REVIEW ARTICLE

Comparison of butyrylcholinesterase and acetylcholinesterase

A. CHATONNET & O. LOCKRIDGE 625-634

FULL AND RAPID PAPERS

Proteins

Isolation and structural analysis of rat gastric glycoprotein suggests a homogeneous protein backbone

J. DEKKER, W. M. O. VAN BEURDEN-LAMERS, A. OPRINS & G. J. STROUS 717-723

Isolation and characterization of an activator protein for the hydrolysis of ganglioside G_{M2} from the roe of striped mullet (*Mugil cephalus*)

R. DEGASPERI, Y.-T. LI & S.-C. LI 777-783

Haem-binding-site heterogeneity and haem Cotton effects of *Glycera dibranchiata* monomeric haemoglobins

T. J. DI FEO & A. W. ADDISON 863-871

Iron release from haemosiderin and ferritin by therapeutic and physiological chelators

M. J. O'CONNELL, R. J. WARD, H. BAUM & T. J. PETERS 903-907

Enzymes

Differences in adult and foetal human cytochrome P-450 forms recognized by monoclonal antibodies with specificity for the P450III family

T. S. BARNES, M. D. BURKE & W. T. MELVIN 635-640

Purification and characterization of human liver dehydroepiandrosterone sulphotransferase

C. N. FALANY, M. E. VAZQUEZ & J. M. KALB 641-646

The detergent Solulan C-24 reveals properties of the olfactory adenylate cyclase system

C. J. ROBINSON, S. G. SHIRLEY & G. H. DODD 683-687

Purification of a class C A-type β -lactamase from a derepressed strain of *Enterobacter cloacae*. Comparison of the wild-type and mutant enzyme with those from strains P99, 208 and GN7471

M. N. GRAHAM & T. J. MANTLE 705-710

Monoamine oxidase A from human placenta and monoamine oxidase B from bovine liver both have one FAD per subunit

W. WEYLER 725-729

Mode of activation of bovine brain inositol 1,4,5-trisphosphate 3-kinase by calmodulin and calcium

G. LI, M. COMTE, C. B. WOLLHEIM & J. A. COX 771-775

Single-step purification and h.p.l.c. analysis of glutathione transferase 8-8 in rat tissues

D. J. MEYER, E. LALOR, B. COLES, A. KISPERT, P. ÅLIN, B. MANNERVIK & B. KETTERER 785-788

Purification and characterization of a labile rat glutathione transferase of the Mu class

A. KISPERT, D. J. MEYER, E. LALOR, B. COLES & B. KETTERER 789-793

Effect of Sarkosyl and heparin on single-step addition reactions catalysed by wheat-germ RNA polymerase II-poly[d(A-T)] transcription complexes

L. DE MERCOYROL, C. JOB & D. JOB 795-801

The second subunit of methanol dehydrogenase of *Methylobacterium extorquens* AM1

D. N. NUNN, D. DAY & C. ANTHONY 857-862

Vitamin K₁ reduction in human liver. Location of the coumarin-drug-insensitive enzyme

R. WALLIN, S. D. PATRICK & L. F. MARTIN 879-884

Carbohydrates

The synthesis and purification of 2'-carboxy-D-arabinitol 1-phosphate, a natural inhibitor of ribulose 1,5-bisphosphate carboxylase, investigated by ³¹P n.m.r.

S. GUTTERIDGE, G. S. REDDY & G. LORIMER 711-716

Studies of a monoclonal antibody to skeletal keratan sulphate. Importance of antibody valency

A. R. POOLE, C. WEBBER, A. REINER & P. J. ROUGHLEY 849-856

Lipids

Metabolism of saturated and polyunsaturated fatty acids by normal and Zellweger syndrome skin fibroblasts

J. M. STREET, D. W. JOHNSON, H. SINGH & A. POULOS 647-655

Mass spectrometric detection of cross-linked fatty acids formed during radical-induced lesion of lipid membranes

H. FRANK, D. THIEL & J. MACLEOD 873-878

Gene structure and expression

Co-ordinate regulation of low-density-lipoprotein receptor and 3-hydroxy-3-methylglutaryl-CoA reductase and synthase gene expression in HepG2 cells

D. T. MOLOWA & G. M. CIMIS 731-736

CONTENTS (continued)

Overexpression and site-directed mutagenesis of the succinyl-CoA synthetase of <i>Escherichia coli</i> and nucleotide sequence of a gene (<i>g30</i>) that is adjacent to the <i>suc</i> operon	D. BUCK & J. R. GUEST	737-747
The phototrophic bacterium <i>Rhodospseudomonas capsulata</i> sp108 encodes an indigenous class A β -lactamase	J. I. A. CAMPBELL, S. SCAHILL, T. GIBSON & R. P. AMBLER	803-812
Discovery of a protein phosphatase activity encoded in the genome of bacteriophage λ . Probable identity with open reading frame 221	P. T. W. COHEN & P. COHEN	931-934
Synthesis and degradation of macromolecules		
Effect of secretagogues on chromogranin A synthesis in bovine cultured chromaffin cells. Possible regulation by protein kinase C	J.-P. SIMON, M.-F. BADER & D. AUNIS	915-922
Intermediary metabolism and metabolic control		
Modulation of nuclear cyclic AMP-dependent protein kinase in dibutyryl cyclic AMP-treated rat H4IIE hepatoma cells	S. P. SQUINTO & R. A. JUNGSMANN	673-682
Study of the Flux and Transition Time Control Coefficient profiles in a metabolic system <i>in vitro</i> and the effect of an external stimulator	N. V. TORRES, R. SOUTO & E. MELÉNDEZ-HEVIA	763-769
Vasopressin-stimulated Ca^{2+} influx in rat hepatocytes is inhibited in high- K^+ medium	A. L. SAVAGE, M. BIFFEN & B. R. MARTIN	821-827
Mitochondrial acetyl-CoA carboxylase. Time course of mobilization/activation in liver of refed rats	C. R. ROMAN-LOPEZ, B. J. SHRIVER, C. R. JOSEPH & J. B. ALLRED	927-930
Bioenergetics and transport		
Testing transport models and transport data by means of kinetic rejection criteria	R. M. KRUPKA	885-891
Membranes and receptors		
The interleukin-1 receptor in Raji human B-lymphoma cells. Molecular characterization and evidence for receptor-mediated activation of gene expression	R. HORUK & J. A. MCCUBREY	657-663
Influence of bacterial toxins and forskolin upon vasopressin-induced inositol phosphate accumulation in WRK 1 cells	G. GUILLON, M.-N. BALESTRE, C. LOMBARD, F. RASSENDREN & C. J. KIRK	665-672
Antibodies to insulin receptor tyrosine kinase stimulate its activity towards exogenous substrates without inducing receptor auto-phosphorylation	V. BARON, N. GAUTIER, N. ROCHET, R. BALLOTTI, B. ROSSI, S. SAINT-PIERRE, E. VAN OBBERGHEN & J. DOLAIS-KITABGI	749-756
Evidence for two isoforms of the endoplasmic-reticulum Ca^{2+} pump in pig smooth muscle	J. A. EGGERMONT, F. WUYTACK, S. DE JAEGERE, L. NELLES & R. CASTEELS	757-761
Bombesin stimulation of inositol 1,4,5-trisphosphate generation and intracellular calcium release is amplified in a cell line overexpressing the <i>N-ras</i> proto-oncogene	A. C. LLOYD, S. A. DAVIES, I. CROSSLEY, M. WHITAKER, M. D. HOUSLAY, A. HALL, C. J. MARSHALL & M. J. O. WAKELAM	813-819
Phospholamban is a good substrate for cyclic GMP-dependent protein kinase <i>in vitro</i> , but not in intact cardiac or smooth muscle	J. P. HUGGINS, E. A. COOK, J. R. PIGGOTT, T. J. MATTINSLEY & P. J. ENGLAND	829-835
Persistent activation of the α subunit of G_s promotes its removal from the plasma membrane	G. MILLIGAN & C. G. UNSON	837-841
Guanine-nucleotide-binding proteins G_i and G_s in fat-cells from normal, hypothyroid and obese human subjects	J. J. OHISALO & G. MILLIGAN	843-847
A protein kinase C pseudosubstrate peptide inhibits phosphorylation of the CD3 antigen in streptolysin-O-permeabilized human T lymphocytes	D. R. ALEXANDER, J. M. HEXHAM, S. C. LUCAS, J. D. GRAVES, D. A. CANTRELL & M. J. CRUMPTON	893-901
Stimulation of phosphorylcholine turnover and diacylglycerol production in human polymorphonuclear leukocytes. Novel assay for phosphorylcholine	A. P. TRUETT, III, R. SNYDERMAN & J. J. MURRAY	909-913
MK-801 is a potent nematocidal agent. Characterization of MK-801 binding sites in <i>Caenorhabditis elegans</i>	J. M. SCHAEFFER, A. R. BERGSTROM & M. J. TURNER	923-926
Cell structure and function		
Characterization of a cytoskeletal matrix associated with myelin from rat brain	C. S. GILLESPIE, R. WILSON, A. DAVIDSON & P. J. BROPHY	689-696
Polyamine depletion is associated with altered chromatin structure in HeLa cells	R. D. SNYDER	697-704
