## Volume 230, No. 2, 1985

### REVIEW ARTICLE

- |                             |                               |         |
|-----------------------------|-------------------------------|---------|
| The T cell antigen receptor | M. K. L. COLLINS & M. J. OWEN | 281-291 |
|-----------------------------|-------------------------------|---------|

### FULL AND RAPID PAPERS

#### Proteins

- |  |  |         |
|--|--|---------|
| Amino acid sequence of the trypsin-generated C3d fragment from human complement factor C3    | U. HELLMAN, G. EGGERTSEN, Å. ENGSTRÖM & J. SJÖQUIST            | 353-361 |
| Stabilization of glucose-6-phosphatase activity by a 21000-dalton hepatic microsomal protein | A. BURCHELL, B. BURCHELL, M. MONACO, H. E. WALLS & W. J. ARION | 489-495 |
| The interaction between subunits in the tubulin dimer  | L. SERRANO & J. AVILA  | 551-556 |

#### Enzymes

- |  |   |         |
|--|---|---------|
| Polyamine-stimulated phosphorylation of prostatic spermine-binding protein is mediated only by cyclic AMP-independent protein kinases                  | S. A. GOUELI, A. T. DAVIS, R. A. HIIPAKKA, S. LIAO & K. AHMED | 293-302 |
| Strain differences in purified rat hepatic 3 $\alpha$ -hydroxysteroid UDP-glucuronyltransferase  | M. D. GREEN, C. N. FALANY, R. B. KIRKPATRICK & T. R. TEPHLY   | 403-409 |
| Stoichiometry of substrate binding to rat liver fatty acid synthetase  | J. MIKKELSEN, S. SMITH, A. STERN & J. KNUDSEN                 | 435-440 |
| Purification and properties of rabbit brain and liver 4-aminobutyrate aminotransferases isolated by monoclonal-antibody immunoadsorbent chromatography | N. KIRBY, L. J. FOWLER, J. M. EDWARDSON & N. I. PHILLIPS      | 481-488 |
| Specificity of activated human Protein C   | S. R. STONE & J. HOFSTEENGE                                   | 497-502 |
| Characterization of ectonucleotidases on vascular smooth-muscle cells  | J. D. PEARSON, S. B. COADE & N. J. CUSACK                     | 503-507 |
| Calpain inhibition by peptide epoxides   | C. PARKES, A. A. KEMBHAVI & A. J. BARRETT                     | 509-516 |
| The phosphonomethyl analogue of 3-phosphoglycerate is a potent competitive inhibitor of phosphoglycerate mutases                                       | S. M. MCALEESE, L. A. FOTHERGILL-GILMORE & H. B. F. DIXON     | 535-542 |

#### Lipids

- |  |   |         |
|--|---|---------|
| The acylation of <i>sn</i> -glycerol 3-phosphate and the metabolism of phosphatidate in microsomal preparations from the developing cotyledons of safflower ( <i>Carthamus tinctorius</i> L.) seed | G. GRIFFITHS, A. K. STOBART & S. STYMNE | 379-388 |
|--|---|---------|

#### Nucleic acids and molecular genetics

- |  |              |         |
|--|--------------|---------|
| The action of actinomycin D on the transcription of T7 coliphage DNA by <i>Escherichia coli</i> RNA polymerase | P.-A. FLAMÉE | 557-560 |
|--|--------------|---------|

#### Synthesis and degradation of macromolecules

- |   |   |         |
|---|---|---------|
| Strain-specific differences in the proline-rich proteins and glycoproteins induced in rat salivary glands by chronic isoprenaline treatment                                   | M. G. HUMPHREYS-BEHER                                     | 369-378 |
| Synthesis and degradation <i>in vivo</i> of a phosphoprotein from rat dental enamel. Identification of a phosphorylated precursor protein in the extracellular organic matrix | E. STRAWICH & M. J. GLIMCHER                              | 423-433 |
| Isolation from bovine elastic tissues of collagen type VI and characterization of its form <i>in vivo</i>   | S. AYAD, C. A. CHAMBERS, C. A. SHUTTLEWORTH & M. E. GRANT | 465-474 |
| Failure of highly purified lysyl hydroxylase to hydroxylate lysyl residues in the non-helical regions of collagen   | P. M. ROYCE & M. J. BARNES                                | 475-480 |

## Contents

### Intermediary metabolism and metabolic control

- Serine synthesis by an isolated perfused rat kidney preparation R. C. SCADUTO, JR. & E. J. DAVIS 303-311
- Inhibitory effects of some long-chain unsaturated fatty acids on mitochondrial  $\beta$ -oxidation. Effects of streptozotocin-induced diabetes on mitochondrial  $\beta$ -oxidation of polyunsaturated fatty acids H. OSMUNDSEN & K. BJØRNSTAD 329-337
- Stimulation of interleukin 1 and 3 production by retinoic acid *in vitro* U. TRECHSEL, V. EVÊQUOZ & H. FLEISCH 339-344
- Anomeric specificity of hexokinase and glucokinase activities in liver and insulin-producing cells A. SENER, M.-H. GIROIX, S. P. DUFRANE & W. J. MALAISSE 345-351
- Enzymic basis of deranged foetal flavin-nucleotide metabolism consequent on immunoneutralization of maternal riboflavin carrier protein in the pregnant rat N. SUROLIA, K. KRISHNAMURTHY & P. R. ADIGA 363-367
- Altered release of carnitine palmitoyltransferase activity by digitonin from liver mitochondria of rats in different physiological states V. A. ZAMMIT & C. G. CORSTORPHINE 389-394
- Protective effect of metallothionein on cadmium toxicity in isolated rat hepatocytes W. S. DIN & J. M. FRAZIER 395-402
- A study on the mechanism of the epimerization at C-3 of chenodeoxycholic acid by *Clostridium perfringens* F. ARAGOZZINI, E. CANZI, A. FERRARI, E. MACONI & A. SIDJIMOV 451-455
- $\alpha$ -Adrenergic stimulation of glutamine metabolism in isolated rat hepatocytes A. J. VERHOEVEN, J. M. ESTRELA & A. J. MEIJER 457-463
- Interactions of insulin, glucagon and dexamethasone in controlling the activity of glycerol phosphate acyltransferase and the activity and subcellular distribution of phosphatidate phosphohydrolase in cultured rat hepatocytes R. A. PITTNER, R. FEARS & D. N. BRINDLEY 525-534

### Bioenergetics and transport

- Effects of  $1\alpha,25$ -dihydroxycholecalciferol on sodium-ion translocation across chick intestinal brush-border membrane R. FUCHS, J. GRAF & M. PETERLIK 441-449
- A critical appraisal of evidence for localized energy coupling. Kinetic studies on liposomes containing bacteriorhodopsin and ATP synthase R. L. VAN DER BEND, J. PETERSEN, J. A. BERDEN, K. VAN DAM & H. V. WESTERHOFF 543-549

### Membranes and receptors

- Adrenergic-agonist-induced  $Ca^{2+}$  fluxes in rat parotid cells are not  $Na^{+}$ -dependent J. HELMAN, G. S. ROTH & B. J. BAUM 313-320
- A new haemagglutinin from the amoebocytes of the horseshoe crab *Carcinoscorpius rotundicauda*. Purification and role in cellular aggregation S. SRIMAL, D. T. DORAI, M. SOMASUNDARAN, B. K. BACHHAWAT & T. MIYATA 321-327
- Mathematical modelling of the formation of coated vesicles. A theoretical geometrical approach M. P. LISANTI & S. PUSZKIN 411-421

### Methods

- The behaviour of caeruloplasmin in stored human extracellular fluids in relation to ferroxidase II activity, lipid peroxidation and phenanthroline-detectable copper J. M. C. GUTTERIDGE, P. G. WINYARD, D. R. BLAKE, J. LUNEC, S. BRAILSFORD & B. HALLIWELL 517-523
