General policy The Biochemical Journal publishes papers in English in all fields of biochemistry and cellular and molecular biology. Authors make a significant contribution to biochemical knowledge. Papers may include new results obtained experimentally, descriptions of new experimental methods of biochemical importance, or new interpretations of existing experimental data. Novel theoretical contributions will be considered equally with papers dealing with experimental work. All work presented must have the aim of the development of biochemical concepts rather than the mere recording of facts. Preliminary, confirmatory or inconclusive work will not be published. The Biochemical Journal will not publish material that has been wholly or largely published elsewhere, even as a preliminary communication or in an unrefereed symposium proceedings or on the World Wide Web (WWW); equally, fragmentation of research into the 'least publishable unit' is discouraged.

Submission of a paper implies that it has been approved by all the named authors, that all persons entitled to authorship have been so named, that it reports unpublished work that is not under consideration elsewhere, and that if the paper is accepted for publication, all authors will transfer to the Biochemical Society the copyright in the paper, which will then not be published elsewhere in the same form, in any language, without the consent of the Society. Authors will be required to sign an undertaking to these effects.

Authors may suggest potential reviewers for their papers, but the editor is under no obligation to follow such suggestions. Authors may also specify the names of those they wish to exclude from the review process, and such requests will be usually respected unless, in the opinion of the journal, such a request unreasonably excludes all the expertise available to it in that scientific area.

To allow the reviewers to assess possible overlap with previous work, all submitted papers must be accompanied by duplicate copies of the author's relevant published work, including that on the WWW, and of all related papers in press or under editorial consideration in this or other journals.

The following types of paper are included in the journal:

- Research Papers are the normal form of publication, and may be of any length that is justified by their content. However, because of pressure on space, the journal is under no obligation to accept papers that are solely of high theoretical interest, whatever its scientific merits, will be accepted if it exceeds the minimum length required for precision in describing the experiments and clarity in interpreting them. As a guide, most Research Papers published in the Biochemical Journal are of between six and eight printed pages. A concise well-written paper tends to be published more rapidly.

- Accelerated Publications (APs) are short (novel and single-printed pages) papers bringing to the attention of the research community the novelty and significance of findings. They may be published free of charge in APs, provided the use of colour is deemed scientifically necessary by the reviewers.

- Reviews will usually be solicited, although unsolicited reviews may be considered for publication. Prospective writers of reviews should first consult the Reviews Editor, via the editorial office, and should enclose a (one page) summary of the area they propose to cover.

- Procedure for submission These instructions do not replace the official Biochemical Journal Instructions to Authors (http://www.BiochemJ.org). Authors are encouraged to refer to these for overall guidelines on submitting a paper. Before preparing papers for the journal, authors are advised to make sure that they make themselves familiar with the general format, such as the use of cross-headings, layout of tables and figures and citation of references. A full page of text in the Biochemical Journal contains approximately 1200 words; when calculating the printed length of papers, allowance must be made for the space occupied by tables and figures and the number of text words reduced accordingly.

The numerical system of references must be used. A reference to 'unpublished work' must be accompanied by the names of all persons concerned: a reference to a 'personal communication' must be supported by written permission for the quotation from the person or persons concerned; both of these types of citation are permitted in the text only, not in the list of references.

- Multimedia adjuncts The Biochemical Journal Online offers authors the opportunity to enhance their papers with multimedia adjuncts (e.g. time-lapse movies, three-dimensional structures, animated schemes). These will be submitted to peer review alongside the manuscript. To submit a paper with a multimedia adjunct, please attach the file when you submit your manuscript electronically. Preferred formats are QuickTime for time-lapse movies, PDB for structures and Flash for animated schemes. There is no extra charge associated with the publication of a multimedia adjunct online.

Other information

The Biochemical Journal is published and distributed by Portland Press Limited on behalf of the Biochemical Society. It is published twice monthly, in 2010 volumes 425–432 (three parts each year). The subscription also includes an author and key-word index.

- Subscription rates Institutional subscription rates for 2010 are shown below. Subscribers to the Biochemical Journal can subscribe additionally to the Biochemistry Transactions and Bio-technology and Applied Biochemistry on a joint subscription at a reduced rate (see www.portlandpress.com for further details). Terms are cash with order (US$180.50) or sterling (rest of the world £119.50) or US$ equivalent at current rate of exchange; subscribers in the EU may pay in £ sterling or Euros), or against pro forma invoice. Orders should be sent to the address shown, to your usual agent or purchased online at www.portlandpress.com.

- Advertising Enquiries about advertising should be addressed to: Mark Burgess, Editorial Department, Portland Press Limited Third Floor, Charles Darwin House, 12 Roger Street, London WC1N 2UJ, U.K., tel: +44 (0)20 7685 2410; fax: +44 (0)20 7685 2469; email: editorial@portlandpress.com.

- Queries and correspondence Authors in the Americas should address all queries and correspondence about their submission to: Dr Sharon Schendel, BJ USA, The Sanford-Burnham Institute for Medical Research, 10901 N. Torrey Pines Road, La Jolla, CA 92037, U.S.A. (telephone +1 858 795 5283; fax +1 858 795 5284; editorial@biochemjusa.org). Authors in the UK, the rest of Europe, Japan, and the rest of the world should contact: The Publisher, Biochemical Journal, Portland Press Limited, Third Floor, Charles Darwin House, 12 Roger Street, London WC1N 2UJ, U.K. (telephone +44 20 7685 2410; fax +44 20 7685 2469; editorial@portlandpress.com).

- Colour figures Colour figures are published free of charge provided that the corresponding author on the published paper has been a member of the Biochemical Society for at least 2 years and that the use of colour is deemed scientifically necessary by the reviewers. Otherwise the charges are £550 for the first colour figure and £337 for each subsequent colour figure.

- COPE The Biochemical Journal is a member of the Committee on Publication Ethics and endorses its guidelines, which are available at http://publicationethics.org.uk
