The Aldrich AtmosBag™ controlled-atmosphere chamber with built-in gloves

The Aldrich AtmosBag™ is a polyethylene bag which can be sealed, purged, and inflated with an appropriate gas, creating a portable, convenient, and inexpensive "glove box" for handling air- and moisture-sensitive and toxic* materials. It is especially suitable for handling air-sensitive solid reagents: at Aldrich such reagents are packaged in an AtmosBag inflated with the appropriate inert gas.

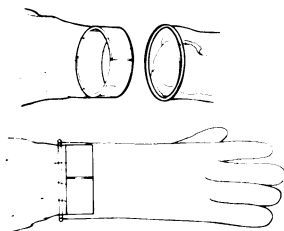

Other applications include: dust-free operations, controlled-atmosphere habitat, and, for the ethylene-oxide-treated AtmosBag, immunological and microbiological studies.

Dimensions when uninflated (in)				Ethylene-oxide-treated			
Size	Opening	W	L	Cat. No.	Price	Cat. No.	Price
L	36	51	58	Z10,608-9	\$25.95	Z11,835-4	\$25.00
M	24	39	48	Z11,282-8	\$20.80	Z11,836-2	\$21.95
S	12	27	30	Z11,283-6	\$15.60	Z11,837-0	\$17.00

Select-a-glove AtmosBag

Equipped with rings instead of gloves, this AtmosBag enables one to use the gloves of choice by simply taping the gloves onto the rings (1½ in wide, 3¼ in diam.).

For example, one can use surgical gloves for better feel or Viton gloves for greater protection. NBR rubber, premium white rubber, and neoprene gloves may also be used.

Z11,284-4 Gloveless AtmosBag (L) \$31.20

Four-Hand AtmosBag

This AtmosBag [dimensions (uninflated): 30 (opening) × 45 × 58in] has four built-in gloves and is slightly smaller than the large two-hand AtmosBag. It is completely symmetrical and is designed so that cutting off the sealed end enables attachment of AtmosBags in series, using semi-rigid ring connectors. It also enables construction of an air-lock, using the AtmosBag divider.

Z10,840-5 Four-Hand AtmosBag \$31.05; \$105.40/4
Z10,852-9 AtmosBag Connector (66 × 3 × ¼ in) \$4.30
Z10,866-9 AtmosBag Divider \$8.05

*CAUTION. When handling toxic materials use only in a hood or other controlled system to prevent and protect against exposure in case of leakage. All products made of polyethylene may tear, break or puncture. To assure that air-sensitive materials do not become exposed to air, follow instructions on package; also test and monitor AtmosBag for leaks before and during use.

Accessories

Floor Base. Rigid polyethylene, ½ in thick. Keeps AtmosBag in place.

L 22 × 32in **Z10,691-7** \$43.00
M 20 × 16in **Z11,285-2** \$33.85
S 11 × 15in **Z11,286-0** \$31.60

Sealing Tape. 3in × 60yd.

Z10,692-5 \$8.05

Glove Liners. White cotton-knit gloves.

S - M **Z11,833-8** \$12.00/12pr.
M - L **Z11,834-6** \$12.00/12pr.
