via scavenger pathway in liver endothelial cells	R. BLOMHOFF, W. ESKILD & T. BERG	81-86
Degradation of lipoproteins by human monocyte-derived macrophages. Evidence for two distinct processes for the degradation of abnormal very-low-density lipoprotein from subjects with type III hyperlipidaemia	A. K. SOUTAR & B. L. KNIGHT	101-111
Interaction of plasmin with endothelial cells	P. I. BAUER, R. MACHOVICH, K. G. BÜKI, É. CSONKA, S. A. KOCH & I. HORVATH	119-124
The microviscosity of liver plasma membranes of rats fed with oleoylanilide	R. PAGANI, M. T. PORTOLES, F. G. GAVILANES, P. GARCIA-BARRENO & A. M. MUNICIO	125-129
Receptor-mediated metabolism of the phosphoinositides and phosphatidic acid in rat lacrimal acinar cells	P. P. GODFREY & J. W. PUTNEY, JR.	187-195
The thiol groups of the Folch-Pi protein from bovine white matter. Exposure, reactivity and significance	M. VACHER, M. WAKS & C. NICOT	197-202
Monosaccharide transport in the mammary gland of the intact lactating rat	L. C. THREADGOLD & N. J. KUHN	213-219
