## NOMENCLATURE

Numbering of atoms in *myo*-inositol. Recommendations 1989

NOMENCLATURE COMMITTEE OF THE  
INTERNATIONAL UNION OF  
BIOCHEMISTRY 1-2

## REVIEW ARTICLE

Recognition mechanisms in the synthesis of animal virus DNA

R. T. HAY & W. C. RUSSELL 3-16

## FULL AND RAPID PAPERS

### Proteins

Platelet-reactive sites in collagens type I and type III. Evidence for separate adhesion and aggregatory sites

L. F. MORTON, A. R. PEACHEY & M. J. BARNES 157-163

The structural basis for neutrophil inactivation of C1 inhibitor

P. A. PEMBERTON, R. A. HARRISON, P. J. LACHMANN & R. W. CARRELL 193-198

Conformational changes in human serum albumin studied by fluorescence and absorption spectroscopy

B. HONORÉ & A. O. PEDERSEN 199-204

Monoclonal antibodies to the membrane domain of the human erythrocyte anion transport protein. Localization of the C-terminus of the protein to the cytoplasmic side of the red cell membrane and distribution of the protein in some human tissues

S. D. WAINWRIGHT, M. J. A. TANNER, G. E. M. MARTIN, J. E. YENDLE & C. HOLMES 211-220

### Enzymes

Substrate- and alkali-metal-ion-induced pK shifts in intestinal brush-border sucrase, according to the three-protons model

M. VASSEUR, G. VAN MELLE & F. ALVARADO 41-48

The presence and role of hormone-sensitive lipase in heart muscle

C. A. SMALL, A. J. GARTON & S. J. YEAMAN 67-72

Purification and properties of a novel nucleotide-hydrolysing enzyme (5'-nucleotidase) from *Boophilus microplus*

P. WILLADSEN, J. M. NIELSEN & G. A. RIDING 79-85

Human microsomal glutathione S-transferase. Its involvement in the conjugation of hexachlorobuta-1,3-diene with glutathione

L. I. MCLELLAN, C. R. WOLF & J. D. HAYES 87-93

The inhibition of a membrane-bound enzyme as a model for anaesthetic action and drug toxicity

B. B. HASINOFF & J. P. DAVEY 101-107

Purification of the neutral proteoglycan-degrading metalloproteinase from human articular cartilage tissue and its identification as stromelysin matrix metalloproteinase-3

Z. GUNJA-SMITH, H. NAGASE & J. F. WOESSNER, JR. 115-119

Studies on the inhibition by  $\alpha$ -amanitin of single-step addition reactions and productive RNA synthesis catalysed by wheat-germ RNA polymerase II

L. DE MERCOYROL, C. JOB & D. JOB 165-169

Binding of FAD to 6-hydroxy-D-nicotine oxidase apoenzyme prevents degradation of the holoenzyme

R. BRANDSCH, V. BICHLER & B. KRAUS 187-192

Clavulanate inactivation of *Staphylococcus aureus*  $\beta$ -lactamase

I. RIZWI, A. K. TAN, A. L. FINK & R. VIRDEN 205-209

Purification and molecular properties of malate dehydrogenase from the marine diatom *Nitzschia alba*

A. Y. YUEH, C.-S. CHUNG & Y.-K. LAI 221-228

Immunochemical detection of different isoenzymes of cytochrome P-450 induced in chick hepatocyte cultures

P. SINCLAIR, J. FREZZA, J. SINCLAIR, W. BEMENT, S. HAUGEN, J. HEALEY & H. BONKOVSKY 237-245

Oxidation of uroporphyrinogen by methylcholanthrene-induced cytochrome P-450. Essential role of cytochrome P-450d

J. M. JACOBS, P. R. SINCLAIR, W. J. BEMENT, R. W. LAMBRECHT, J. F. SINCLAIR & J. A. GOLDSTEIN 247-253

High-level expression of fully active yeast flavocytochrome  $b_2$  in *Escherichia coli*

M. T. BLACK, S. A. WHITE, G. A. REID & S. K. CHAPMAN 255-259

'Star' activity and complete loss of specificity of *CeqI* endonuclease  
The inhibition of proinsulin-processing endopeptidase activities by active-site-directed peptides

Z. IZSVÁK & E. DUDA 301-303

C. J. RHODES, A. ZUMBRUNN, E. M. BAILYES, E. SHAW & J. C. HUTTON 305-308

### Carbohydrates

Bovine serum conglutinin is a lectin which binds non-reducing terminal *N*-acetylglucosamine, mannose and fucose residues

R. W. LOVELESS, T. FEIZI, R. A. CHILDS, T. MIZUOCHI, M. S. STOLL, R. G. OLDROYD & P. J. LACHMANN 109-113

## CONTENTS (continued)

### Lipids

Synthesis of the major oil-body membrane protein in developing rapeseed (*Brassica napus*) embryos. Integration with storage-lipid and storage-protein synthesis and implications for the mechanism of oil-body formation

D. J. MURPHY, I. CUMMINS & A. S. KANG 285-293

### Gene structure and expression

28 S ribosomal RNA in vertebrates. Locations of large-scale features revealed by electron microscopy in relation to other features of the sequences

J. A. WAKEMAN & B. E. H. MADEN 49-56

Preproenkephalin mRNA expression in developing rat heart and in cultured ventricular cardiac muscle cells

J. P. SPRINGHORN & W. C. CLAYCOMB 73-78

### Synthesis and degradation of macromolecules

Vanadate inhibits degradation of short-lived, but not of long-lived, proteins in L-132 human cells

J. L. VARGAS, F. ANIENTO, J. CERVERA & E. KNECHT 33-40

Insulin-like growth factor (IGF)-binding proteins inhibit the biological activities of IGF-1 and IGF-2 but not des-(1-3)-IGF-1

M. ROSS, G. L. FRANCIS, L. SZABO, J. C. WALLACE & F. J. BALLARD 267-272

Effect of the reducing environment on the accumulation of elastin and collagen in cultured smooth-muscle cells

P. R. BERGETHON, P. J. MOGAYZEL, JR. & C. FRANZBLAU 279-284

Nutritional regulation of hepatic glucose-6-phosphate dehydrogenase. Transient activation of transcription

C. R. PROSTKO, R. S. FRITZ & R. F. KLETZEIN 295-299

### Intermediary metabolism and metabolic control

Retrograde intrabiliary injection of amphipathic materials causes phospholipid secretion into bile. Taurocholate causes phosphatidylcholine secretion, 3-[(3-cholamidopropyl)dimethylammonio]propane-1-sulphonate (CHAPS) causes mixed phospholipid secretion

R. COLEMAN, K. RAHMAN, K. S. KAN & R. A. PARSLAW 17-22

Quantitative analysis of intermediary metabolism in rat hepatocytes incubated in the presence and absence of ethanol with a substrate mixture including ketoleucine

J. M. BARANYAI & J. J. BLUM 121-140

Insulin-stimulated glucose transport in muscle. Evidence for a protein-kinase-C-dependent component which is unaltered in insulin-resistant mice

J.-F. TANTI, N. ROCHET, T. GRÉMEAUX, E. VAN OBERGHEN & Y. LE MARCHAND-BRUSTEL 141-146

Effect of *cis*-unsaturated fatty acids on aortic protein kinase C activity

K. R. DELL & D. L. SEVERSON 171-175

Insulin regulation of the activity and phosphorylation of branched-chain 2-oxo acid dehydrogenase in adipose tissue

G. P. FRICK & H. M. GOODMAN 229-235

Re-examination of the putative roles of insulin and prolactin in the regulation of lipid deposition and lipogenesis *in vivo* in mammary gland and white and brown adipose tissue of lactating rats and litter-removed rats

C. M. OLLER DO NASCIMENTO, V. ILIC & D. H. WILLIAMSON 273-278

Differentiation of rapid and slower-acting effects of insulin on mitochondrial processes in brown adipose tissue from streptozotocin-diabetic rats

A. GUALBERTO & E. D. SAGGERSON 309-311

### Membranes and receptors

Accumulation of inositol polyphosphate isomers in agonist-stimulated cerebral-cortex slices. Comparison with metabolic profiles in cell-free preparations

I. H. BATTY, A. J. LETCHER & S. R. NAHORSKI 23-32

Modulation of phospholipase A<sub>2</sub> activity by neutral and anionic glycosphingolipids in monolayers

I. D. BIANCO, G. D. FIDELIO & B. MAGGIO 95-99

Presence of insulin receptors in cultured glial C6 cells. Regulation by butyrate

F. MONTIEL, J. ORTIZ-CARO, A. VILLA, A. PASCUAL & A. ARANDA 147-155

Bombesin and platelet-derived growth factor stimulate formation of inositol phosphates and Ca<sup>2+</sup> mobilization in Swiss 3T3 cells by different mechanisms

D. M. BLAKELEY, A. N. CORPS & K. D. BROWN 177-185

The effect of external calcium and pH on inositol trisphosphate-mediated calcium release from cerebellum microsomal fractions

S. K. JOSEPH, H. L. RICE & J. R. WILLIAMSON 261-265

### Cell structure and function

Prostacyclin inhibits platelet aggregation induced by phorbol ester or Ca<sup>2+</sup> ionophore at steps distal to activation of protein kinase C and Ca<sup>2+</sup>-dependent protein kinases

W. SIESS & E. G. LAPETINA 57-65
