- The *Biochemical Journal* (ISSN 0264-6021 for print/online journal; ISSN 1470-8728 for online only journal) is published and distributed by Portland Press Ltd on behalf of the Biochemical Society (the owner), and appears twice monthly.
- **Editorial and publishing offices:** *Biochemical Journal*, 59 Portland Place, London W1B 1QW, U.K.
- **Biochemical Journal**, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Subscriptions department:** Portland Customer Services, P.O. Box 32, Commerce Way, Colchester CO2 8HP, U.K.
- All rights reserved. Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the Copyright, Designs and Patents Act, 1988, this publication may be reproduced, stored or transmitted, in any forms or by any means, only with the prior permission in writing of the publishers, or in the case of reprographic reproduction in accordance with the terms of permissions granted by copyright clearing houses such as the Copyright Licensing Agency (U.K.) or the Copyright Clearance Center (U.S.A.). The CCC item-fee code for this publication is 0264-6021/2003/\$30.00 + 0.00. Inquiries concerning reproduction outside those terms should be sent to the publishers at the above-mentioned address.
- Although, at the time of going to press, the information contained in this publication is believed to be correct, neither the authors nor the editors nor the publisher assume any responsibility for any errors or omissions herein contained. Opinions expressed in articles are not necessarily those of the editors, the publisher or the owner.
- Periodicals postage paid at Rahway, NJ, U.S.A.
- **Postmaster:** send address corrections to *Biochemical Journal*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Cover illustration:** The glutathione S-transferase AdGST4-4 with a structurally sensitive internal region displayed in CPK mode. For further details, see Wongsantichon et al. *Biochem. J.* (2003), **373**, 759–765.

● **General policy** The *Biochemical Journal* publishes papers in English in all fields of biochemistry and cellular and molecular biology, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The *Biochemical Journal* will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in unrefereed symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication the authors will transfer to the Biochemical Society the copyright in the paper, which will then not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects.

Authors may suggest potential reviewers for their papers, but the journal is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to be excluded from the review process, and such wishes are usually respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals.

The following types of paper are included in the journal.

● **Research Papers** are the normal form of publication, and may be of any length that is

justified by their content. However, because of pressure for space in the journal, no paper, whatever its scientific merits, will be accepted if it exceeds the minimum length required for precision in describing the experiments and clarity in interpreting them. As a guide, most Research Papers published in the *Biochemical Journal* are of between six and eight printed pages. A concise well-written paper tends to be published more rapidly.

● **Accelerated Publications (APs)** are short (normally four printed pages) papers bringing particularly novel and significant findings to the attention of the research community. It is intended that a decision on acceptance or rejection will be made within 10 working days of receipt, and publication of accepted APs in an issue will follow within 2 months. APs receive full but accelerated reviewing. The criteria of 'novelty and significance' are strictly enforced, and papers may be rejected solely on the grounds of lack of novelty and significance. APs are not a path to accelerated publication of sound but non-urgent material. Authors must include in their letter of submission a brief statement of why they believe their AP merits accelerated treatment. Papers reporting nucleotide sequences only are not acceptable as APs. One colour figure will be published free of charge in APs; subsequent figures will cost £300 each.

● **Reviews** will usually be solicited, although unsolicited reviews will be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a short (one typed page) summary of the area they propose to cover.

● **Procedure for submission** These instructions do not replace the official *Biochemical Journal* Instructions to Authors (<http://www.BiochemJ.org>). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors should consult a current issue to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the *Biochemical Journal* contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work'

must be accompanied by the names of all persons concerned: a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned; both of these types of citation are permitted in the text only, not in the list of references.

● **Submit manuscripts online** Authors should submit manuscripts electronically using the Online Submission and Review System available at <http://www.BiochemJ.org/submit/>

● **Immediate Publications** Manuscripts are published online in PDF format as soon as they are accepted, unless on submission the author requests that this not be done. Immediate Publications are listed in and accessible through Medline, and are freely available to anyone with Internet access.

● **Queries and correspondence** Authors in the Americas should address all queries and correspondence about their submission to: Dr Sharon Schendel, BJ USA, The Burnham Institute, 10901 N. Torrey Pines Road, La Jolla, CA 92037, U.S.A. (telephone +1 858 713 6283; fax +1 858 713 6284; e-mail editorial@biochemjusa.org). Authors in the U.K., the rest of Europe, Japan and the rest of the world should contact: The Publisher, *Biochemical Journal*, 59 Portland Place, London W1B 1QW, U.K. (telephone +44 20 7637 5873; fax +44 20 7323 1136; e-mail editorial@portlandpress.com).

● **Colour figures** The first colour figure is published at no charge provided that one author has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers. Subsequent colour figures in the same paper cost £300 each.

● **Multimedia adjuncts** The Biochemical Journal Online is now able to offer authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies and PDB for structures. There is no extra charge associated with the publication of a multimedia adjunct online.

Other information

The *Biochemical Journal* is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2003 volumes 369–376 (three parts each) will appear. The subscription also includes an author and key-word index.

● **Subscription rates** Institutional subscription rates for 2003 are shown below. Subscribers to the *Biochemical Journal* can subscribe additionally to *Biochemical Society Transactions* and *Biotechnology and Applied Biochemistry* on a joint subscription at a reduced rate. Terms are cash with order (US\$ in N. America, £ sterling for rest of the world, or US\$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma invoice. Orders should be sent to the address below, or through your usual agent.

	N. America	Rest of world	Euro price
One year (8 vols)	US\$2299	£1307	€2223
Print and online	US\$2115	£1202	€2044
Online only	US\$2226	£1271	€2156
Print only	US\$110	£64	€105
Single issues (print only)			

Overseas rates include airfreight delivery. Priority delivery is available at an additional cost of £56/€95.

VAT is due on some supplies to subscribers within the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

● **Electronic back archive** This is freely available to all users with Internet access.

● **Microfiche and back issues** Volumes 102–336 of the *Biochemical Journal* are available on microfiche. Back issues are also available. Further details may be obtained from the address below.

● **Subscription Department**
Portland Customer Services
P.O. Box 32, Commerce Way
Colchester CO2 8HP, Essex, U.K.
(telephone 01206 796351; fax 01206-799331; e-mail sales@portland-services.com).

● **Advertising** Enquiries about advertising in this journal should be addressed to Mark White or Philip Northcott, PRN Media Sales Ltd., Suite 209, 2nd Floor, Wellington House, Butt Road, Colchester CO3 3DA, U.K.; tel: 01206 767797; fax: 01206 767532; e-mail: sales@prnmediasales.co.uk; ISDN: 01376 562673.

89–96

A novel serine protease predominately expressed in macrophages <i>Published as BJ Immediate Publication 10 June 2003,</i> <i>DOI 10.1042/BJ20030242</i>	C. Chen, A.L. Darrow, J.-s. Qi, M.R. D'Andrea and P. Andrade-Gordon	97–107
Phospholipase activity on <i>N</i> -acyl phosphatidyl-ethanolamines is critically dependent on the <i>N</i> -acyl chain length <i>Published as BJ Immediate Publication 23 May 2003,</i> <i>DOI 10.1042/BJ20021840</i>	J.J. Caramelo, J. Florin-Christensen and J.M. Delfino	109–115
Characterization of human torsinA and its dystonia-associated mutant form <i>Published as BJ Immediate Publication 3 June 2003,</i> <i>DOI 10.1042/BJ20030258</i>	Z. Liu, A. Zolkiewska and M. Zolkiewski	117–122
Characterization of the interaction between α_2 -macroglobulin and fibroblast growth factor-2: the role of hydrophobic interactions <i>Published as BJ Immediate Publication 19 May 2003,</i> <i>DOI 10.1042/BJ20021655</i>	S. Mathew, S. Arandjelovic, W.F. Beyer, S.L. Gonias and S.V. Pizzo	123–129
Decreased mitochondrial tRNA ^{Lys} steady-state levels and aminoacylation are associated with the pathogenic G8313A mitochondrial DNA mutation <i>Published as BJ Immediate Publication 9 May 2003,</i> <i>DOI 10.1042/BJ20030222</i>	S.R. Bacman, D.P. Atencio and C.T. Moraes	131–136
Muscarinic receptor-mediated activation of p70 S6 kinase 1 (S6K1) in 1321N1 astrocytoma cells: permissive role of phosphoinositide 3-kinase <i>Published as BJ Immediate Publication 15 May 2003,</i> <i>DOI 10.1042/BJ20021910</i>	X. Tang, L. Wang, C.G. Proud and C.P. Downes	137–143
Differential signalling by muscarinic receptors in smooth muscle: m2-mediated inactivation of myosin light chain kinase via G _{i3} , Cdc42/Rac1 and p21-activated kinase 1 pathway, and m3-mediated MLC ₂₀ (20 kDa regulatory light chain of myosin II) phosphorylation via Rho-associated kinase/myosin phosphatase targeting subunit 1 and protein kinase C/CPI-17 pathway <i>Published as BJ Immediate Publication 6 May 2003,</i> <i>DOI 10.1042/BJ20021274</i>	K.S. Murthy, H. Zhou, J.R. Grider, D.L. Brautigan, M. Eto and G.M. Makhoulouf	145–155
Glycosylation of resveratrol protects it from enzymic oxidation <i>Published as BJ Immediate Publication 16 April 2003,</i> <i>DOI 10.1042/BJ20030141</i>	G. Regev-Shoshani, O. Shoseyov, I. Bilkis and Z. Kerem	157–163
The acetyltransferase 60 kDa <i>trans</i> -acting regulatory protein of HIV type 1-interacting protein (Tip60) interacts with the translocation E26 transforming-specific leukaemia gene (TEL) and functions as a transcriptional co-repressor <i>Published as BJ Immediate Publication 9 May 2003,</i> <i>DOI 10.1042/BJ20030087</i>	I. Nordentoft and P. Jørgensen	165–173
A splice variant acquiring an extra transcript leader region decreases the translation of glutamine synthetase gene <i>Published as BJ Immediate Publication 16 May 2003,</i> <i>DOI 10.1042/BJ20030132</i>	D. Shin, S. Park and C. Park	175–184
Characterization of the carbohydrate moieties of the functional unit RvH ₁ -a of <i>Rapana venosa</i> haemocyanin using HPLC/electrospray ionization MS and glycosidase digestion <i>Published as BJ Immediate Publication 1 May 2003,</i> <i>DOI 10.1042/BJ20030291</i>	P. Dolashka-Angelova, A. Beck, A. Dolashki, M. Beltramini, S. Stevanovic, B. Salvato and W. Voelter	185–192
Definition of structural elements in <i>Plasmodium vivax</i> and <i>P. knowlesi</i> Duffy-binding domains necessary for erythrocyte invasion <i>Published as BJ Immediate Publication 30 May 2003,</i> <i>DOI 10.1042/BJ20030622</i>	S.K. Singh, A.P. Singh, S. Pandey, S.S. Yazdani, C.E. Chitnis and A. Sharma	193–198

Pigment-epithelium-derived factor (PEDF) occurs at a physiologically relevant concentration in human blood: purification and characterization <i>Published as BJ Immediate Publication 9 May 2003, DOI 10.1042/BJ20030313</i>	S.V. Petersen, Z. Valnickova and J.J. Enghild	199–206
A role for Sec1/Munc18 proteins in platelet exocytosis <i>Published as BJ Immediate Publication 29 May 2003, DOI 10.1042/BJ20030610</i>	T.D. Schraw, P.P. Lemons, W.L. Dean and S.W. Whiteheart	207–217
Replacement of a cytosolic copper/zinc superoxide dismutase by a novel cytosolic manganese superoxide dismutase in crustaceans that use copper (haemocyanin) for oxygen transport <i>Published as BJ Immediate Publication 28 May 2003, DOI 10.1042/BJ20030272</i>	M. Brouwer, T. Hoexum Brouwer, W. Grater and N. Brown-Peterson	219–228
Cloning of an emopamil-binding protein (EBP)-like protein that lacks sterol Δ^8 - Δ^7 isomerase activity <i>Published as BJ Immediate Publication 21 May 2003, DOI 10.1042/BJ20030465</i>	F.F. Moebius, B.U. Fitzky, G. Wietzorrek, A. Haidekker, A. Eder and H. Glossmann	229–237
Cobalamin (vitamin B ₁₂)-deficiency-induced changes in the proteome of rat cerebrospinal fluid <i>Published as BJ Immediate Publication 28 May 2003, DOI 10.1042/BJ20030059</i>	E. Gianazza, D. Veber, I. Eberini, F.R. Buccellato, E. Mutti, L. Sironi and G. Scalabrino	239–246
Protein–protein, protein–RNA and protein–lipid interactions of signal-recognition particle components in the hyperthermoacidophilic archaeon <i>Acidianus ambivalens</i> <i>Published as BJ Immediate Publication 30 May 2003, DOI 10.1042/BJ20030475</i>	R.G. Moll	247–254
Investigation of the pore-forming mechanism of a cytolytic δ -endotoxin from <i>Bacillus thuringiensis</i> <i>Published as BJ Immediate Publication 9 June 2003, DOI 10.1042/BJ20030437</i>	B. Promdonkoy and D.J. Ellar	255–259
XB51 isoforms mediate Alzheimer's β -amyloid peptide production by X11L (X11-like protein)-dependent and -independent mechanisms <i>Published as BJ Immediate Publication 3 June 2003, DOI 10.1042/BJ20030489</i>	A. Sumioka, S. Imoto, R.N. Martins, Y. Kirino and T. Suzuki	261–268
Requirements for distinct steps of phospholipase C γ 2 regulation, membrane-raft-dependent targeting and subsequent enzyme activation in B-cell signalling <i>Published as Immediate Publication 3 June 2003, DOI 10.1042/BJ20021778</i>	R. Rodriguez, M. Matsuda, A. Storey and M. Katan	269–280
