Chemical properties of two mucoids from bovine cervical mucin. By R. A. GIBBONS. . . . .	209
The physicochemical properties of two mucoids from bovine cervical mucin. By R. A. GIBBONS and F. A. GLOVER . . . . .	217
Fractionation of a leucocidin from <i>Staphylococcus aureus</i> . By A. M. WOODIN . . . . .	225
The starch of the tuber and shoots of the sprouting potato. By W. BANKS and C. T. GREENWOOD . . . . .	237
The chemical composition of bull semen with special reference to nucleic acids, free nucleotides and free amino acids. By P. M. BHARGAVA, M. W. H. BISHOP and T. S. WORK . . . . .	242
Incorporation of [ <sup>14</sup> C]amino acids into the proteins of bull spermatozoa. By P. M. BHARGAVA, M. W. H. BISHOP and T. S. WORK . . . . .	247
Incorporation of <sup>65</sup> Zn in the sub-cellular fractions of the liver and spontaneously occurring mammary tumours of mice after the injection of zinc-glycine containing <sup>65</sup> Zn. By M. E. BARTHOLOMEW, R. TUPPER and A. WORMALL . . . . .	256
Incorporation of canavanine by <i>Staphylococcus aureus</i> 524 SC. By M. H. RICHMOND . . . . .	261
Permeability of <i>Escherichia coli</i> to ribose and ribose nucleotides. By L. V. EGGLESTON and H. A. KREBS . . . . .	264
Cholinesterase, succinic dehydrogenase, nucleic acids, esterase and glutathione reductase in sub-cellular fractions from rat brain. By W. N. ALDRIDGE and M. K. JOHNSON . . . . .	270
The first glycine metabolic pool in man. By R. W. E. WATTS and J. C. CRAWHALL . . . . .	277
Liquid scintillation-counting for [ <sup>14</sup> C]steroids. By S. R. STITCH . . . . .	287
Studies on carbohydrate-metabolizing enzymes. 2. Trans- $\alpha$ -glucosylation by extracts of <i>Tetrahymena pyriformis</i> . By A. R. ARCHIBALD and D. J. MANNERS . . . . .	292
Enzyme systems in marine algae. 3. Trans- $\beta$ -glucosylation by extracts of <i>Cladophora rupestris</i> and <i>Ulva lactuca</i> . By W. A. M. DUNCAN, D. J. MANNERS and J. L. THOMPSON . . . . .	295
Metal ions as precipitants for nucleic acids and their use in the isolation of polynucleotides from leaves. By A. R. TRIM . . . . .	298
Bacterial degradation of the nitrobenzoic acids. 2. Reduction of the nitro group. By N. J. CARTWRIGHT and R. B. CAIN . . . . .	305
Studies on the succinate-neotetrazolium reductase system. Activation by vitamin K <sub>3</sub> . By T. F. SLATER. . . . .	314
Chromatographic studies with pig adrenocorticotrophin. By T. H. FARMER . . . . .	321
Mammalian glycosidases. 2. Properties of $\alpha$ -mannosidase and $\beta$ -galactosidase from rat epididymis. By J. CONCHIE and A. J. HAY . . . . .	327
The biological action of substances related to thyroxine. 11. Acetic acid analogues of thyroxine and triiodothyronine. By J. H. WILKINSON . . . . .	334
A method for the estimation of dehydroepiandrosterone in urine. By K. FOTHERBY . . . . .	339
Diet and the action of cortisone on protein metabolism. By G. A. J. GOODLAD and H. N. MUNRO . . . . .	343
The formation of thyroid hormones <i>in vivo</i> after the administration of K <sup>131</sup> I and thyrotropic hormone. By G. FEUER . . . . .	349
The purification of the proteolytic component of elastase. By D. A. HALL and J. W. CZERKAWSKI . . . . .	356
Turnover of nuclear and cytoplasmic ribonucleic acid in two types of animal cell, with some further observations on the nucleolus. By H. HARRIS. (With two plates) . . . . .	362
Intermediate reactions in protein synthesis by the isolated cytoplasmic-membrane fraction of <i>Bacillus megaterium</i> . By G. D. HUNTER, P. BROOKES, A. R. CRATHORN and J. A. V. BUTLER . . . . .	369
The biochemistry of aromatic amines. 6. The metabolism of 3:4-dimethylaniline in rats. By E. BOYLAND and P. SIMS . . . . .	377
The determination of chlorine, bromide and iodine in biological material by activation analysis. By H. J. M. BOWEN . . . . .	381

*Proceedings of the Biochemical Society*

	PAGE
The use of a perfusion apparatus to study continuously the transport of $^{131}\text{I}$ -labelled iodide by the small intestine. By J. D. ACLAND . . . . .	23 P
Changes in the metabolism of DL- $[\beta\text{-}^{14}\text{C}]$ serine and $[\text{}^{14}\text{C}]$ formate in the vitamin $\text{B}_{12}$ -deficient rat. By H. R. V. ARNSTEIN . . . . .	23 P
Studies on the synthesis of serum albumin by liver microsomes. By P. N. CAMPBELL and B. A. KERNOT	24 P
Mechanism of the glyoxalase I reaction and competitive inhibition by ophthalmic acid. By E. E. CLIFFE and S. G. WALEY . . . . .	25 P
The incorporation of amino acids into a ribonucleoprotein fraction of microsomes: a possible pathway of protein synthesis. By P. COHN . . . . .	25 P
Amines in blood and urine. By A. M. ASATTOOR and C. E. DALGLIESH . . . . .	26 P
Studies in the incorporation of $[\text{Me-}^{14}\text{C}]$ choline and L- $[\text{}^{14}\text{C}]$ serine into the phospholipids of subcellular particles of rat liver. By R. R. DILS and G. HÜBSCHER . . . . .	26 P
Observations on the metabolic fate of the sulphate esters of phenols. By K. S. DODGSON and N. TUDBALL	27 P
The breakdown of hyaluronic acid in rooster comb. By J. DOYLE and J. A. SZIRMAI . . . . .	28 P
The mechanism of glucuronide formation: a review. By G. J. DUTTON . . . . .	29 P
Autonomic reversible swelling in heart-muscle mitochondria (sarcosomes). By R. B. BEECHEY and F. A. HOLTON . . . . .	29 P
Action of mushroom tyrosinase on $[\text{16-}^{14}\text{C}]$ oestrone. By P. H. JELLINCK . . . . .	30 P
Protein interactions which condition metabolic response to electrical pulses in mammalian cerebral tissues. By H. McILWAIN . . . . .	30 P
The cure of the abnormal liability to haemolysis in vitamin E-deficient rats by $\text{NN}'$ -diphenyl- $p$ -phenylenediamine. By T. MOORE and I. M. SHARMAN . . . . .	31 P
Vitamin A deficiency and the ubiquinone and 'SC' of rat liver: the time factor. By R. A. MORTON and W. E. J. PHILLIPS . . . . .	32 P
Osmotic and chemical molecular weights of some derivatives from the mucoprotein of cartilage. By S. M. PARTRIDGE, H. F. DAVIS and G. S. ADAIR . . . . .	32 P
The action of lysozyme on the cell walls of Gram-positive micro-organisms. By H. R. PERKINS . . . . .	33 P
Gas-liquid radiochromatography. By G. POPJÁK, A. E. LOWE, D. MOORE, L. BROWN and F. A. SMITH . . . . .	33 P
The phospholipids in the human aorta. By E. B. SMITH . . . . .	34 P
The role of choline sulphate in the sulphur metabolism of fungi. By B. SPENCER and T. HARADA . . . . .	34 P
The distribution of polysaccharides in hyaline cartilage. By J. A. SZIRMAI and J. DOYLE . . . . .	35 P
The purification and properties of thyroxine deiodinase from skeletal muscle. By J. R. TATA . . . . .	36 P
The specificity of elastases. By J. THOMAS and S. M. PARTRIDGE . . . . .	36 P
The subcellular localization of transmitter substances in the central nervous system. By V. P. WHITTAKER	37 P
