- The *Biochemical Journal* (ISSN 0264-6021 for print/online journal; ISSN 1470-8728 for online only journal) is published and distributed by Portland Press Ltd on behalf of the Biochemical Society (the owner), and appears twice monthly.
- **Editorial and publishing offices:** *Biochemical Journal*, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K.
- **Biochemical Journal**, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Subscriptions department:** Portland Customer Services, P.O. Box 32, Commerce Way, Colchester CO2 8HP, U.K.
- All rights reserved. Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the Copyright, Designs and Patents Act, 1988, this publication may be reproduced, stored or transmitted, in any forms or by any means, only with the prior permission in writing of the publishers, or in the case of reprographic reproduction in accordance with the terms of permissions granted by copyright clearing houses such as the Copyright Licensing Agency (U.K.) or the Copyright Clearance Center (U.S.A.). The CCC item-fee code for this publication is 0264-6021/2005/\$40.00 + 0.00. Inquiries concerning reproduction outside those terms should be sent to the publishers at the above-mentioned address.
- Although, at the time of going to press, the information contained in this publication is believed to be correct, neither the authors nor the editors nor the publisher assume any responsibility for any errors or omissions herein contained. Opinions expressed in articles are not necessarily those of the editors, the publisher or the owner.
- Periodicals postage paid at Rahway, NJ, U.S.A.
- **Postmaster:** send address corrections to *Biochemical Journal*, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, U.S.A.
- **Cover illustration:** Germinating olive pollen grain showing a callose plug observed by differential interferential contrast plus confocal laser scanning microscopy. For further details, see Barral et al. (2005) *Biochem. J.* **390**, 77–84.

● **General policy** The *Biochemical Journal* publishes papers in English in all fields of biochemistry and cellular and molecular biology, provided that they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented should have as its aim the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The *Biochemical Journal* will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in unreferenced symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication the authors will transfer to the Biochemical Society the copyright in the paper, which will then not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects.

Authors may suggest potential reviewers for their papers, but the journal is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to be excluded from the review process, and such wishes are usually respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals.

The following types of paper are included in the journal.

● **Research Papers** are the normal form of publication, and may be of any length that is

justified by their content. However, because of pressure for space in the journal, no paper, whatever its scientific merits, will be accepted if it exceeds the minimum length required for precision in describing the experiments and clarity in interpreting them. As a guide, most Research Papers published in the *Biochemical Journal* are of between six and eight printed pages. A concise well-written paper tends to be published more rapidly.

● **Accelerated Publications (APs)** are short (normally four printed pages) papers bringing particularly novel and significant findings to the attention of the research community. It is intended that a decision on acceptance or rejection will be made within 10 working days of receipt, and publication of accepted APs in an issue will follow within 2 months. APs receive full but accelerated reviewing. The criteria of 'novelty and significance' are strictly enforced, and papers may be rejected solely on the grounds of lack of novelty and significance. APs are not a path to accelerated publication of sound but non-urgent material. Authors must include in their letter of submission a brief statement of why they believe their AP merits accelerated treatment. Papers reporting nucleotide sequences only are not acceptable as APs. One colour figure will be published free of charge in APs; subsequent figures will cost £300 each.

● **Reviews** will usually be solicited, although unsolicited reviews will be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a short (one typed page) summary of the area they propose to cover.

● **Procedure for submission** These instructions do not replace the official *Biochemical Journal* Instructions to Authors (<http://www.BiochemJ.org>). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors should consult a current issue to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the *Biochemical Journal* contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work'

must be accompanied by the names of all persons concerned: a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned; both of these types of citation are permitted in the text only, not in the list of references.

● **Submit manuscripts online** Authors should submit manuscripts electronically using the Online Submission and Review System available at <http://www.BiochemJ.org/submit/>

● **Immediate Publications** Manuscripts are published online in PDF format as soon as they are accepted, unless on submission the author requests that this not be done. Immediate Publications are listed in and accessible through Medline, and are freely available to anyone with Internet access.

● **Queries and correspondence** Authors in the Americas should address all queries and correspondence about their submission to: Dr Sharon Schendel, BJ USA, The Burnham Institute, 10901 N. Torrey Pines Road, La Jolla, CA 92037, U.S.A. (telephone +1 858 713 6283; fax +1 858 713 6284; email [editorial@biochemjusa.org](mailto:editorial@biochemjusa.org)). Authors in the U.K., the rest of Europe, Japan and the rest of the world should contact: The Publisher, *Biochemical Journal*, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K. (telephone +44 20 7280 4110; fax +44 20 7280 4169; email [editorial@portlandpress.com](mailto:editorial@portlandpress.com)).

● **Colour figures** The first colour figure is published at no charge provided that one author has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers. Subsequent colour figures in the same paper cost £300 each.

● **Multimedia adjuncts** The *Biochemical Journal* Online offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies and PDB for structures. There is no extra charge associated with the publication of a multimedia adjunct online.

## Other information

The *Biochemical Journal* is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2005 volumes 386–392 (three parts each) will appear. The subscription also includes an author and key-word index.

● **Abstracted by/indexed in:** BIOBASE, BIOSIS, CAB International, Chemical Abstracts Service, Current Contents, EMBASE, International Food Information Service, Medline/Index Medicus, Proquest Information & Learning, Science Citation Index.

● **Subscription rates** Institutional subscription rates for 2005 are shown below. Subscribers to the *Biochemical Journal* can subscribe additionally to *Biochemical Society Transactions* and *Biotechnology and Applied Biochemistry* on a joint subscription at a reduced rate. Terms are cash with order (US\$ in N. America, £ sterling for rest of the world, or US\$ equivalent at current rate

of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma invoice. Orders should be sent to the address shown, or through your usual agent.

	N. America	Rest of world	Euro price
One year (8 vols) Print and online	US\$2830	£1496	€2545
Online only	US\$2500	£1325	€2250
Single issues (print only)	US\$138.70	£73	€124.10

Overseas rates include airfreight delivery. Priority delivery is available at an additional cost of £61.80/€105.

VAT is due on some supplies to subscribers within the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

● **Electronic back archive** This is freely available to all users with Internet access.

● **Microfiche and back issues** Volumes 102–336 of the *Biochemical Journal* are available on microfiche. Back issues are also available. Further details may be obtained from the address below.

● **Subscription Department**  
Portland Customer Services  
P.O. Box 32, Commerce Way  
Colchester CO2 8HP, Essex, U.K.  
(telephone 01206 796351; fax 01206 799331;  
email [sales@portland-services.com](mailto:sales@portland-services.com)).

● **Advertising** Enquiries about advertising should be addressed to: Nicky Peacock, Mainline Media Ltd, The Barn, Oakley Hay Lodge Business Park, Great Folds Road, Great Oakley, Corby, Northamptonshire NN18 9AS, U.K. (telephone 01536 747333; email [Nickyppm@aol.com](mailto:Nickyppm@aol.com)).

**Review**

- Biochemical dysfunction in heart mitochondria exposed to ischaemia and reperfusion** G. Solaini and D.A. Harris 377–394  
 Published on the Internet 23 August 2005,  
 doi:10.1042/BJ20042006

**Online Commentary**

- Slow thrombin in solution J.A. Huntington e1–e3  
 Published on the Internet 23 August 2005,  
 doi:10.1042/BJ20051099  
 (see accompanying paper pp. 485–492)

**Research Papers**

- Biochemical characterization of the chondroitinase ABC I active site V. Prabhakar, R. Raman, I. Capila, C.J. Bosques, K. Pojasek and R. Sasisekharan 395–405  
 Published on the Internet 23 August 2005,  
 doi:10.1042/BJ20050532
- Novel human-derived cell-penetrating peptides for specific subcellular delivery of therapeutic biomolecules C. de Coupade, A. Fittipaldi, V. Chagnas, M. Michel, S. Carlier, E. Tasciotti, A. Darmon, D. Ravel, J. Kearsey, M. Giacca and F. Cailler 407–418  
 Published as BJ Immediate Publication 29 April 2005,  
 doi:10.1042/BJ20050401
- Characterization of the ATPase activity of topoisomerase II from *Leishmania donovani* and identification of residues conferring resistance to etoposide T. Sengupta, M. Mukherjee, A. Das, C. Mandal, R. Das, T. Mukherjee and H.K. Majumder 419–426  
 Published as BJ Immediate Publication 18 May 2005,  
 doi:10.1042/BJ20042128
- A VEGF/JAK2/STAT5 axis may partially mediate endothelial cell tolerance to hypoxia A.C. Dudley, D. Thomas, J. Best and A. Jenkins 427–436  
 Published as BJ Immediate Publication 27 May 2005,  
 doi:10.1042/BJ20050351
- A role for tumour necrosis factor  $\alpha$  in human small bowel iron transport N. Sharma, A.H. Laftah, M.J. Brookes, B. Cooper, T. Iqbal and C. Tselepis 437–446  
 Published as BJ Immediate Publication 18 May 2005,  
 doi:10.1042/BJ20050256
- Cytoprotection by glycine against ATP-depletion-induced injury is mediated by glycine receptor in renal cells C. Pan, X. Bai, L. Fan, Y. Ji, X. Li and Q. Chen 447–453  
 Published as BJ Immediate Publication 19 April 2005,  
 doi:10.1042/BJ20050141
- The signal peptide of the rat corticotropin-releasing factor receptor 1 promotes receptor expression but is not essential for establishing a functional receptor M. Alken, C. Rutz, R. Köchl, U. Donalies, M. Oueslati, J. Furkert, D. Wietfeld, R. Hermosilla, A. Scholz, M. Beyermann, W. Rosenthal and R. Schülein 455–464  
 Published as BJ Immediate Publication 18 May 2005,  
 doi:10.1042/BJ20050113
- Leishmania major* encodes an unusual peroxidase that is a close homologue of plant ascorbate peroxidase: a novel role of the transmembrane domain S. Adak and A.K. Datta 465–474  
 Published as BJ Immediate Publication 26 April 2005,  
 doi:10.1042/BJ20050311

Mapping leptin-interacting sites in recombinant leptin-binding domain (LBD) subcloned from chicken leptin receptor <i>Published as BJ Immediate Publication 21 April 2005, doi:10.1042/BJ20050233</i>	L. Niv-Spector, N. Raver, M. Friedman-Einat, J. Grosclaude, E.E. Gussakovsky, O. Livnah and A. Gertler	475–484
Effect of Na <sup>+</sup> binding on the conformation, stability and molecular recognition properties of thrombin <i>Published as BJ Immediate Publication 23 June 2005, doi:10.1042/BJ20050252</i>	V. De Filippis, E. De Dea, F. Lucatello and R. Frasson	485–492
The human $\beta$ -glucuronidase C5-epimerase gene is transcriptionally activated through the $\beta$ -catenin–TCF4 pathway <i>Published as BJ Immediate Publication 27 April 2005, doi:10.1042/BJ20050152</i>	G. Ghiselli and A. Agrawal	493–499
Age-associated decline in mitochondrial respiration and electron transport in <i>Drosophila melanogaster</i> <i>Published as BJ Immediate Publication 26 April 2005, doi:10.1042/BJ20042130</i>	M. Ferguson, R.J. Mockett, Y. Shen, W.C. Orr and R.S. Sohal	501–511
Isolation, subunit composition and interaction of the NDH-1 complexes from <i>Thermosynechococcus elongatus</i> BP-1 <i>Published as BJ Immediate Publication 19 May 2005, doi:10.1042/BJ20050390</i>	P. Zhang, N. Battchikova, V. Paakkarinen, H. Katoh, M. Iwai, M. Ikeuchi, H.B. Pakrasi, T. Ogawa and E.-M. Aro	513–520
Cloning and characterization of the human glutathione synthetase 5'-flanking region <i>Published as BJ Immediate Publication 12 May 2005, doi:10.1042/BJ20050439</i>	T.D. Lee, H. Yang, J. Whang and S.C. Lu	521–528
The semi-phosphorylative Entner–Doudoroff pathway in hyperthermophilic archaea: a re-evaluation <i>Published as BJ Immediate Publication 4 May 2005, doi:10.1042/BJ20041711</i>	H. Ahmed, T.J.G. Ettema, B. Tjaden, A.C.M. Geerling, J. van der Oost and B. Siebers	529–540
Role of chirality in peptide-induced formation of cholesterol-rich domains <i>Published as BJ Immediate Publication 2 June 2005, doi:10.1042/BJ20050649</i>	R.M. Epanand, S.D. Rychnovsky, J.D. Belani and R.F. Epanand	541–548
NPC1 late endosomes contain elevated levels of non-esterified ('free') fatty acids and an abnormally glycosylated form of the NPC2 protein <i>Published as BJ Immediate Publication 17 May 2005, doi:10.1042/BJ20050236</i>	F.W. Chen, R.E. Gordon and Y.A. Ioannou	549–561
Modification of blood cell PrP epitope exposure during prion disease <i>Published as BJ Immediate Publication 10 May 2005, doi:10.1042/BJ20050571</i>	A.M. Thackray, S.J. Ryder and R. Bujdoso	563–571
NMR structural analysis of a peptide mimic of the bridging sheet of HIV-1 gp120 in methanol and water <i>Published as BJ Immediate Publication 16 May 2005, doi:10.1042/BJ20050442</i>	K. Chakraborty, P. Shivakumar, S. Raghothama and R. Varadarajan	573–581
<i>Bacillus subtilis</i> 3-deoxy-D-arabino-heptulosonate 7-phosphate synthase revisited: resolution of two long-standing enigmas <i>Published as BJ Immediate Publication 4 May 2005, doi:10.1042/BJ20050294</i>	J. Wu, G.Ya. Sheflyan and R.W. Woodard	583–590
HIV-1 Nef regulates the release of superoxide anions from human macrophages <i>Published as BJ Immediate Publication 25 April 2005, doi:10.1042/BJ20042139</i>	E. Olivetta, D. Pietraforte, I. Schiavoni, M. Minetti, M. Federico and M. Sanchez	591–602
