

CONTENTS OF VOLUME XXXIII, No. 11, 1939

(All rights reserved)

	PAGE
CCXVII. On the spreading of different haemoglobins, muscle haemoglobins and cytochrome <i>c</i> . By J. H. P. JONXIS. (With four figures)	1743
CCXVIII. Some observations on peptic digestion of egg albumin. By A. TISELIUS and I.-B. ERIKSSON-QUENSEL. (With one figure)	1752
CCXIX. The fate of oxaloacetic acid in different organs. By F. L. BREUSCH. (With three figures)	1757
CCXX. Vitamin A and carotenoids in the liver of mammals, birds, reptiles and man, with particular regard to the intensity of the ultraviolet absorption and the Carr-Price reaction of vitamin A. By H. B. JENSEN and T. K. WITH	1771
CCXXI. Quantitative estimation of nicotinic acid in urine. By E. BANDIER. (With one figure)	1787
CCXXII. Metabolism of sulphur. X. The replaceability of <i>dl</i> -methionine in the diet of albino rats with its partially oxidized derivative, <i>dl</i> -methionine sulphoxide. By M. A. BENNETT. (With one figure)	1794
CCXXIII. <i>In vitro</i> action of insulin on minced avian and mammalian muscle. By E. SHORR and S. B. BARKER. (With four figures)	1798
CCXXIV. Maintenance nutrition in the pigeon. Further evidence for the presence of dietary essentials in yeast and liver and their relation to vitamin B ₆ . By C. W. CARTER and J. R. O'BRIEN	1810
CCXXV. The estimation of vitamin B ₁ in cerebro-spinal fluid. By H. M. SINCLAIR	1816
CCXXVI. The fate of strontium after intravenous administration to normal persons. By R. A. McCANCE and E. M. WIDDOWSON	1822
CCXXVII. Studies in synthetic immunochemistry. IV. Further investigation of <i>O</i> - β -glucosidotyrosyl derivatives of proteins. By J. H. HUMPHREY and M. E. YULL	1826
CCXXVIII. On the mechanism of urea formation. By S. J. BACH	1833
CCXXIX. Iron, copper and manganese in human organs at various ages. By G. BRÜCKMANN and S. G. ZONDEK. (With one figure)	1845
CCXXX. Formation and breakdown of glycogen in the liver. By P. OSTERN, D. HERBERT and E. HOLMES. (With five figures)	1858
CCXXXI. Determination of small amounts of sulphur as sulphates in biological fluids. By A. D. MARENZI and R. F. BANFI	1879
CCXXXII. Magnesium and muscle respiration. By S. ELSDEN. (With three figures)	1890
CCXXXIII. Metabolism of α -ketoglutaric acid in animal tissues. By H. A. KREBS and P. P. COHEN	1895
