

CONTENTS OF VOLUME 49, No. 5, 1951

(All rights reserved)

	PAGE
The component acids of the perinephric and interscapular fats of a rabbit. By G. CLÉMENT and M. L. MEARA	561
Studies in the biochemistry of micro-organisms. 84. The colouring matters of <i>Penicillium nalgiovensis</i> LAXA. Part I. Nalgiovensin and nalgiofaxin. Isolation, derivatives and partial structures. By H. RAISTRICK and J. ZIFFER	563
The influence of a high-sucrose diet on the calcium and phosphorus percentage of the rat femur, and a comparison with its effect on the enamel and dentine of the rat incisor teeth. By R. L. HARTLES	574
Studies on the metabolism of the Protozoa. 1. Metabolism of the parasitic flagellate, <i>Trypanosoma lewisi</i> . By J. F. RYLEY. (With four figures)	577
The dimensions of the particle of hyaluronic acid complex in synovial fluid. By A. G. OGSTON and J. E. STANIER. (With three figures)	585
A micro-method for the estimation of uronic acids. By A. G. OGSTON and J. E. STANIER. (With one figure)	591
The reduction of glutathione by plant tissues. By L. W. MAPSON and D. R. GODDARD. (With eleven figures)	592
Studies on the enzymic oxidation of succinic acid containing deuterium in the methylene groups. By M. B. THORN. (With five figures)	602
Synthesis of milk fat from acetic acid ($\text{CH}_3^{14}\text{COOH}$) by the perfused isolated bovine udder. By A. T. COWIE, W. G. DUNCOMBE, S. J. FOLLEY, T. H. FRENCH, R. F. GLASCOCK, L. MASSART, G. J. PEETERS and G. POPJÁK	610
The turnover number of cholinesterase. By W. K. BERRY	615
The preparation and properties of β -glucuronidase. 2. Centrifugal fractionation of water homogenates and the nature of the sedimentable fraction. By P. G. WALKER and G. A. LEVY. (With four figures)	620
Degradative studies on the 'core' resulting from chymotryptic digestion of insulin. By J. M. L. STEPHEN. (With two figures)	629
The spectrophotometric determination of ascorbic acid in tissue extracts, particularly those of the walnut (<i>Juglans regia</i>). By C. DAGLISH. (With four figures)	635
The occurrence of ascorbic acid in the walnut (<i>Juglans regia</i>). By C. DAGLISH. (With five figures)	639
Non-protein nitrogenous constituents of rye grass: ionophoretic fractionation and isolation of a 'bound amino-acid' fraction. By R. L. M. SYNGE. (With three figures)	642
Paper chromatography of amines. By J. M. BREMNER and R. H. KENTEN. (With two figures)	651
β -(3:4-dihydroxyphenyl)ethylamine (hydroxytyramine) in normal human urine. By U. S. VON EULER, U. HAMBERG and S. HELLNER. (With two figures)	655
The cytochrome system of adrenal medulla. By C. L. TSOU. (With four figures)	658
Further observations on the <i>in vitro</i> stimulation by insulin of fat synthesis by lactating mammary gland slices. By J. H. BALMAIN and S. J. FOLLEY	663
The formation of β -keto adipic acid by bacterial fission of aromatic rings. By B. A. KILBY	671
Comparison of haem <i>a</i> , the dichroic haem of heart muscle, and of porphyrin <i>a</i> with compounds of known structure. By R. LEMBERG and J. E. FALK. (With two figures)	674
An improved procedure for the determination of carbon in organic compounds in aqueous solution. By P. J. HEALD. (With one figure)	684
The oxidation in liver of L-tyrosine to acetoacetate through <i>p</i> -hydroxyphenylpyruvate and homogentisic acid. By W. E. KNOX and M. LEMAY-KNOX. (With four figures)	686
Some factors affecting anthocyanin synthesis in cress seedlings. By B. P. EDDY and L. W. MAPSON. (With six figures)	694

	PAGE
The nitration of benzoic and phenylacetic acids and phenylalanine: the chemical basis of the Mohler and Kapeller-Adler reactions. By C. T. BEER, F. DICKENS and D. SALMONY. (With one figure)	700
The action of sulphhydryl inhibitors upon <i>isocitric</i> dehydrogenase with especial reference to the behaviour of some trivalent arsenicals. By W. D. LOTSPEICH and R. A. PETERS. (With four figures)	704
The biological action of substances related to thyroxine. 2. Further derivatives of 3:5-diiodo-4-hydroxybenzoic acid. By J. H. WILKINSON, M. M. SHEAHAN and N. F. MACLAGAN. (With three figures)	710
The biological action of substances related to thyroxine. 3. Substances derived from 3:5-diiodo-4-hydroxybenzaldehyde and related compounds. By J. H. WILKINSON, M. M. SHEAHAN and N. F. MACLAGAN	714
Comparative studies of 'bile salts'. 3. The conversion of pythocholic acid to deoxycholic acid. By G. A. D. HASLEWOOD	718

Proceedings of the Biochemical Society

The metabolism of azobenzene and <i>p</i> -hydroxyazobenzene in the rabbit. By H. G. BRAY, R. C. CLOWES and W. V. THORPE	lxxv
The metabolism of 2:3:5:6-tetrachloronitrobenzene and 2:3:4:5-tetrachloronitrobenzene in the rabbit. By H. G. BRAY, Z. HYBS, H. J. LAKE and W. V. THORPE	lxxv
<i>Leuconostoc citrovorum</i> factor and the synthesis of serine by micro-organisms. By J. LASCELLES, M. J. CROSS and D. D. WOODS	lxxvi
Adaptation of <i>Bacillus subtilis</i> to fatty acids. By H. LASER	lxxvi
Effect of carbon monoxide on the level of energy-rich phosphate in surviving muscle. By R. A. LAWRIE	lxxvii
Vitamin B ₁₂ activity for chicks and different micro-organisms of gut contents and faeces. By M. E. COATES, J. E. FORD, G. F. HARRISON, S. K. KON, J. W. G. PORTER, W. F. J. CUTHBERTSON and H. F. PEGLER	lxxvii
The effect of antibiotics on the growth of chicks deprived of vitamins of the B complex. By M. E. COATES, C. D. DICKINSON, G. F. HARRISON and S. K. KON	lxxviii
The formation of fatty acids by a Gram-negative coccus. By S. R. ELSDEN, F. M. C. GILCHRIST, D. LEWIS and B. E. VOLCANI	lxxix
The metabolism of creatine by a pseudomonad. By G. APPELYARD	lxxx
The oxidation of thymine by an unidentified bacterium. By R. D. BATT and D. D. WOODS	lxxx
Further studies on porphobilinogen. By P. E. BROCKMAN and C. H. GRAY	lxxxi
The chromatography of steroid benzoates. By R. V. BROOKS, W. KLYNE and E. MILLER	lxxxii
The metabolism of collagen from skin, bone and liver in the normal rat. By J. C. PERRONE and H. G. B. SLACK	lxxxii
Effect of 2:4-dinitrophenol on glycolysis in mammary gland and in brain tissue. By C. TERNER	lxxxiii
Paper chromatography of urinary acids and phenols. By R. J. BOSCOFF	lxxxiv
Urinary components in rats and human subjects with fibrosis of the liver. By K. ATERMAN and R. J. BOSCOFF	lxxxiv
Colorimetric determination of arylsulphatase. By D. ROBINSON, J. N. SMITH and R. T. WILLIAMS	lxxxiv
Sucrose breakdown by enzyme preparations from moulds. By F. J. BEALING and J. S. D. BACON	lxxxv
The metabolism of ¹⁴ C-labelled bicarbonate in the cat. By H. L. KORNBERG, R. E. DAVIES and D. R. WOOD	lxxxv
Sources of error in the assay of β -glucuronidase in animal tissues. By P. G. WALKER and G. A. LEVY	lxxxvi
An amyolytic degradation of rabbit-liver glycogen. By D. J. BELL and D. J. MANNERS	lxxxvii
The amino groups of conalbumin, ovomucoid and avidin. By H. FRAENKEL-CONRAT and R. R. PORTER	lxxxviii
The absorption of inorganic phosphate from the rumen of the sheep. By R. SCARISBRICK and T. K. EWER	lxxxix
Acetate metabolism of <i>Aerobacter aerogenes</i> . By S. DAGLEY, G. A. MORRISON and E. A. DAWES	lxxxix
