The

BIOCHEMICAL

JOURNAL

London: The Biochemical Society © 1985

VOLUME 228, No. 2 1 June 1985

EDITORIAL BOARD

Chairman
C. I. Pogson (Beckenham)

Deputy Chairmen
J. A. Lucy (London)
P. J. Garlick (Aberdeen)
M. D. Houslay (Glasgow)
K. B. M. Reid (Oxford)
J. E. Kay (Brighton)

Editorial Manager
A. G. J. Evans

Editorial Secretary
A. S. Beedle

The Editorial Board includes two members nominated by the British Biophysical Society

- The Biochemical Journal is published and distributed by the Biochemical Society, and appears twice monthly.
- Subscriptions Department: The Biochemical Society Book Depot, P.O. Box 32, Commerce Way, Colchester CO2 8HP, Essex, U.K.
- All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording or otherwise without the prior permission of the copyright owner.
- Copies of articles in this journal may be made in the U.S.A. for personal or internal use, or for the personal or internal use of specific clients, on the condition, however, that the copier pay the stated per-copy fee through the Copyright Clearance Center Inc. (P.O. Box 765, Schenectady, New York 12301, U.S.A.) for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. The Copyright Clearance Center code for this journal is 0264-6021/85/$2.00.
- Second-class postage paid at New York, NY, U.S.A.
The Biochemical Journal places emphasis on the prompt publication of Full-length Papers (on average about 6 months after receipt), Rapid Papers (on average within 3 months of receipt), Reviews and BJ Letters. It is the Journal's policy to publish papers in English in all fields of biochemistry, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Theoretical contributions will be considered equally with papers dealing with experimental work. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Preliminary or inconclusive experiments should not be described.

Papers submitted from non-members and members of the Biochemical Society. Prospective authors should note that the Biochemical Journal offers rapid publication and makes no charge for handling charges, no page charges and no charges for plates (except colour). Fifty reprints are provided free of charge; further copies are available at modest cost.

The paragraphs below are a summarized version of information provided in the Biochemical Society's Policy of the Journal and Instructions to Authors (Biochem J 1985; 225:1-36). Copies are available from the Editorial Office.

The following types of submission are considered by the Editorial Board:
1. Full-length Papers (normally eight printed pages maximum)
2. Rapid Papers (four printed pages maximum)
3. Letters (two printed pages maximum)
4. Reviews (usually solicited)

Full-length Papers and Rapid Papers

Full-length Papers should not normally exceed eight printed pages, including figures and tables. Longer papers may be acceptable if their content justifies their length. Indeed, the Board's decision to restrict the length of papers should not lead authors to split their work into two or more shorter papers. For example, a single paper consisting justifiably of ten printed pages will normally be considered more favourably than two papers each of six pages dealing with the same material. Authors should remember that short papers are generally published with the least delay.

All papers that can be accommodated in four pages of the Journal will be treated as Rapid Papers. They receive priority treatment and it is aimed for their publication to be within 3 months of receipt. However, the criteria of reviewing and the appearance of Rapid Papers in the Journal are identical with those of Full-length Papers. In order to achieve the accelerated schedule, reviewers are asked to deal with the paper within 48 h and proofs of accepted Rapid Papers are not normally supplied to authors. However, authors are given details of any editing of Rapid Papers at the same time that the typscripts are sent to the printer, with a request that any essential amendments be sent to the Editorial Secretary as soon as possible.

The scientific editorial staff in the Editorial Office check the proofs to ensure that they tally exactly with the edited typscripts and make any necessary alterations indicated by the authors.

Papers submitted for publication should be addressed to the Editorial Secretary, The Biochemical Journal, 7 Warwick Court, London WC1R 5DP, U.K. Three copies of the typscript should be submitted. The typscript should bear the name and address of the person to whom correspondence (including proofs) should be sent. An additional copy of the synopsis should be enclosed. The top copy should be accompanied by the original artwork (see the Appendix to Policy of the Journal and Instructions to Authors for advice on the preparation of figures). Photocopies of line drawings are acceptable for the other two copies but glossy prints (not photocopies) of all the half-tone figures must be provided.

It is helpful if the author encloses copies of relevant preceding papers, especially if these were not published in the Biochemical Journal. If the paper submitted refers to a paper 'in the press' in another journal the reviewers will not have access to this material and it is important that the author should include photocopies of the relevant typscript together with documentary evidence that it has been accepted for publication. Any reference to a 'personal communication' must be supported by documentary evidence from the individual quoted showing that agreement with the quotation is given.

Before preparing papers, authors should consult a current issue of the Journal to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and citation of references. Typscripts should be in double-spaced typing throughout (including the references and legends of tables and figures) on sheets of uniform size with wide margins.

Full-length Papers should not normally exceed 6000 words in length, and Rapid Papers must not exceed 3000 words, each inclusive of title, synopsis and references. Authors must assess what proportion of a page insertions (such as tables, figures and schemes) will occupy and reduce the number of text words accordingly at the rate of 800 words per full page of the Journal.

Authors should state under which section of the contents list they wish their paper to appear:

Proteins
Enzymes
Carbohydrates
Lipids
Nucleic acids and molecular genetics
Synthesis and degradation of macromolecules
Intermediary metabolism and metabolic control
Bioenergetics and transport
Hormones and receptors
Cell structure and function
Methods

BJ Letters and Reviews

BJ Letters are intended to provide an opportunity to discuss, criticize or expand particular points made in published work, or to present a new hypothesis. They should not be comments on general aspects of the biochemical world, nor should they be used as an alternative to a Rapid Paper. If a letter is polemical in nature, a reply may be solicited from other interested parties before its publication. Letters must not exceed 1200 words, which is approximately the equivalent of two printed pages.

Reviews will usually be solicited, although unsolicited reviews will be considered for publication; however, prospective writers of reviews should first consult the Chairman of the Editorial Board.

SUBSCRIBERS

The Biochemical Journal is published and distributed by the Biochemical Society. It is published twice monthly; in 1985 eight volumes (225-232) of three parts each will appear. An Annual Index is supplied to all subscribers as soon as possible after publication of the year's volumes.

Subscription rates

For non-members of the Biochemical Society the subscription rates for 1985 are shown below. Subscribers to the Biochemical Journal can subscribe additionally to Biochemical Society Transactions on a joint subscription, saving £15.00 (U.K. and Overseas) or $25.00 (N. America). The methods of despatch of both publications are shown below.

U.S.A., U.K. & Overseas

1 year (8 volumes) $445 U.S. $890
Per volume $56 U.S. $112
Per part £19.50 U.S. $40

Subscription rates for Japan are available on application.

The subscription rate for North America includes an element for airfreight service.

Advertisements

Applications for advertising space should be sent to the Advertising Department at the Society's London address. Rates are available on request.

Microfiche

Volumes 102-224 of the Biochemical Journal are available on microfiche. Further details are available from the address below.

The Journal is published by Blackwell Scientific Publications, 900 Nunhead Lane, London SE15 4TA, U.K. (tel. 01-764 7007). Its annual subscription in 1985 is £25.00 for institutions, £15.00 for individuals in non-commercial usage. Single issues may be purchased for £3.00 each. The current issue is Volume 115. Subscriptions are taken out for a calendar year and begin in January, although copies of the previous year’s issues are available up to the time of publication of the current volume.
