FULL AND RAPID PAPERS

Proteins

- | | | |
|---|--|---------|
| Extended-X-ray-absorption-fine-structure investigations of zinc in 5-aminolaevulinate dehydratase | S. S. HASNAIN, E. M. WARDELL,
C. D. GARNER, M. SCHLÖSSER &
D. BEYERSMANN | 625-633 |
| Properties of caldesmon isolated from chicken gizzard | P. K. NGAI & M. P. WALSH | 695-707 |

Enzymes

- | | | |
|---|---|---------|
| Isoenzymes of glutathione transferase in rat kidney cytosol | C. GUTHENBERG, H. JENSSON,
L. NYSTRÖM, E. ÖSTERLUND,
M. K. TAHIR & B. MANNERVIK | 609-615 |
| Human indolylamine 2,3-dioxygenase. Its tissue distribution, and characterization of the placental enzyme | F. YAMAZAKI, T. KUROIWA,
O. TAKIKAWA & R. KIDO | 635-638 |
| Partial characterization of lysyl oxidase from several human tissues | H. KUIVANIEMI | 639-643 |
| Evaluation of inhibitor constants and alkylation rates for a series of thrombin affinity labels | B. WALKER, P. WIKSTROM &
E. SHAW | 645-650 |
| The suicide inactivation of ox liver short-chain acyl-CoA dehydrogenase by propionyl-CoA. Formation of an FAD adduct | L. SHAW & P. C. ENGEL | 723-731 |
| The polypeptide composition of the mitochondrial NADH:ubiquinone reductase complex from several mammalian species | M. W. J. CLEETER & C. I. RAGAN | 739-746 |
| Proteins of the kidney microvillar membrane. The 130kDa protein in pig kidney, recognized by monoclonal antibody GK5C1, is an ectoenzyme with aminopeptidase activity | N. S. GEE & A. J. KENNY | 753-764 |
| Inhibition of squalene epoxidase by allylamine antimycotic compounds. A comparative study of the fungal and mammalian enzymes | N. S. RYDER & M.-C. DUPONT | 765-770 |
| Essentiality of the active-site arginine residue for the normal catalytic activity of Cu,Zn superoxide dismutase | C. L. BORDERS, JR., J. E. SAUNDERS,
D. M. BLECH & I. FRIDOVICH | 771-776 |
| Functional characterization of constituent enzyme fractions of mycobacillin synthetase | S. K. GHOSH, S. MAJUMDER,
N. K. MUKHOPADHYAY & S. K. BOSE | 785-789 |
| Mechanism of action of rabbit liver phosphoglucomutase | H. JAMIL & J. B. CLARKE | 791-795 |
| Cytochrome <i>c</i> -551 and azurin oxidation catalysed by <i>Pseudomonas aeruginosa</i> cytochrome <i>c</i> oxidase. A steady-state kinetic study | M. G. TORDI, M. C. SILVESTRINI,
A. COLOSIMO, L. TUTTOBELLO &
M. BRUNORI | 797-805 |

Carbohydrates

- | | | |
|---|---|---------|
| Molecular distinctions between heparan sulphate and heparin. Analysis of sulphation patterns indicates that heparan sulphate and heparin are separate families of <i>N</i> -sulphated polysaccharides | J. T. GALLAGHER & A. WALKER | 665-674 |
| Masticatory lubrication. The role of carbohydrate in the lubricating property of a salivary glycoprotein-albumin complex | M. N. HATTON, R. E. LOOMIS,
M. J. LEVINE & L. A. TABAK | 817-820 |

Lipids

- | | | |
|--|--|---------|
| Retinol esterification in cultured rat liver cells | C. A. DREVON, R. BLOMHOFF,
M. RASMUSSEN, G. M. KINDBERG,
T. BERG & K. R. NORUM | 617-623 |
|--|--|---------|

Contents

Nucleic acids and molecular genetics

- Ribitol dehydrogenase of *Klebsiella aerogenes*. Sequence and properties of wild-type and mutant strains
 J. M. DOTHIE, J. R. GIGLIO, C. B. MOORE, S. S. TAYLOR & B. S. HARTLEY 569-578
- Ribitol dehydrogenase of *Klebsiella aerogenes*. Sequence of the structural gene
 T. LOVINY, P. M. NORTON & B. S. HARTLEY 579-585

Synthesis and degradation of macromolecules

- Potent inhibition of mammalian progesterone synthesis by 2 α -cyanoprogestrone
 R. B. SHARP, M. B. SENIOR & T. M. PENNING 587-594
- A new negatively regulated acute-phase phosphoprotein synthesized by rat hepatocytes
 A. LE CAM & G. LE CAM 603-607

Intermediary metabolism and metabolic control

- Comparison of kinetic study of the photochemical changes of (ZZ)-bilirubin IX α bound to human serum albumin with that bound to rat serum albumin
 S. ONISHI, S. ITOH, T. YAMAKAWA, K. ISOBE, M. MANABE, S. TOYOTA & T. IMAI 561-567
- The effect of acute ethanol treatment on rates of oxygen uptake, ethanol oxidation and gluconeogenesis in isolated rat hepatocytes
 K. M. STOWELL & K. E. CROW 595-602
- Regulation of lipolysis during pregnancy and lactation in sheep. Response to noradrenaline and adenosine
 R. G. VERNON & E. FINLEY 651-656
- Decreased urea synthesis in cafeteria-diet-induced obesity in the rat
 T. BARBER, J. R. VIÑA, J. VIÑA & J. CABO 675-681
- The microsomal dicarboxyl-CoA synthetase
 J. VAMECQ, E. DE HOFFMANN & F. VAN HOOF 683-693
- Hormone-induced actin polymerization in rat hepatoma cells and human leucocytes
 K. M. K. RAO, J. M. BETSCHART & M. A. VIRJI 709-714
- Evidence for adrenergic control of transcellular calcium distribution in liver
 C. E. HILL, A. P. DAWSON & J. S. PRYOR 733-737
- Effects of diabetes on the expressed and total activities of 3-hydroxy-3-methylglutaryl-CoA reductase in rat liver *in vivo*. Reversal by insulin treatment
 R. A. EASOM & V. A. ZAMMIT 747-752
- Control and production of leukotriene B₄ in rat tumour and testicular Leydig cells
 M. H. F. SULLIVAN & B. A. COOKE 821-824
- Age- and activity-related changes in three proteinase enzymes of rat skeletal muscle
 D. F. GOLDSPIK & S. E. M. LEWIS 833-836

Bioenergetics and transport

- Microcompartmentation of transported carnitine, acetylcarnitine and ADP occurs in the mitochondrial matrix. Implications for transport measurements and metabolism
 M. S. R. MURTHY & S. V. PANDE 657-663
- Characterization of Na⁺-dependent phosphate uptake in cultured kidney cells (JTC-12) from monkey
 Y. TAKUWA & E. OGATA 715-721
- Proteolytic cleavage of [³H]nitrobenzylthioinosine-labelled nucleoside transporter in human erythrocytes
 N. S. JANMOHAMED, J. D. YOUNG & S. M. JARVIS 777-784

Membranes and receptors

- ⁵¹V-n.m.r. analysis of the binding of vanadium(V) oligoanions to sarcoplasmic reticulum
 P. CSERMELY, A. MARTONOSI, G. C. LEVY & A. J. EJCHART 807-815

Cell structure and function

- The sporulation-specific penicillin-binding protein 5a from *Bacillus subtilis* is a DD-carboxypeptidase *in vitro*
 J. A. TODD, E. J. BONE & D. J. ELLAR 825-828
- The association of penicillin-binding proteins with cell elongation and septum formation in *Bacillus megaterium*
 J. A. TODD & D. J. ELLAR 829-832
