

CONTENTS OF VOLUME 40, No. 3, 1946

(All rights reserved)

	PAGE
Chemical constitution and fungistatic action of organic sulphur compounds. By W. H. DAVIES and W. A. SEXTON	331
The composition of bovine cervical mucins and their reaction with oxidizing agents. By E. BOYLAND	334
Studies in penicillin production by <i>Penicillium notatum</i> , in surface culture. I. A preliminary study of the metabolism of carbon, nitrogen, sulphur and phosphorus. By H. J. D. HOCKENHULL. (With eleven figures)	337
Studies on the specificity of choline esterase in <i>Helix pomatia</i> . By K.-B. AUGUSTINSSON. (With six figures)	343
A method for the determination of fat in faeces. By F. S. FOWWEATHER and W. N. ANDERSON	350
The solubilization of polycyclic aromatic hydrocarbons by purines. By H. WEIL-MALHERBE	351
Effects of purines on fluorescent solutions. By H. WEIL-MALHERBE	363
The influence of biotin upon the relative lipotropic effects of choline and inositol. By C. H. BEST, C. C. LUCAS, J. M. PATTERSON and J. H. RIDOUT. (With one figure)	368
The antagonism of some antimalarial drugs by riboflavin. By J. MADINAVETIA. (With one figure)	373
The isolation of pregnane-3(α)-ol-20-one from the hydrolysis products of 'sodium pregnanediol glucuronidate'. By G. F. MARRIAN and N. GOUGH.	376
The inhibition of urease and succinoxidase by metabolic products of <i>p</i> -dimethylaminoazobenzene and by some related amines. By L. A. ELSON and C. HOCH-LIGETI. (With four figures)	380
The calcium and nitrogen content of human bone tissue cleaned by micro-dissection. By S. L. BAKER, E. C. BUTTERWORTH and F. A. LANGLEY	391
The cerimetric determination of glucuronic acid, using the Conway burette. By G. A. LEVY	396
The recognition of material present in horse muscle affecting the formation of α -toxin by a strain of <i>Clostridium welchii</i> . By H. J. ROGERS and B. C. J. G. KNIGHT. (With two figures)	400
The metabolism of sulphapyridine in the rabbit. By H. G. BRAY, F. C. NEALE and W. V. THORPE. (With one figure)	406
A note on the cerimetric determination of blood glucose. By R. H. NIMMO-SMITH	414
Effect of mastication on the ascorbic acid content of raw vegetables. By G. N. JENKINS	415
The tryptophanase-tryptophan reaction. 7. Further evidence regarding the mechanism of the enzymic degradation of tryptophan to indole: criticism of the theory that β - <i>o</i> -aminophenylacetaldehyde is the indole-forming intermediate. By J. W. BAKER, F. C. HAPPOLD and N. WALKER	420
Comparative microbiological assays of members of the vitamin B complex in yeast and liver extracts. By W. B. EMERY, N. MCLEOD and F. A. ROBINSON. (With ten figures)	426
The sedimentation constant of insulin. By H. GUTFREUND and A. G. OGSTON	432

Proceedings of the Biochemical Society

The specific property solubility test for protein purity and its complete analysis at constant pH and temperature. By J. S. FALCONER and D. B. TAYLOR	xxix
The preparation of pure liver esterase. By J. S. FALCONER and D. B. TAYLOR	xxix
The metabolism of aromatic amines. By L. A. ELSON, F. GOULDEN and F. L. WARREN	xxix
The origin and function of seminal fructose. By T. MANN	xxix
The formation of nicotinamide from nicotinic acid by rat tissues. By P. ELLINGER	xxxi

CONTENTS

	PAGE
The influence of changes in diet and of drugs on the urinary elimination of nicotinamide methochloride by rats. By P. ELLINGER	xxxiii
Penicillin production on fractions from the pea (<i>Pisum sativum</i>). By R. P. COOK and M. B. BROWN	xxxiv
Microbial decomposition of glutamine. By H. McILWAIN	xxxiv
HCl secretion in the isolated gastric mucosa. By R. E. DAVIES	xxxv
Relations between HCl secretion and electrical phenomena in frog gastric mucosa. By E. E. CRANE, R. E. DAVIES and N. M. LONGMUIR	xxxvi
The menstrual cycle and creatine-creatinine excretion. By G. A. MAW	xxxvii
Creatinine formation in the isolated rabbit kidney. By R. B. FISHER	xxxviii
Observations on the indirect action of ionizing radiation on aqueous solutions. By W. M. DALE, J. V. DAVIES and W. J. MEREDITH	xxxviii
The distribution of guanin and of fluorescent substances in the eyes of fish. By A. PIRIE	xxxix

INDEX OF AUTHORS

	PAGE		PAGE
Anderson, W. N., 350	350	Knight, B. C. J. G.	400
Augustinsson, K.-B.	343	Langley, F. A.	391
Baker, J. W.	420	Levvy, G. A.	396
Baker, S. L.	391	Longmuir, N. M.	xxxvi
Best, C. H.	368	Lucas, C. C.	368
Boyland, E.	334	McIlwain, H.	xxxiv
Bray, H. G.	406	McLeod, N.	426
Brown, M. B.	xxxiv	Madinaveitia, J.	373
Butterworth, E. C.	391	Mann, T.	xxix
Cook, R. P.	xxxiv	Marrian, G. F.	376
Crane, E. E.	xxxvi	Maw, G. A.	xxxvii
Dale, W. M.	xxxviii	Meredith, W. J.	xxxviii
Davies, J. V.	xxxviii	Neale, F. C.	406
Davies, R. E.	xxxv, xxxvi	Nimmo-Smith, R. H.	414
Davies, W. H.	331	Ogston, A. G.	432
Ellinger, P.	xxxv, xxxiii	Patterson, J. M.	368
Elson, L. A.	380, xxix	Pirie, A.	xxxix
Emery, W. B.	426	Ridout, J. H.	368
Falconer, J. S.	xxix	Robinson, F. A.	426
Fisher, R. B.	xxxviii	Rogers, H. J.	400
Fowweather, F. S.	350	Sexton, W. A.	331
Gough, N.	376	Taylor, D. B.	xxix
Goulden, F.	xxix	Thorpe, W. V.	406
Gutfreund, H.	432	Walker, N.	420
Happold, F. C.	420	Warren, F. L.	xxix
Hockenhull, D. J. D.	337	Weil-Malherbe, H.	351, 363
Hoch-Ligeti, C.	380		
Jenkins, G. N.	415
