**Instructions to Authors**

- **General policy** The Biochemical Journal publishes papers in English in all fields of biochemistry and cellular and molecular biology, for which they make a sufficient contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing results. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented therein aims to advance the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The Biochemical Journal will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in unrefereed symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is published it will not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects. Authors may suggest potential reviewers for their papers, but the journal is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to be excluded from the review process, and such requests will usually be respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals. The following types of paper are included in the journal:

- **Research Papers** are the normal form of publication, and may be of any length that is justified by their content. However, because of pressure for space in the journal, no paper, however important, will be accepted if it exceeds the minimum length required for submission.

- **Accelerated Publications (APs)** are short (normally four printed pages) papers bringing to the attention of the research community a particularly novel and significant finding(s) to the authors. APs receive full but accelerated reviewing. The criteria of 'novelty and significance' are strictly enforced, and papers may be rejected solely on the grounds of lack of novelty and significance. APs are not a path to accelerated publication of sound but non-urgent material. Authors must include in their letter of submission a brief statement of why they believe their AP merits accelerated treatment. Colour figures will be provided for free of charge in APs, provided the use of colour is deemed scientifically necessary by the reviewers.

**Reviews** usually will be solicited, although unsolicited reviews will be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a short (one page) summary of the area they propose to cover.

- **Procedure for submission** These instructions do not replace the official Biochemical Journal Instructions to Authors (http://www.biochemJ.org). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors are advised to make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the Biochemical Journal contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work' must be accompanied by the names of all persons concerned; a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned, and both of these types of citation are permitted in the text only, not in the list of references.

- **Multimedia adjuncts** The Biochemical Journal offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies, PDB for structures and Flash for animated schemes. There is no extra charge associated with the publication of a multimedia adjunct online.

- **COPES** The Biochemical Journal is a member of the Committee on Publication Ethics and endorses its guidelines, which are available at http://publicationethics.org.uk

---

**Other information**

The Biochemical Journal is published and distributed by Portland Press Ltd on behalf of the Biochemical Society. It is published twice monthly; in 2008 volumes 409–416 (three parts each) will appear. This subscription also includes an author and key-word index.

- **Abstracted/indexed in:** BIOBASE, BIOSIS, CAB International, Chemical Abstracts Service, Current Contents, EMBASE, International Food Information Service, Medline/Index Medicus, ProQuest Information & Learning, Science Citation Index.

- **Subscription rates** Institutional subscription rates for 2008 are shown below. Subscribers to the Biochemical Journal can subscribe additionally to the Biochemistry, Transactions and Applied Biochemistry on a joint subscription at a reduced rate (see www.portlandpress.com for further details). Terms are cash with order (US$) or GBP, and for remittances in US$ payable to Portland Press, Inc. or in UK, or US$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros, or against pro forma invoice. Orders should be sent to the address shown, to your usual agent or purchased online at www.portlandpress.com.

Overseas rates include airfreight. Airspeeded delivery is available at an additional cost of £73/E/124.

Value Added Tax (VAT) on online-only and combined subscriptions at 17.5% is due on supplies made to subscribers in the UK, and to non-registered subscribers elsewhere in the EU. If in the EU please state your VAT number otherwise VAT may be charged at the appropriate national rate.

- **Electronic back archive** This is freely available to all users with Internet access.

- **Microfile and back issues** Volumes 102–336 of the Biochemical Journal are available on microfiche. Back issues are also available. Further details may be obtained from the address below.

- **Subscription Department** Portland Customer Services R. P.O. Box 32, Commerce Way, Colchester CO2 8HP, Essex, U.K. (telephone 01206 793851; fax 01206 793931; email sales@portland-services.com).

- **Advertising** Enquiries about advertising should be addressed to: Mark Burgess, Editorial Department, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K., tel.: +44 (0)20 7280 4110; fax: +44 (0)20 7280 4169; email editorial@portlandpress.com.

- **Advertising** Enquiries about advertising should be addressed to: Mark Burgess, Editorial Department, Portland Press Ltd, Third Floor, Eagle House, 16 Procter Street, London WC1V 6NX, U.K. (telephone +44 (0)20 7280 4110; fax: +44 (0)20 7280 4169; email editorial@portlandpress.com).

**Accelerated Publications (APs)** are published online in PDF format as soon as they are accepted, unless the author requests that this not be done. Immediate Publications are listed in and accessible through Medline, and are freely available to anyone with Internet access.

**Opt2Pay** Choose to make your paper freely available. For more information see www.biochemJ.org.
