Instructions to Authors

● **General policy** The Biochemical Journal publishes papers in English in all fields of biochemical and cellular and molecular biology that make a sufficiently important and original contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented aims at the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The Biochemical Journal will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in an unreferred symposium proceedings or on the World Wide Web (WWW), equally, fragmentation of research into the ‘least publishable unit’ is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication the authors will transfer to the Biochemical Society the copyright in the paper, which will then be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to the Biochemical Society. It is published twice monthly; in 2005 volumes 385–392 (three parts per volume) will appear. The subscription also includes author’s relevant published work, including that overlap with previous work, all submitted papers to it in that scientific area.

Such wishes are usually respected unless, in the case of Europe, Japan and the rest of the world should contact: The Publisher, Biochemical Journal, 59 Portland Place, London W1B 1QW, U.K. (telephone +44 20 7637 5873; fax +44 20 7323 1136; email editorial@portlandpress.com).

● **Colour figures** The first colour figure is published at no charge provided that one author has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers. Subsequent colour figures in the same paper cost £300 each.

● **Multimedia adjuncts** The Biochemical Journal Online offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies and PDF for structures. There is no extra charge associated with the publication of a multimedia adjunct online.

● **Electronic back archive** This is freely available to all users with Internet access.

Other information

The Biochemical Journal is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2005 volumes 385–392 (three parts each) will appear. The subscription also includes an author and key-word index.

● **Subscription rates** Institutional subscription rates for 2005 are shown below. Subscribers to the journal may purchase additionally to Biochemical Society Transactions and Biotechnology and Applied Biochemistry on a joint subscription at a reduced rate. Terms are cash with order (US$ in N. America, £ sterling for rest of the world, or US$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma invoice. Orders should be sent to the address shown, or through your usual agent.

<table>

Overseas rates include airfreight delivery. Priority delivery is available at an additional cost of £61.80 ($105). VAT is due on some supplies to subscribers within the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

● **Microfiche and back issues** Volumes 102–336 of the Biochemical Journal are available on microfiche. Back issues are also available. Further details may be obtained from the address below.

● **Subscription Department** Portland Customer Services P.O. Box 32, Commerce Way Colchester CO2 8HP. Essex, U.K. (telephone 01206 796351; fax 01206-799331; email sales@portland-services.com).

● **Advertising Enquiries about advertising should be addressed to Nicky Peacock, Mainline Media Ltd, The Barn, Oakley Hay Lodge Business Park, Great Folds Road, Great Oakley, Corby, Northamptonshire NN18 9AS, U.K. (telephone 01536 747353; email Nickypm@aol.com).**

Rho GTPases and leucocyte-induced endothelial remodelling
Published as BJ Immediate Publication 21 October 2004,
DOI 10.1042/BJ20041584
J. Millán and A.J. Ridley 329–337

Research Papers

Argpyrimidine, a methylglyoxal-derived advanced glycation end-product in familial amyloidotic polyneuropathy
Published as BJ Immediate Publication 28 July 2004,
DOI 10.1042/BJ20040833

The septin Sept5/CDCrel-1 competes with α-SNAP for binding to the SNARE complex
Published as BJ Immediate Publication 8 September 2004,
DOI 10.1042/BJ20041090
C.L. Beites, K.A. Campbell and W.S. Trimble 347–353

Functional domain organization of the potato α-glucan, water dikinase (GWD): evidence for separate site catalysis as revealed by limited proteolysis and deletion mutants
Published as BJ Immediate Publication 13 September 2004,
DOI 10.1042/BJ20041119
R. Mikkelsen and A. Blennow 355–361

Hepatitis A virus proteinase 3C binding to viral RNA: correlation with substrate binding and enzyme dimerization
Published as BJ Immediate Publication 13 September 2004,
DOI 10.1042/BJ20041153

GCN2 phosphorylation of elf2α activates NF-κB in response to UV irradiation
Published as BJ Immediate Publication 8 September 2004,
DOI 10.1042/BJ20041164
H.-Y. Jiang and R.C. Wek 371–380

Proteoglycans and catabolic products of proteoglycans present in ligament
Published as BJ Immediate Publication 26 August 2004,
DOI 10.1042/BJ20040844
M.Z. Ilic, P. Carter, A. Tyndall, J. Dudhia and C.J. Handley 381–388

Human recombinant membrane-bound aminopeptidase P: production of a soluble form and characterization using novel, internally quenched fluorescent substrates
Published as BJ Immediate Publication 13 September 2004,
DOI 10.1042/BJ20040849

Identification and characterization of pleckstrin-homology-domain-dependent and isoenzyme-specific Akt inhibitors
Published as BJ Immediate Publication 29 September 2004,
DOI 10.1042/BJ20041140

Reaction of artemisinin with haemoglobin: implications for antimalarial activity
Published as BJ Immediate Publication 10 September 2004,
DOI 10.1042/BJ20041170
R. Kannan, K. Kumar, D. Sahal, S. Kukreti and V.S. Chauhan 409–418
Arginine-482 is not essential for transport of antibiotics, primary bile acids and unconjugated sterols by the human breast cancer resistance protein (ABCG2)  
Published as BJ Immediate Publication 14 September 2004, DOI 10.1042/BJ20040791  
T. Janvilisri, S. Shahi, H. Venter, L. Balakrishnan and H.W. van Veen 419–426

The high concentration of Arg213 → Gly extracellular superoxide dismutase (EC-SOD) in plasma is caused by a reduction of both heparin and collagen affinities  
Published as BJ Immediate Publication 14 September 2004, DOI 10.1042/BJ20041412  

Characterization of the survival motor neuron (SMN) promoter provides evidence for complex combinatorial regulation in undifferentiated and differentiated P19 cells  
Published as BJ Immediate Publication 13 September 2004, DOI 10.1042/BJ20041024  

Octameric mitochondrial creatine kinase induces and stabilizes contact sites between the inner and outer membrane  
Published as BJ Immediate Publication 5 August 2004, DOI 10.1042/BJ20040386  

Characterization of heparan sulphate 3-O-sulphotransferase isoform 6 and its role in assisting the entry of herpes simplex virus type 1  
Published as BJ Immediate Publication 10 August 2004, DOI 10.1042/BJ20040998
