

THE BIOCHEMICAL SOCIETY

The Biochemical Society exists to advance the science of biochemistry through meetings and publications. Several meetings a year are held, each at a different place; original papers are presented and special topics are discussed at symposia and colloquia.

OFFICERS AND COMMITTEE: 1985-1986

Chairman of the Committee

K. S. Dodgson

Treasurer

B. Spencer

General Secretary

R. H. Burdon, F.R.S.E.

Publications Secretary

G. B. Ansell

Meetings Secretary

A. D. B. Malcolm

Committee

M. Akhtar, F.R.S.

H. Baum

R. B. Beechey

B. Burchell*†

S. Doonan

L. A. Fothergill-Gilmore

M. D. Houslay

H. M. Keir

G. G. Lunt

M. J. Morgan

C. I. Pogson*‡

P. J. Quinn

E. D. Saggerson

P. G. Strange

I. P. Trayer

E. J. Wood

* *Ex officio* Member of Committee

† Representative of Group Secretaries

‡ Representative of Editorial Board
of the *Biochemical Journal*

Executive Secretary: G. D. Jones (7 Warwick Court, London WC1R 5DP)

Persons interested in biochemistry are eligible for election as Members. Details of further facilities accorded to Members, and forms of application for membership, are available from the **Executive Secretary, The Biochemical Society, 7 Warwick Court, London WC1R 5DP [01-242 1076 (4 lines)]**.

BIOCHEMICAL SOCIETY SYMPOSIUM No. 50
held at St. George's Hospital Medical School, London, December 1984

The Molecular Basis of Movement Through Membranes

ORGANIZED AND EDITED BY

P. J. QUINN AND C. A. PASTERNAK

Price **£30.00 (US \$55.00)**

Order from

THE BIOCHEMICAL SOCIETY BOOK DEPOT

PO Box 32, Commerce Way, Colchester CO2 8HP, Essex, U.K.

BIOTECHNOLOGY

Edited by C. F. PHELPS
and P. H. CLARKE

The fourteen contributions forming this volume were presented at a London meeting of the Biochemical Society including the Society's Forty-Eighth Symposium 'Biotechnology', in December 1982. With today's increasing pressures to develop latest laboratory findings into practical industrial processes as quickly as possible the chosen theme of this Symposium was a timely one. The papers represent up-to-date reports from international biochemists whose work is of direct relevance to the wide areas of interests concerned with biotechnology, together with glimpses of the early development of its techniques and a look at its exciting future.

List of contents and authors:

Preface. How Biotechnology Developed at University College London by E. M. Crook. *The Future of Biotechnology* by P. Dunnill. *Carbohydrate Transformations by Immobilized Cells* by C. Bucke. *Biological Halogenation and Epoxidation* by S. L. Neidleman & J. Geigert. *High-Productivity Alcohol Fermentations using Zymomonas mobilis* by M. L. Skotnicki, R. G. Warr, A. E. Goodman, K. J. Lee & P. L. Rogers. *The Problem of Lignin Biodegradation* by L. Wallace, A. Paterson, A. McCarthy, U. Raeder, L. Ramsey, M. MacDonald, R. Haylock & P. Broda. *Special Bacterial Polysaccharides and Polysaccharases* by T. Harada. *A New Era of Exploitation of Microbial Metabolites* by A. L. Demain. *Industrial Prospects for Thermophiles and Thermophilic Enzymes* by B. S. Hartley & M. A. Payton. *Anaerobic Fermentations – Some New Possibilities* by J. G. Morris. *Xenobiotic Degradation in Industrial Sewage: Haloaromatics as Target Substrates* by H. J. Knackmuss. *Genetic Analysis and Manipulation of Catabolic Pathways in Pseudomonas* by P. R. Lehrbach & K. N. Timmis. *Plant Cell Cloning and Culture Products* by L. H. Jones. *A Hybrid Promoter and Portable Shine-Dalgarno Regions of Escherichia coli* by H. A. De Boer, L. J. Comstock, A. Hui, E. Wong & M. Vasser. *Subject Index.*

257 pp. ISBN 0 904498 15 8 £25.00 (US \$57.50)

The Sigma-Aldrich Library of Chemical Safety Data

A CONCISE REFERENCE FOR THE SAFE HANDLING OF OVER 7000 CHEMICALS

**Edited by
Robert E. Lenga**
**Over 1900 pages,
hardbound, with
tearproof jacket.
Page size:
9½ x 12 inches.**

Indispensable Safety Tool: *The Sigma-Aldrich Library of Chemical Safety Data* is an extensive yet compact collection of up-to-date safety information. The data were compiled through the collaboration of the Technical Services Departments of Sigma and Aldrich Chemical Companies.

Each entry includes chemical structure, physical properties, toxicity data and regulatory standards, health hazards, First Aid statements, incompatibility data, decomposition products, handling and storage requirements, fire-extinguishing media, spill and leak procedures and recommended waste-disposal methods. See sample entry below.

The library will be useful to the chemical industry and to manufacturers in the plating, coating, plastics, automotive, semiconductor, paint, and cosmetics industries, as well as to blenders, formulators, and laboratory personnel who must assess the composite hazards of mixtures, solutions, and reactions. It should provide employers with the basis for a sound safety program for complying with the hazard communication and training program required by law.

PRODUCT	TOXICITY	HEALTH HAZARDS AND FIRST AID	INCOMPATIBILITY DECOMPOSITION	HANDLING AND STORAGE
<p>Acrylamide CAS [79-06-1] Aldrich 14 869-0 Sigma A8697</p> <p>O I CH₂ = CHCONH₂</p> <p>mp 84 86° bp 125-125mm FW 71.08 Merck Index 10, 125</p>	<p>RTECS# A63325000</p> <p>oh-rat LD50: 170 mg/kg TLV-TWA 300 ug/m³ (skin) OSHA standard air: TWA 300 ug/m³ (skin) (skin) Occupational exposure to acrylamide recs: (skin): TWA 0.3 mg/m³</p>	<p>Irritant.</p> <p>CAUTION! Causes eye irritation. May cause nervous system disturbances.</p> <p>FIRST AID: Harmful if swallowed, inhaled or absorbed through skin. In case of contact, immediately flush eyes or skin with copious amounts of water for at least 15 minutes while removing contaminated clothing and shoes. If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. In case of exposure, obtain medical attention immediately.</p>	<p>Incompatibility: Avoid contact with acid Bases, oxidizing agents, Air and moisture sensitive. Store away from heat and direct sunlight. May polymerize on exposure to light.</p> <p>Decomposition Products: Thermal decomposition may produce carbon monoxide, carbon dioxide, and nitrogen oxides.</p>	<p>Chemical safety goggles: OSHA/MSHA approved respirator. Wear disposable coveralls and trousers them after use. Do not breathe dust. Avoid contact with eyes, skin and clothing. Wear heavy rubber gloves. Do not use if skin is cut or scratched. Wash thoroughly after handling. Harmful dust. Keep container closed. Use with adequate ventilation. Readily absorbed through skin.</p> <p>Waste Disposal: A Spills or leaks: 7 & 8 Extinguishing media: 7</p>
